Issue Updates: Commissioner Lytle said they are still working on getting the MBA Bond issue squared away for the Water Treatment Plant and Attorney Kent Snider noted he is still working on that. There was a comment that some applications have been turned in for self help housing.

Commissioner Tippetts talked with Bob Slagowski to trade some ground for ground. Kent Snider spoke with CIVCO and they are working on getting the legal descriptions so we can draft deeds to transfer the properties. James Olsen with the roads department asked that it be noted on the minutes that the State had asked that we certify the reflectivity of the signs. This has been completed.

Kent said that there has been an initial notice sent out to those people with properties that are not in compliance with code. Vicky Nelson has sent out 5 of these notices and all but one have complied. Kent stated we are in the process of filing charges against the one individual who is still out of compliance.

Citizen Comments: Christian Colovich asked if there was an update on the agreement and Kent Snider said he has been working on it and he still has stages 4-7 to complete before getting it before the Commissioners.

Commissioner Asay said he thought Steven Wood was having some issues about the grandstands as nobody was returning his calls. Jesse Platt thought he would join the meeting and he did. There was talk of borrowing stands for this year. Commissioner Lytle said we could talk to Sweetwater about borrowing the stands we have used in the past. Steven said the emphasis needs to be on ADA and Commissioner Tippetts thought that was part of it, but not the only consideration. Steven said there are mobile stands made in Iowa that are ADA compliant and within the budget. They would also have a higher resale value. Commissioner Lytle asked if the Board had been consulted and Steven said that the Board has not been completely formed yet. The bleachers being considered are not elevated, so dirt would need to be placed to allow the spectators to see beyond the fence. Commissioner Lytle recommended getting those interested together as the board. Steven said he had called several contractors and had not heard back from them. He was encouraged to try several of them again. Commissioner Tippetts will talk with Maxfields. HK and Timberworks have gotten back to us, but haven't responded since then. Steven had not contacted steel companies to see if they can do what is needed in time. Commissioner Tippetts thought a contract with a fabricator might lead to getting a bid from the contractor's to put it together. Commissioner Asay thought this approach would probably be more costly. Steven thought that this project may need more of a commercial builder. The fabricators may have contractors they use that could do this.

Cash Summary Report & Aging Report Review: The Cash Summaries were provided by the Recorder/Treasurer's Office. Commissioner Tippetts said that we applied for two different State Grants through the Weed Department and we have been awarded about \$108,000.00 between the two. This is about \$15,000 more than last year. Commissioner Tippetts stated good work to the weed department. Commissioner Lytle asked if there were some new PTIFs and Auditor Keri Palesen said she was not aware of any new PTIF accounts.

Commissioner Lytle motioned to accept the Cash Summary Report dated May 10, 2024 for all bank accounts. Commissioner Asay seconded the motion. The Commissioners voted as follows on the motion:

Discussion And Consideration Of Roads Planning With GIS Department: Cordell McCracken and Jesse Platt came into the meeting and provided printed maps and digital maps and said they wanted to know how the Commissioners wanted the final map to appear. Commissioner Lytle brought up Sear's Canyon Road as there is a piece missing and it should be on there, especially in the SITLA area that we have received a right of way for. The Dino North is being reignited. There is a road up Scott Canyon and another that goes up Bender and then Chokecherry. The Three Corners Rd was also mentioned. The Clay Basin Meadows Road was incomplete and we have maintained this road in the past. Crumb Canyon is not showing the full distance, but part of it is impassable now. Offline might be more efficient to review everything and discuss each road.

There was more discussion on the Western side with roads on Phil Pico for SITLA and Broadbent land. The Dutch John area was reviewed as well as Goslin. The Marlo Road has gone bad due to the heavy rains. There were some roads that are on the BLM Travel Plan but they are not showing on our map near Willow Creek Butte. There might be some SITLA Rds. Jesse thought we needed to get James Olsen of the Road Department involved in this discussion. Scott Canyon needs to be added. Cottonwood needs to be considered as well as Bender. Other areas need to be looked at more closely and it can be done individually and then James can be drawn in to help finalize. Map D seemed to be the style option the Commissioners preferred. Jesse thought Cordell could do comments in workflow while working with each Commissioner. Jesse will reach out to BLM, Forest Service, SITLA and Sunrise Engineering to get roads and trails that are needed.

Discussion And Consideration Of 8th District Court Contract: Clerk Raymond said there are actually two contracts one is for the Courts and the other is for the Bailiff reimbursement. Commissioner Lytle asked if the Sheriff had had any comments. Brian was not sure he had seen it yet. Attorney Kent Snider was asked if there were any changes. It was stated that there was a slight increase however, it all looks to be good.

Commissioner Lytle motioned to approve the Administrative 8th District Courts contract including the Bailiff contract. Commissioner Asay seconded the motion. Both contracts run from July 1, 2024 - June 30, 2025. The Commissioners voted as follows on the motion:

	Yes	No	Abstained	Absent
Commissioner Tippetts:	X			
Commissioner Lytle:	X			
Commissioner Asay:	X			

The motion carried.

Discussion And Consideration Of Additional SYSK Funding For The Sheriff's Department: Commissioner Lytle noted that this was due to the LEO not being available in the Flaming Gorge District. Commissioner Lytle motioned to approve the increased SYSK funding of

\$21,500 Commissioner Asay seconded the motion. The Commissioners voted as follows on the motion:

	Yes	No	Abstained	Absent
Commissioner Tippetts:	X			
Commissioner Lytle:	X			
Commissioner Asay:	X			

The motion carried.

Discussion And Consideration Of RDA And Trails for Dutch John. Commissioner Tippetts noted the Trails was the only thing that was on the agenda and Clerk Raymond apologized for not getting this noted correctly. Mayor Butch Johns said the first thing was for equipment from Uintah County to work with on Trails in the County and Dutch John. Kent Snider said the MOU is on his desk, but it looks like we need a three way MOU. Commissioner Lytle said that we have to look at this carefully as we don't want to be prescriptive. There is a process and we have a Trails Plan. There was agreement that a trail system is of value but it shouldn't encumber or devalue the RDA property. Mayor Johns was told to not begin improving trails without formal request and approval from the RDA. Mayor Johns understood and wanted to see the MOU move forward as it is dead in the water. There was talk of developing a green zone that would protect private property from development. The MOU was stuck and maybe the Town needs to be on the MOU. Kent said that it is only between the Counties and not the Town. The Town is including funding next year to move trails forward. Commissioner Lytle said it would be good to get more information. The Town can require developers to allow trails but hasn't yet. They have had all kinds of talk about parks and trails from developers, but it has only been talk so far.

Mayor Johns said that he has been told by the Town's Attorney and staff that the County RDA can't do anything in Dutch John without an Interlocal Agreement (ILA) with the Town. He has done some research and it seems that is correct. Kent was asked about this and he said he would like to speak with the Town's Attorney and see where he is coming from. Mike Harrington is the Town's Attorney and the Mayor will have him reach out to Kent and Kent said he would try to make contact with him as well. We want to do something as we have agreed to try and work together, so in essence this is conversational, but it is also noticed that we need to look into this more. 17C-1-200 or maybe section 204 is the section that may apply. Mayor Johns is asking more questions and trying to get answers. We want to try and work together to resolve issues. Sometimes it might be uncomfortable, but you just have to move forward. Mayor Johns said the Town Council has been notified and now the RDA has been notified and he is continuing to come up with questions to ask the Town's Attorney. How do we get to where we want to be? Commissioner Lytle asked where do you want to be? The Mayor was unsure of where he wanted to be, but he just wanted to do the right thing. Every question he has brings up more questions. He just wanted to make the RDA aware of this potential issue.
