City Council Updates

Suzette Jackson

Discussion on Events

- National Trails Day
- Liberty Fest
- Other

Report and Discussion on Trails Presentation

City Council Work Session June 18th, 2024

- Part of the trail that could be repaired by volunteers.
 - Needs a lot of work and is a good trail.
 - The section that is circled has been destroyed by the contractor building the house.
-

- A. People have transported furniture up there to watch the sunset.
- B. This street crossing not user friendly. Sidewalk and curb (no walkway entrance), and the soil is off grade, which is a trip hazard if you walk down or an obstacle if you bike through it.
- C. Lower sections of this trail are overgrown with large prickly weeds.
- D. This is where the trail goes into the parking area, It is steep and usually there is a pickup parked there. This doesn't feel like a trailhead (no signage, steep grade, etc...).

Adjourn
