Crestview Village was approved with parcels (LV-CVV-16) and (LV-CVV-17)

(see attachment A originally plat)

- What was parcel LV-CVV-16 (which was approved) is now identified as LV-CVV-16-A on the County map (which was never approved by the city)
(property owner: Celia Macedo Florencio Gutierrez)
 - The back end of Parcel LV-136-A-1 (behind these (2) parcels was never part of Crestview Village subdivision) was split and is now part of LV-CVV-16-A (property owner: Celia Macedo Florencio Gutierrez)
 - This small addition of LV-136-A-1 property has an existing building on it, which we believe was a shed and then turned into a living space.
 - Years back Ash creek repaired the sewer line in front of these properties, and we were able to identify that the sewer running to LV-CVV-16 now LV-CVV-16-A (which has an existing home on it 555 North 290 West) runs to this back building as well as the culinary water service.
- Parcel LV-CVV-17, half was added to LV-CVV-16-A which was LV-CVV-16 the other half of what was LV-CVV-17 is identified as LV-CVV-17-A (which was never approved by the city)
 - The newly created LV-CVV-17-A originally LV-CVV-17 was added to lot LV-CR-2-9 (another subdivision) (property owner is Fidelina Hilerio Morales)
 - As far as the addition of what was LV-CVV-17 Now half of LV-CVV-16-A the other half of what was LV-CVV-17 is now LV-CVV-17-A and belongs to property LV-CR-2-9 of another subdivision should also be required to go through a subdivision amendment.
 - (see attachment B blue lines)
- Unknown what the intent for this back building is (on LV-16-A formally not part of this subdivision) our notes will refer to it as if they want it to be a separate dwelling.
 - ✓ They would have to go through a full subdivision amendment (cost would be sole on the owners)

- ✓ Address the section of building that encroaches into LV-CVV-16 now LV-CVV-16-A which has an existing home on it 555 North 290 West.
- ✓ Sewer would have to be separated.
- ✓ Culinary water would have to be separated.
- ✓ Secondary water would have to be separated.
- ✓ A sidewalk would have to be installed on both property's LV-CVV-16 and half of LV-CVV-17 now LV-CVV-16-A
- ✓ The building would have to be inspected and brought up to the current building codes.
- ✓ Setback requirements would have to be met.
- If they wanted to make the back building a detached dwelling as part of what was parcel LV-CVV-16 now LV-CVV-16-A (555 North 290 West, they would have to.)
 - ✓ A full subdivision amendment (cost would be sole on the owners)
 - In the subdivision amendment they would have to delete the (2) interior lot lines which comprise what was LV-CVV-16 now LV-CVV-16-A and half of what was LV-CVV-17 now part of the newly created LV-CVV-16-A the other half of what was LV-CVV-17 now part of the newly created LV-CVV-16-A is now part of LV-CR-17-A as not to infer that those are (2) different lots
 - (see attachment C green lines)
 - ✓ They would have to meet the requirements of the Detached dwelling units.
 - ✓ Install sidewalk.
 - ✓ They would be able to stay connected to
 - The Sewer
 - Water
 - Secondary water

○ (Attachment D is what they are proposing)

DRAFT

Ordinance No. _____

AN ORDINANCE OF THE CITY COUNCIL OF LAVERKIN, UTAH,
APPROVING A CHANGE TO THE ZONING MAP OF THE CITY OF LAVERKIN IN
CONNECTION WITH A CHANGE OF ZONING FROM RESIDENTIAL
AGRICULTURAL (R-A-1) TO ONE-FAMILY RESIDENTIAL (R-1-8) FOR CERTAIN
PROPERTY LOCATED WITHIN THE BOUNDARIES OF LAVERKIN.

WHEREAS an application for a zone change from Residential Agricultural (R-A-1) to One Family Residential (R-1-8) has been received for certain real property located within the boundaries of LaVerkin; and

WHEREAS a public hearing to receive and consider public input regarding said application was held on June 27, 2024, after notice of said hearing was given in accordance with Utah State law; and

WHEREAS the City Council deems it to be in the best interest and general welfare of the residents of the City of LaVerkin,

BE IT HEREBY ORDAINED by the City Council of LaVerkin Utah as follows:

1. That the zoning designation for the property described in Exhibit A attached hereto and incorporated herein as if fully set forth be changed from Residential Agricultural (R-A-1) to One-Family Residential (R-1-8).

2. That the official zoning map of the City of LaVerkin be changed to reflect the change of zoning approved hereby.

BE IT FURTHER ORDAINED that this ordinance shall take effect immediately upon publication or posting as required by Utah law.

PASSED AND APPROVED on this _____ day of _____, 2024.

City of LaVerkin

Kelly Wilson, Mayor

Attest:

(Seal)

Nancy Cline, City Recorder

DRAFT

On the _____ day of _____, at a regular meeting of the LaVerkin City Council held at 111 South Main Street in LaVerkin, Utah, the foregoing Ordinance was presented to the LaVerkin City Council, whereupon a motion to approve said Ordinance was made by _____ and _____ seconded by _____.

A roll call vote was then taken with the following results:

	Yes	No
Darren Prince	_____	_____
Blair Gubler	_____	_____
Patricia Wise	_____	_____
Richard Hirsch	_____	_____
Michael Gubler	_____	_____

Nancy Cline, City Recorder

Amendment of Zoning Map and Text of Zoning Ordinance.

Subject to the procedures set forth herein, the City Council may from time to time amend the text of this title and the zoning map, which may include changes in the number, shape, boundaries, or area of any zoning district, zoning district regulations or any other provision of this title. The provisions set forth herein shall not apply to temporary land use regulations which may be enacted without public hearing in accordance with Utah Code Ann. §10-9a-504. The use of development agreements in connection with a zone change to achieve the purposes of this chapter, as permitted by Utah Code Ann. §10-9a-532(1) is hereby authorized.

Initiation: Proposed amendments to the text of this title and the zoning map may be initiated by the City Council, Planning Commission, a property owner, or the duly authorized agent for a property owner.

Procedure: Zoning text and map amendments shall be considered and processed in accordance with the following:

1. The name, address, telephone number and email address of the applicant and the applicant's agent, if any.

Doug & Laurel Wilson, 974 North State Street, La Verkin, Utah 84745. 435-922-6678; douglawrel83@gmail.com

Kyson Spendlove, 42 S. 850 W. Hurricane, Utah 84737. 435-705-9794

Kyson.spendlove@interstaterock.com

2. The name and address of every person or company the applicant represents.

Doug & Laurel Wilson, 974 North State Street, La Verkin, Utah 84745. 435-922-6678; douglawrel83@gmail.com

Interstate Rock Products, Inc. 42 S 850 W Hurricane, Utah 84737. 435-635-2628

3. The requested amendment and reasons supporting the request.

Due to the lack of utilities to the property and to match the zoning of the East Subdivision called out at Cottonwood Hollow Ph. 4. The property owner is requesting to rezone to match that zoning.

4. If the proposed amendment requires a change in the zoning map, the application shall include an accurate property map showing present and proposed zoning classifications, all abutting properties with present zoning classifications, and an accurate legal description and approximate address of the area proposed to be rezoned

DRAFT

A RESOLUTION OF THE CITY COUNCIL OF LAVERKIN, UTAH, INCREASING CULINARY WATER FEES FOR ALL RESIDENTS AND BUSINESSES IN THE CITY OF LAVERKIN.

WHEREAS the City of LaVerkin is the owner and operator of a culinary water system serving the residents and businesses within the city; and

WHEREAS a portion of the culinary water used in said system and provided to said residents and businesses is purchased from the Washington County Water Conservancy District (hereinafter referred to as "the district") in accordance with the 2019 Washington County Water Conservancy District Revised Regional Water Supply Agreement (hereinafter referred to as "the agreement"), entered into by and between the district and the various municipalities in Washington County, Utah, including the City of LaVerkin; and

WHEREAS said district, pursuant to authority granted by the agreement, has periodically increased culinary water rates charged to the municipalities, including the City of LaVerkin, and has given notice to the city of an increase in the rate for purchase of water from the district from \$1.64 per thousand gallons to \$1.77 per thousand gallons, an increase of \$.13 per thousand gallons, effective July 1, 2024; and

WHEREAS said district has given indication that similar water rate increases are likely in the foreseeable future; and

WHEREAS the City of LaVerkin is financially unable to absorb such water rate increases and finds that it is necessary to pass said increases on to its residents and businesses;

and
WHEREAS the City Council of LaVerkin, Utah, finds that it is necessary and desirable for the orderly and efficient operation of the city's water system that the \$.13 per thousand gallons increase taking effect on July 1, 2024, as well as any additional future increases, be passed on to the residents and businesses in the City of LaVerkin,

NOW, THEREFORE, BE IT HEREBY RESOLVED by the City Council of LaVerkin, Utah as follows:

1. That the rate charged to all residents and businesses of the city for culinary water supplied by the city shall be increased by \$.13 per thousand gallons, effective July 1, 2024, and

2. That all future culinary water rate increases from the district to the city shall automatically be passed on to the residents and businesses in the city and shall be included in the rate charged by the City of LaVerkin to its residential and business customers, with said increase(s) to become effective as of the date(s) specified by Washington County Water Conservancy District.

BE IT FURTHER RESOLVED that this Resolution shall take effect immediately upon approval.

APPROVED on this _____ day of _____, 2024.

Nancy Cline, Recorder

AN ORDINANCE OF THE CITY COUNCIL OF LAVERKIN, UTAH, AMENDING
TITLE 5 CHAPTER 1 OF THE LAVERKIN CITY CODE PERTAINING TO ANIMAL
CONTROL.

WHEREAS, the City Council of LaVerkin, deems it necessary and desirable for the
preservation and protection of the public health, safety, and welfare of the residents of LaVerkin,
Utah, to approve and adopt amendments to Title 5 Chapter 1 of the LaVerkin City Code,

BE IT HEREBY ORDAINED by the City Council of LaVerkin, Utah, that Title 5 Chapter
1 of the LaVerkin City Code shall be, and is hereby, amended in its entirety as follows:

TITLE 5 POLICE REGULATIONS
CHAPTER 1 ANIMAL CONTROL

SECTION:

5-1-1: Definitions

5-1-2: Division of Animal Control

5-1-3: Dog License Procedure

5-1-4: Rabies Control

5-1-5: Kennel Prohibited

5-1-6: Specific Violations

5-1-7: Vicious Animals

5-1-8: Killing of a Dog

5-1-9: Impoundment of Animals

5-1-10: Sale of Dogs, Cats and Rabbits

5-1-11: Liability, Restitution; Order for Destruction Vicious Animals

5-1-12: Penalty for Violation

5-1-1: DEFINITIONS: As used in this chapter, the following words and terms shall have the
following meanings:

ABANDON: To intentionally deposit, leave, or drop off any live animal without providing for
the care of that animal in accordance with accepted animal husbandry practices or customary
farming practices, or in a situation where conditions present an immediate, direct and serious
threat to the life, safety or health of the animal. Abandon does not include returning wildlife to
its natural habitat

ANIMAL CONTROL OFFICER: Any peace officer or other person(s) designated by the
LaVerkin City Police Chief as the person(s) charged with enforcement of this Chapter.

ANIMAL FIGHTING EXHIBITION: Where an animal is caused to fight with (a) another animal of like kind for amusement or gain, or (b) a different kind of animal or creature for amusement or gain.

AT LARGE: any domesticated animal off the premises of the owner or other person having the care, custody or control of an animal, and not under the immediate control of such owner or other person. In the case of a dog, immediate control means on a leash, cord, chain, confined within a vehicle, or within the direct command of the owner or other person.

BITE: an actual puncture, tear or abrasion of the skin inflicted by the teeth of an animal.

CERTIFICATE OF SOURCE: Any document which establishes that such dog, cat or rabbit was directly obtained from a public animal control agency or shelter, society for the prevention of cruelty to animals shelter, humane society shelter, or other recognized animal rescue organization.

EMOTIONAL SUPPORT ANIMAL: Animals that provide companionship, relieve loneliness, or help with depression and anxiety, but do not have special training to perform tasks that assist people with disabilities.

IMPOUND: The picking up and taking to the animal shelter of any animal by the animal control officer.

KENNEL: Any residence or commercial establishment having more than (4) dogs for the purpose of boarding, breeding, keeping, buying, selling, grooming, letting for hire or training for a fee.

OWNER: Any person who owns or who has the care, custody and control of an animal.

SERVICE DOG: Any dog that: (a) is trained, or is in training, to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability, and (b) performs work or tasks or is in training to perform work or tasks, that are directly related to the individual disability.

UNLICENSED DOG: A dog for which the license for the current year has not been paid, or to which the tag provided for in this chapter is not attached. (Ord. 99-09, 9-1-1999)

VIOIOUS ANIMAL: Any animal which: (a) attacks or bites another animal or person without provocation, (b) has a known propensity, tendency or disposition to attack or bite another animal or person without provocation.

WILD ANIMAL: Any animal of a species that in its natural habitat is wild.

A. Created. There is hereby created within the LaVerkin City Police Department a Division of Animal Control under the supervision of the LaVerkin City Chief of Police, who shall designate such peace officers or other persons to act as animal control officers for the purpose of carrying out the provisions of this chapter.

B. Powers. Any peace officer or person designated as animal control officer shall have the following powers:

1. To capture, apprehend and impound any animal found in violation of this chapter, including any dog for which a license is required but has not been obtained, and any other animal in violation of the provisions of this chapter.

2. To enter onto private property, including during times of emergency into dwelling units, to investigate any violation of this chapter or take possession of any animal in violation of this chapter.

3. To issue citations to any person in violation of the provisions of this chapter.

4. To take such other action as may be reasonably necessary to protect the health, safety and welfare of the residents of LaVerkin in the enforcement of the provisions of this chapter, including killing a dog in accordance with Section 5-1-8 hereafter.

C. Duties: Any peace officer or person designated as animal control officer shall have the following duties:

1. Investigate all reports of violations of this chapter.

2. Keep records of all reports of violations of this chapter and citations issued.

3. Provide adequate care for all animals transported to the LaVerkin animal shelter.

4. Operate the city animal shelter in a clean, orderly and efficient manner.

5. Keep adequate records of all animals impounded and all monies collected.

6. Take such action as may be necessary to prevent cruelty to animals.

7. Perform such other tasks as may be directed from time to time by the LaVerkin City Chief of Police.

5-1-3: DOG LICENSING PROCEDURE

- A. License Required: All dogs must be licensed each year in accordance with the following:
- B. Time Limit to Obtain: Any owner or other person having the care, custody or control of

of a dog shall be required to obtain a license for such dog within thirty (30) days after the dog reaches the age of four (4) months, or within five (5) days of the date of the acquisition of an unlicensed dog which is four (4) months or older.

C. Application for License: An application for licensing of a dog must be submitted to the city office or animal shelter on a form prescribed by the city, containing the following information:

1. The name, address, telephone number and email address of the applicant, and, if the applicant is not the owner of the dog, the name, address, telephone number and email address of the owner.

2 The breed, sex, color and age of the dog.

3. The date of rabies vaccination, accompanied by a vaccination certificate signed by a licensed veterinarian.

D. Fees: The annual license fee in such amount as may be established from time to time by resolution of the LaVerkin City Council shall accompany the license application.

E. Effective Date: Any license issued pursuant to this section shall be effective from the date of purchase through the end of December of the same calendar year. A new application must be submitted, and a new license by the end of February for the current calendar year. Any license not obtained by the end of February shall be subject to a late fee.

F. License Tags: Upon payment of the license fee and issuance of the license, the Division of Animal Control shall issue to the owner a certificate and a license tag for each dog licensed subject to the following:

1. The tag shall have stamped thereon the license number corresponding with the tag number on the certificate.

2. The owner shall attach the tag to the collar or harness of the animal and see that the collar and the tag are constantly worn.

3. Failure to attach the tag as provided shall be in violation of this chapter, except that dogs which are kept primarily for show purposes are exempt from wearing the tag.

4. Dog tags are not transferable from one dog to another.

5. No refunds shall be made on any dog license fee for any reason whatsoever.

6. Replacements for lost or destroyed tags shall be issued upon proof of prior receipt and payment of \$2.00 to the Division of Animal Control.

7. Any person removing or causing to be removed the collar, harness or tag from any licensed dog without the consent of the owner or keeper thereof, except a licensed

veterinarian or animal control officer who removes such for medical and other reasons, shall be in violation of this chapter.

G. Exemptions to licensing requirements. The provisions of subsections A through F of this section shall not apply to:

1. Dogs which have a current, valid license from another city/town and whose owners are not residents of the City but who are in the City for less than thirty (30) days.
2. Dogs licensed elsewhere and whose owners remain in the City for more than thirty (30) days may transfer the license for up to two dogs to a City license upon payment of a \$5.00 fee and submission of proof of current rabies vaccination.

5-1-4: RABIES CONTROL

A. Vaccination required. Every owner or person having the care, custody and control of any dog over the age of four months within the City shall have the dog vaccinated against rabies by a duly licensed veterinarian, shall secure from the veterinarian a certificate thereof, and shall attach to the collar or harness, which such person is hereby required to place upon the dog, a tag showing that such vaccination has been done; provided, that the City Council may, by resolution, provide that owners of any dog may themselves purchase serum and vaccinate their own dogs. The resolution shall also prescribe the condition with which the owner must comply to obtain the tag hereinafter required.

B. Public places; Vaccination; Tag Required. It shall be unlawful for the owner of any dog to suffer, allow or permit such dog to be or go upon any sidewalk, street, alley, public place or square within the City without first having had such dog vaccinated every two years against rabies as above provided within the past two years, and without there being on such dog a collar or harness with a license tag thereon showing that such dog has been so vaccinated.

C. Duty to Report Bites. Any person having knowledge of any individual or animal having been bitten by an animal of a species subject to rabies shall report the incident immediately to the Division of Animal Control, giving the name and address of the person bitten and of the owner or custodian of the biting animal, if available. Failure to provide such information or otherwise assist the division to provide such information or otherwise assist the division in discovering possible exposure to rabies or in ascertaining the immunization of an animal shall be in violation of this chapter.

D. Vaccination; Certificate. Rabies vaccination is required for dogs and cats. The owner of a dog or cat shall have said animal vaccinated within thirty (30) days after it reaches the age of four months. Unvaccinated dogs or cats over four (4) months of age acquired by the owner or brought into the jurisdiction must be vaccinated within thirty (30) days. Every dog shall be revaccinated thereafter every thirty-six (36) months, and every cat shall be revaccinated thereafter every twelve (12) months with a modified rabies virus vaccine approved by the division. This provision shall not apply to a veterinarian temporarily maintaining on their

premises animals owned by others. Each veterinarian, when vaccinating any animal for rabies, shall complete a certificate of rabies vaccination (in duplicate) a copy of which shall be distributed to the owner and original retained by the issuing veterinarian, which includes the following information:

1. Owner's name and address
2. Description of animal (breed, sex, marking, age, name)
3. Date of vaccination
4. Rabies vaccination tag number
5. Type of rabies vaccine administered
6. Manufacturer's serial number of vaccine

H. Unvaccinated Animals. Any unvaccinated animal shall be impounded but may be reclaimed prior to disposal by payment of impound fees and by obtaining a rabies vaccination within 72 hours of release. Any animal not reclaimed prior to the five-day period may be disposed of pursuant to provisions of of this chapter.

F. Biting Animals. Management of biting animals shall be as follows:

1. A healthy dog, cat, or ferret that bites a person shall be confined and observed at least daily for ten days from the date of bite, regardless of vaccination status. Unless otherwise recommended by medical personnel, the rabies vaccine shall not be administered during the observation period. Such animals shall be evaluated by a veterinarian at the first sign of illness during confinement. A veterinarian or animal control officer shall immediately report any illness in the animal to the local health department. If signs suggestive of rabies develop, a veterinarian or animal control officer shall direct that the animal be euthanized, its head removed, and the head shipped under refrigeration, not frozen, for examination of the brain by a laboratory approved by the Utah Department of Health and Human Services.
2. If the dog, cat, or ferret shows no signs of rabies or illness during the ten-day period, the veterinarian or animal control officer shall direct that the unvaccinated animal be vaccinated against rabies at the owner's expense before release to the owner. If a veterinarian is not available, the animal may be released, but the owner shall have the animal vaccinated within 72 hours of release. If the dog, cat, or ferret was appropriately vaccinated against rabies before the incident, the animal may be released from confinement after the 10-day observation period with no further restrictions.
3. Any stray or unwanted dog, cat, or ferret that bites a person may be euthanized, as immediately by a veterinarian or animal control officer and the head submitted, as

described in R386-702-12(2)(a) of the Utah Administrative Rules for rabies examination. If the brain is negative by fluorescent-antibody examination for rabies, one can assume that the saliva contained no virus, and the person bitten need not be treated.

4. If a wild animal, including a raccoon, skunk, coyote, fox, or bat and any carnivorous animal other than a domestic dog, cat, or ferret, bites or scratches a person, the person or attending medical personnel shall notify an animal control or law enforcement officer. A veterinarian, animal control officer or representative of the Division of Wildlife Resources shall kill the animal at once, without unnecessary damage to the head, and submit the brain, as described in Subsection R386-702-12(2)(a) of the Utah Administrative Rules for examination for evidence of rabies.

5. Any animal bitten or scratched by a wild, carnivorous animal or a bat that is not available for testing shall be regarded as having been exposed to rabies. The animal shall be placed in a strict quarantine for four months for dogs and cats, or six months for ferrets.

6. For maximum protection of the public health, unvaccinated dogs, cats, and ferrets bitten or scratched by a confirmed or suspected rabid animal shall be euthanized immediately by a veterinarian or animal control officer. If the owner is unwilling to have the animal euthanized, the animal control officer shall order that the animal be held in strict isolation in the city animal shelter at the owner's expense, for at least four months for dogs and cats, and six months for ferrets. The animal shall be vaccinated one month before being released. If any illness suggestive of rabies develops in the animal, the veterinarian or animal control officer shall immediately report the illness to the local health department and the animal control officer shall direct that the animal be euthanized and the head shall be handled as described in R386-702-12(2)(a).

7. Dogs, cats, and ferrets that are currently vaccinated and are bitten by rabid animals, shall be revaccinated immediately by a veterinarian and confined and observed by the animal's owner for 45 days. If any illness suggestive of rabies develops in the animal, the owner shall report immediately to the local health department and the animal shall be euthanized by a veterinarian or animal control officer and the head shall be handled as described in Subsection R386-702-12(2)(a).

8. Livestock exposed to a rabid animal and currently vaccinated with a vaccine approved by the United States Department of Agriculture for that species shall be revaccinated immediately by a veterinarian and observed by the owner for 45 days. Unvaccinated livestock shall be slaughtered immediately. If the owner is unwilling to have the animal slaughtered, the animal shall be kept under close observation by the owner for six months.

9. Unvaccinated animals other than dogs, cats, ferrets, and livestock bitten by a

confirmed or suspected rabid animal shall be euthanized immediately by a veterinarian or animal control officer

5-1-5: KENNEL PROHIBITED

Except as provided hereinafter, no more than four (4) dogs shall be kept, maintained, or harbored at any residential dwelling unit or commercial establishment within the City of LaVerkin; provided, however, that for purposes of this section, the following dogs shall not be included in the number of permissible dogs:

A. Certified service dogs, and

B. Puppies which are the offspring of a dog which is included in the number of permissible dogs and which are under the age of four (4) months and not weaned or vaccinated.

5-1-6 SPECIFIED VIOLATIONS.

In addition to any violation specified elsewhere in this chapter, it shall be unlawful:

A. For the owner or any person having the care, custody and control of a dog, to allow or permit such dog to attack, chase or worry any person, domestic animal having a commercial value, any species of hoofed, protected wildlife, or to attack domestic fowl.

B. For any person to own or have the care, custody or control of any animal which without provocation (i) bites or injures a person or domestic animal, or (ii) has a known propensity, tendency or disposition to attack or bite human beings or domestic animals.

C. For the owner of any dog, or any person having the care, custody and control of a dog, to allow or permit such dog to cause or become a nuisance by:

- 1 Causing damage to or destruction of the property of another;
- 2 Exhibiting characteristics of a vicious animal, as defined herein;
- 3 Causing unreasonable fouling of the air by odors;
- 4 Causing unsanitary conditions in enclosures or surroundings;
- 5 Defecating on any public sidewalk, park or building, or on any private property without the consent of the owner of such private property, unless the person owning, having a proprietary interest in, harboring or having care, charge, control, custody or possession of such animal shall remove any such defecation to a proper trash receptacle;

6. Loud, frequent or continuous barking, whining, howling or making other annoying, disturbing or disruptive noises at such times and in such a manner so as to interfere with the right of another to the quiet enjoyment of his/her property, as attested to by the signing of a complaint by another person;
7. Molesting passersby by barking, snapping, pawing, clawing, biting, chasing or growling;
8. Chasing passing motorcycles, bicycles or other vehicles;
9. Attacking other domestic animals;
10. Exhibiting such other behaviors which are offensive or dangerous to the public health, welfare or safety, as determined by the department of public safety.
- D. For the owner or person having the charge, care, custody or control of any cattle, sheep, goat, horse, mule, dog or domestic fowl, to allow such animals to run at large, regardless of the efforts made or precautions taken by such owner or persons to prevent such animal from doing so.
- E. Interference With Officer: For any person, after verbal warning, to intentionally interfere with, molest, hinder or obstruct any peace officer or any animal control officer in the lawful discharge of their duties as herein prescribed.
- F. Retaking Animal: For anyone to take any animal out of the possession of anyone lawfully holding the same under the provisions of this chapter, either by stealth, force, fraud or to intercept or hinder any person lawfully taking up or attempting to take up such animals.
- G. Abandonment: For any person to abandon an animal.
- H. Harbor Stray Dogs: For any person to harbor or keep any dog which appears to be lost or strayed, or fail to notify the animal control officer within twenty-four (24) hours after finding such lost or strayed dog and the department shall impound the dog as herein provided.
- I. Unenclosed Premises: For any owner to chain, stake out or tether any dog, cattle, horse, sheep, goat, mule or domestic fowl on any unenclosed premises in such a manner that the animal may go onto the neighboring property owner's property, unless such owner has permission of the neighboring property owner.
- J. Killing Or Poisoning: For any person to purposely and intentionally kill any domestic animal by poisoning, or expose any domestic animal to any poisonous substance with the intent that such substance be ingested by such animal.
- K. Mistreating: For any person to overdrive, overload, drive when overloaded,

torture, beat, mutilate, carry or transport in any vehicle or other conveyance in a cruel or inhumane manner, or otherwise inflict serious physical injury on any animal or cause any of these acts to be done.

L. Fail To Provide Sustenance and Shelter: For any person to fail to provide any animal in his charge, care or custody with necessary sustenance, drink and shelter from the elements, or cause any of these acts to be done.

M. Animal Fighting Exhibition: For any person to participate or engage in any animal fighting exhibition, whether as a sponsor, venue provider, participant or spectator; provided, however, that this section shall not apply to the lawful hunting of, fishing for, or trapping of, wildlife.

N. Intentional Exhibition: For any person to intentionally exhibit any stud, horse or bull or other animal in a manner which is indecent or offensive, or let any male animal to any female animal for the purpose of providing entertainment or viewing to any person.

O. Trespassing Animals or Fowl: It shall be unlawful for any owner or person having the care, custody and control of any domestic fowl or animal to permit such fowl or animal to trespass upon the premises of another person.

N. Wild Animals: It shall be unlawful for any person to sell, offer for sale, barter, give away, keep or purchase any wild animal which is not domesticated, or an animal belonging to an endangered species, except for the animal shelter, a zoological park, veterinary hospital, circus, sideshow, amusement show or facility for education or scientific purposes if protective devices adequate to prevent such animal from escaping or injuring the public are provided.

5-1-7 VICIOUS ANIMALS.

A. In connection with the issuance of a citation for a violation of 5-1-6 B., an animal control officer may:

1. require the owner or custodian of a vicious animal to deliver possession of the animal to an animal control officer, or
2. summarily impound a vicious animal which is at large or which is an immediate danger to humans or domesticated animals

B. If, after demand, the owner or custodian fails or refuses to deliver possession of the animal to an animal control officer, the animal control officer may request an order from a court of competent jurisdiction requiring the owner or custodian to deliver possession of the animal to an animal control officer.

C. If a vicious animal is impounded without the knowledge of the owner or custodian, notice that the animal has been impounded shall be given to the owner or custodian of the animal, if the same is known, by attaching a notice to a door at the residence thereof or by mailing a notice thereto. The notice shall state that:

1. the animal has been impounded without a court order,

2. the owner or custodian may contest the impoundment by filing a written objection with the court within five (5) days after receipt of the notice of impoundment, and

3. if no objection is filed, that the animal shall remain impounded at the cost of the owner or custodian until the court issues an order for disposition of the animal.

D. The owner or custodian of an animal impounded other than by a court order may contest the impounding by filing a notice with the proper court within five (5) days after the impounding.

E. A vicious animal impounded with or without a court order shall be disposed of as ordered by the court.

5-1-8 KILLING OF DOG AUTHORIZED:

A. Any person, including an animal control officer, may injure or kill a dog while:

1. the dog is attacking, chasing or worrying domestic fowls, other domestic animals having a commercial value, a service animal, or any species of hooved protected wildlife, or

2. the dog is being pursued for having committed any act described in subparagraph 1 above.

5-1-9: IMPOUNDMENT OF ANIMALS:

A. Animal Shelter: The Division of Animal Control shall provide suitable premises and facilities to be used as an animal shelter where impounded animals can be adequately kept and supplied with food and humane care. It shall provide for the painless and humane destruction of animals where necessary, or it may furnish medical treatment for impounded animals as provided hereinafter.

B. Animals Subject to Impoundment: The animal control officer shall take all animals which are taken into custody to the animal shelter to be impounded. The following animals may be impounded and taken into custody by the animal control officer without the filing of a complaint:

3. Any impounded animal suffering from an injury, illness or other condition which, in the judgment of the animal control officer, requires minor veterinary treatment or care, may, with or without the consent of the owner, be taken to a veterinary hospital for any

(b) The animal is humanely destroyed after a determination by the animal control officer and licensed veterinarian that the animal is suffering from a serious injury, illness or malnutrition and should be destroyed for humane reasons or to preserve the public health, safety and welfare, unless the animal is immediately redeemed by the owner.

(a) The animal is redeemed by the owner prior to the expiration of the five (5) day impound period upon payment by the owner of all impound fees, daily boarding fees, license fees, vaccination fees, and veterinary fees if applicable.

2 Animals taken to the animal shelter shall be impounded for a minimum of five (5) days, excluding Sunday, except when:

1. Notice of impoundment shall be emailed or mailed to the last known address of the owner of any animal which is wearing a license tag or other identification, or, if the impounded animal is not wearing a license tag or other identification, notice shall be given by the best available means under the circumstances. For animals voluntarily delivered or relinquished by the owner to the animal control facility, no further notice of any kind need be given to the owner.

C. Notice, Time of Impoundment:

9. Any animal not having proof of rabies which bites a person shall be impounded and quarantined for a period of not less than ten (10) days.

8. Any vicious animal not properly confined.

7. Any animal to be held for quarantine.

6. Animals which are not vaccinated for rabies in accordance with the requirements of this chapter.

5. Any abandoned animal.

4. Any sick or injured animal whose owner cannot be located.

3. Any animal which is by this chapter required to be licensed and is not licensed; any animal not wearing a tag shall be presumed to be unlicensed for purposes of this section.

2. Any animal running at large contrary to the provisions of this chapter.

1. Any animal being kept or maintained contrary to the provisions of this chapter.

necessary treatment, the cost of which shall be paid by the owner as part of the cost of redemption, or, unless waived by the city, added to the cost of adoption.

4. Any impounded animal suffering from an injury, illness or other condition which, in the judgment of the animal control officer, requires extensive veterinary treatment or care, may:

(a) at the discretion of the animal control officer and with the owner's agreement, be taken for examination and treatment by a veterinarian, with the cost thereof to be paid by the owner as part of redemption; or,

(b) in the event the owner is not known or unwilling to give consent, the animal shall, at any time before or after the five (5) day impoundment period, be humanely destroyed.

5. Upon the expiration of the five (5) day impoundment period, all healthy impounded animals shall be adopted or otherwise disposed of as determined by the animal control officer, subject to payment of all impoundment fees, daily boarding fees, adoption fees, license fees, and vaccination fees, or as otherwise determined by the animal control officer.

D. Redemption of Impounded Animals:

1. Subject to the provisions of Section 5-1-4 F. 1. and Section 5-1-7 C., the owner of any impounded animal or his/her authorized representative may redeem such animal before adoption or other disposition, provided that he/she pays:

(a) The impound fees

(b) The daily boarding charge.

(c) Any veterinary costs incurred during the impound period, including rabies vaccination.

(d) License fees, if required.

E. Records Maintained: The impounding facility shall keep a record of each animal impounded and permanent impound records, which include the following information:

1. Complete description of the animal, including tag numbers.

2. The manner and date of impound.

3. The location of pick up and name of the person picking up the animal.

4. The manner and date of disposal.

5-1-10 SALE OF DOGS, CATS AND RABBITS

A It shall be unlawful for the owner or operator of any pet store or other business within the boundaries of LaVerkin to sell, lease, trade or adopt out any live dog, cat, or rabbit, unless such dog, cat or rabbit was obtained from a public animal control agency or shelter, society for the prevention of cruelty to animals shelter, humane society shelter or other recognized animal rescue organization. In addition, such pet store or business shall:

1. Obtain and keep on file a certificate of source, as well as a record of a medical exam and clearance, for each of the animals.

2. Upon request, make such certificate and record available to any law enforcement officer, animal control officer, code enforcement officer, or any other city employee responsible for enforcement of the provisions of this chapter.

3. Provide a copy of such certificate and record to any customer purchasing any such dog, cat or rabbit.

4. Maintain a current business license issued by the City of LaVerkin.

5. Permit inspection of the business premises during regular business hours by an animal control officer to ensure compliance with the provisions of this chapter.

6. Operate such store or business in such a manner so as to not constitute a public nuisance.

7. Provide an isolation area for animals which are sick or diseased and which is sufficiently removed from other animals.

8. Keep all animals appropriately caged or under the control of the store or business.

9. At all times operate the store or business in compliance with all provisions of this chapter providing for the general care of animals.

10. Not sell animals which are un-weaned, too young, or whose development is otherwise such that their sale poses a serious risk of death for the animal.

11. Comply with all applicable federal, state and local laws and regulations.

12. Provide to the purchaser of any dog an application approved by the Division of Animal Control for a dog license.

13. Provide the purchaser of an animal with written instructions as to proper care and control of that species.

B. It shall be unlawful for any person to sell, lease, trade or adopt out any dog, cat or rabbit from any public street, sidewalk, right of way, park, swap meet, private business parking lot or from inside any private business.

C. Notwithstanding the foregoing, nothing in this chapter shall prohibit the sale, gift, trade, adoption or other transfer of ownership of animals at a private residence, animal shelter, animal exhibition or show, or in connection with 4-H activities.

5-1-11 LIABILITY; RESTITUTION; ORDER FOR DESTRUCTION:

A. The owner of any animal causing damage to the property of another or injury to another person shall be strictly liable for such damage or injuries.

B. A person who owns or keeps a dog is liable for injury or death caused by the dog to another animal, regardless of whether the dog is vicious, or whether the owner knows the dog is vicious, except where:

1. The injury or death occurred on the person's private property while the dog is reasonably secured within a fence or other enclosure, and

2. The animal entered the person's private property without consent.

C. Any court of competent jurisdiction may, in any case where criminal charges are filed and as deemed appropriate by the court, order the payment of restitution by the owner of any dog for the amount of damages or injuries caused by the dog.

5-1-12 PENALTY FOR VIOLATION:

Any person violating the provisions of this chapter shall be guilty of an Infraction and shall be required to pay a fine of not more than \$750, plus restitution if applicable. For purposes of this section, each day that a violation continues shall be considered a separate violation. Nothing in this chapter shall prevent an offense from being charged under the provisions of the Utah Code Ann. 1953, as amended, as a violation of Utah state law.

BE IT FURTHER ORDAINED that the provisions of this Ordinance shall take effect at the effect at the earliest possible date allowed by law after publication and posting and shall supersede all other ordinances in conflict with the terms and conditions contained herein.

APPROVED AND ADOPTED on this _____ day of _____, 2024.

CITY OF LAVERKIN

Kelly B. Wilson, Mayor

Attest:

Nancy Cline, City Recorder

The foregoing Ordinance was presented at a regular meeting of the LaVerkin City Council held in the LaVerkin City Council Chambers, located at 111 South Main Street, LaVerkin, Utah, on the _____ day of _____, 2024, whereupon, a motion to adopt said Ordinance was made by _____ and seconded by _____.

A roll call vote was then taken with the following results:

NAME	VOTE

ChargeWest Partnership Agreement 2024

Background:

Charge West @ Scale is a project being managed by Utah Clean Cities (UCC). The goal is to investigate the feasibility of implementing electric vehicle charging infrastructure in rural gateway communities in the Western United States. UCC is proposing a partnership with the Zion Regional Collaborative to facilitate the initial roll out of this project. They intend to use the ZRC as a template and test case for regional collaboration on electric vehicle charging networks in other gateway regions.

With that goal, UCC has allocated funding to the ZRC to support the Coordinator position (\$10,000 per year for the next two years). This funding will help ensure the Coordinator position can continue for the next two years over the course of the project. These funds will allow enhanced capacity in the Coordinator position to help work on Charge West issues and will allow the Coordinator position to continue with its current roles and responsibilities. The ongoing sustainability of the Coordinator position is UCC's primary goal in directing Charge West funding to the ZRC, not necessarily enhanced capacity to work on Charge West responsibilities.

A formal review of this proposal was conducted during a monthly Guiding Subcommittee meeting held on Tuesday, June 11th, 2024. Following that review, the ZRC Guiding Subcommittee indicated support for a partnership.

Agreement:

This Agreement reflects the ZRC Guiding Subcommittee's support for a partnership with Utah Clean Cities. This partnership will include funding for the Coordinator position, as well as support for the Charge West @ Scale initiative.

Conditions:

This Partnership Agreement is considered effective from the date it is signed by all parties. The Coordinator will continue to be accountable and report to the ZRC Guiding Subcommittee. UCC will not be a formal member of the Guiding Subcommittee, although we will work closely with them on coordinating the Charge West grant program.

01 Introduction

Introduction

INTRODUCTION

The Southern Utah Regional Trail Standards document outlines standards for the design and implementation of paved trails in Southern Utah. For the purposes of this document, "trail" refers to paved, multi-use paths intended for two-way, non-motorized transportation and recreation. The purpose of this document is to promote a consistent approach to trail design and is intended to be adopted and used by local jurisdictions, agencies, and private developers when building new trails. Jurisdictions are encouraged to evaluate existing trails to determine where improvements can be made to align with the standards in this document.

BASIS FOR DESIGN STANDARDS

The standards outlined in this document were developed in coordination with representatives from various local jurisdictions and stakeholder groups and are based on national best practices for the design of paved trails, including guidance from The American Association of State Highway and Transportation Officials (AASHTO), the Federal Highway Administration (FHWA), and the National Association of City Transportation Officials (NACTO). Specific guidance referenced in this document includes:

- AASHTO's Guide for the Development of Bicycle Facilities (2012) - any reference to "AASHTO" within this document refers to Chapter 5 of this guide
- FHWA's Manual on Uniform Traffic Control Devices (2023 edition)
- FHWA's Small Town and Rural Multimodal Networks guide (2016)
- FHWA's Improving Visibility at Trail Crossings guide (2021)
- FHWA's Shared-use Path Level of Service Calculator (2006)
- FHWA's Guide for Improving Pedestrian Safety at Uncontrolled Crossing Locations (2018)
- NACTO's Urban Bikeway Design Guide (2014)
- NACTO's Don't Give Up at the Intersection guide (2019)

Trail Users

Paved trails, also referred to as shared use paths, are intended to accommodate a variety of non-motorized users who travel at varying speeds and for different purposes, including transportation and recreation. Tables 1.1 and 1.2 outline permitted and prohibited uses on public access trails in Southern Utah.

According to Utah State law, electric-assist devices such as e-bikes are allowed on paved trails. E-bikes are designated based on motor size, maximum assisted speed, and throttle-assist.

Table 1.1 - Permitted Uses on Trails

PERMITTED USES	SPEED OF TRAVEL	DEFINITIONS / CONSIDERATIONS
Walking/Running	1 to 9 mph	- Need wider areas for traveling in groups or walking dogs - Prefer separation from faster-moving trail users - Prefer trails with consistent lighting - May prefer a soft-surface tread
Wheelchairs	1 to 3 mph (nonmotorized) 3 to 5 mph (motorized)	Prefer separation from faster-moving trail users
Equestrians	3 to 8 mph (trot)	Prefer a soft-surface tread separated from people riding bicycles
Pedal Cycles	6 to 25 mph (20 mph limit on trails)	- Human powered - Includes unicycles, bicycles, tricycles, and adaptive pedal cycles
Class 1 E-bikes	20 mph max.	750 watt motor or less; pedal assist only (no throttle); number of wheels not specified
Class 2 E-bikes	20 mph max.	750 watt motor or less; pedal assist and throttle; number of wheels not specified
Class 3 E-bikes	28 mph max. (20 mph limit on trails)	750 watt motor or less; pedal assist only (no throttle); must have a speedometer; number of wheels not specified - Commonly used as transportation device for bicycle commuters
Other Personal Mobility Devices	20 mph max.	Includes in-line skates, one-wheels, hover boards, electric scooters, electric skateboards, segways, or other personal mobility devices that do NOT exceed 20 mph exclusively using motor power

Table 1.2 - Prohibited Uses on Paved Trails

PROHIBITED USES	DEFINITION
Unclassified E-bikes	- Motor greater than 750 watts - Unrestricted motor assisted speed with pedal assist - Unrestricted motor assisted speed with throttle
Motorcycles and E-motorcycles	- Motors capable of speeds greater than 20 mph - Throttle - Foot pegs or aftermarket pedal kits
Golf Carts or Equivalent	A motorized off-highway vehicle with four low-pressure or non-pneumatic tires
ATVs (Type I and II)	Passenger vehicles, trucks, etc. or any motorized vehicle that can go more than 20 mph exclusively using motor power
Other motorized vehicles	Passenger vehicles, trucks, etc. or any motorized vehicle that can go more than 20 mph exclusively using motor power

02 Trail Dimensions

Baseline Trail Dimensions

TYPICAL TRAIL CROSS SECTION

The baseline standard for trail dimensions should follow guidance as outlined in Chapter 5 of AASHTO's Guide for the Development of Bicycle Facilities and illustrated in the figures at the right. Trail design should use the typical cross section unless urban context or anticipated trail use necessitates a different approach. Guidance for varying contexts can be found on subsequent pages of this document.

Trail Construction Specifications: Trail cross section should consist of 2.5" voidless hot mix asphalt over 6" compacted road base course (unless otherwise specified in geotechnical investigation to accommodate site specific conditions). Consider using saw-cut concrete in flood plains, areas that may be periodically submerged, or areas of frequent washout.

DESIGN CRITERIA

- A** 10' paved trail; not to exceed 2% cross slope (Note 1)
- B** 2-3' graded shoulder; not to exceed 10% cross slope (Note 2 & 3)

NOTES

1. More width may be necessary depending on context (See page 10).
2. Graded shoulder must be kept clear of vegetation, signage, lighting, or any other vertical obstructions.
3. Where a trail is adjacent to bodies of water or steep downward slopes of 1V:3H or steeper, provide 5' (minimum) separation from top of slope to edge of path; a physical barrier may be needed - see AASHTO for more guidance.
4. Follow AASHTO guidance for trail design related to cross slopes, horizontal curves, grades, design speed, sight distances, stopping distances, security, etc.

TRAILS ADJACENT TO ROADWAYS

Trail adjacent to roadways, also known as sidepaths, require additional considerations for trail user safety and comfort, such as separation from vehicle traffic and mitigating conflicts at driveways and intersections. Where these conflicts are more prevalent, alternatives such as one-way separated bikeways should be considered in addition to sidewalks. This section addresses trails adjacent to lower-speed roadways such as local, collector, and sometimes arterial streets. For trails adjacent to higher-speed roadways, see page 16.

DESIGN CRITERIA

- A** 10' paved trail; not to exceed 2% cross slope (Note 1)
- B** 2-3' graded shoulder; not to exceed 1V/6H cross slope (Note 2 & 6)
- C** 5' minimum buffer (Note 3 & 4)

NOTES

1. More width may be necessary depending on context.
2. Graded shoulder must be kept clear of vegetation, signage, lighting, or any other vertical obstructions.
3. Buffer is measured from face of curb (if present) or the edge of the paved roadway (paved shoulders do not count towards the width of the buffer). Reference local standards for minimum widths needed for street trees.
4. Where buffer is less than 5', a physical barrier should be provided between the trail and the roadway.
5. See page 16 for trails adjacent to highways.
6. Where a trail is adjacent to bodies of water or steep downward slopes of 1V/3H or steeper, provide 5' (minimum) separation from top of slope to edge of path; a physical barrier may be needed - see AASHTO for more guidance.
7. Follow AASHTO guidance for trail design related to cross slopes, horizontal curves, grades, design speed, sight distances, stopping distances, security, etc.

Trail Construction Specifications: Trail cross section should consist of 2.5' voidless hot mix asphalt over 6" compacted road base course (unless otherwise specified in geotechnical investigation to accommodate site specific conditions). Consider using saw-cut concrete in flood plains, areas that may be periodically submerged, or areas of frequent washout.

Context-based Dimensions

The standards outlined under "Baseline Trail Dimensions" establishes minimum dimensions for paved trails in Southern Utah. However, appropriate trail dimensions vary depending on user demand and urban context. In some cases, a 10' shared-use path is not sufficient to provide a high-quality user experience. As volumes and mix of user types increases on trails, more width, and possible user separation, is necessary to maintain a high-quality user experience. This section outlines a trail classification approach to aid trail designers in determining appropriate trail dimensions and design elements.

TRAIL CLASSIFICATION

Trails in Southern Utah are classified into four categories based on urban context and projected demand:

- Rural Trails
- Suburban Trails
- Urban Trails
- Destination Trails

Design guidance and considerations are provided on the following pages for each trail type.

*Volumes represent total users (both directions); ranges are to serve as a guide, and were derived by using the FHWA SUPLOS Calculator, targeting a Level of Service of "B", assuming a 60/40 bicyclist/pedestrian mode split

TRAIL LEVEL OF SERVICE

Level of service (LOS) measures the operational conditions of a given corridor in terms of speed, travel time, freedom to maneuver, traffic interruptions, and comfort and convenience, and is commonly applied to roadways and motor vehicle traffic. The Federal Highway Administration (FHWA) adapted the LOS concept to paved trails and bicycle traffic by developing the Shared-Use Path LOS (SUPLOS) Calculator. This tool helps trail designers determine appropriate trail widths and need for user separation based on anticipated or recorded trail user volumes and the variety of user types, or mode split.

The SUPLOS Calculator grades trails on a scale from best to worst (A to F), with grades A-C being considered acceptable levels of service and D-F being considered degraded levels of service. There are a number of criteria that FHWA acknowledges are missing from the SUPLOS Calculator, including perceived safety, physical setting, quality of scenery, proximity to adjacent motor vehicle traffic, presence or degree of steep slopes, frequency and design of curves, and material conditions. However, it still serves as a useful tool in planning and designing new and improved trails.

The tables at right illustrate recommended trail widths in order to achieve LOS B and LOS C, depending on bicyclist and pedestrian volumes. These tables should be used when evaluating the LOS of existing trails to determine the trail width needed to achieve the desired LOS. LOS B is considered "Good" and retains significant room to absorb more users while still providing a high-quality user experience. A trail with LOS C is considered "Fair" and meets current demands, but an increase in users will begin to diminish the user experience.

For new trails where count data is not available, trail width should be determined by the trail classification assigned to the trail, which is based on surrounding context and anticipated demand. See pages 12-18 for more guidance.

Note: When a separate lane or free-way is provided for pedestrians, pedestrian volumes do not need to be factored into the calculation for trail width. However, a minimum of 6' for pedestrian lanes and 10' for bicycle trails should be maintained in order to accommodate two-way travel.

Bicyclist Volume (users per hour) in one direction

Trail Width Necessary for Level of service B

Bicyclist Volume (users per hour) in one direction

Trail Width Necessary for Level of service C

*Pedestrian count assumed to be 60% walking and 40% running

RURAL TRAIL

Rural Trails are characterized as longer spans of trail in rural contexts where destinations and access points are few and far between. As such, they are more likely to serve recreational trail users, such as recreational cyclists and long-distance runners, but may also see use from commuters traveling longer distances.

EXAMPLES OF RURAL TRAILS

- SR-18 Trail
- Red Hills Parkway Trail
- Whip Trail (Snow Canyon State Park)
- Segments of Virgin River Trail farther away from town

DESIGN CRITERIA

- A** Typical trail cross section: 10' wide trail with 2-3' graded shoulders (Note 1)

NOTES

1. Widen trail to 12' where volumes may be higher, including adjacent to trailheads or approaching popular destinations such as state or national parks.
2. Use wayfinding signage to indicate distance to nearby amenities and rest areas.
3. Follow AASHTO guidance for trail design related to cross slopes, horizontal curves, grades, design speed, sight distances, stopping distances, security, etc.

Trail Construction Specifications: Trail cross section should consist of 2.5" voidless hot mix asphalt over 6" compacted road base course (unless otherwise specified in geotechnical investigation to accommodate site specific conditions). Consider using saw-cut concrete in flood plains, areas that may be periodically submerged, or areas of frequent washout.

SUBURBAN TRAIL

Suburban trails are the most common trail type in the region and are characterized by suburban adjacent land use patterns such as low-density residential and big box commercial. They may fall within open space, riparian, or utility corridors or alongside roadways. They primarily serve adjacent neighborhoods, but may attract regional through traffic, and serve a variety of users, including pedestrians, joggers, dog walkers, recreational cyclists, and commuter cyclists.

EXAMPLES OF SUBURBAN TRAILS

- Halfway Wash Trail
- Snow Canyon Parkway Trail
- Lava Flow Trail
- 3000 East Trail

DESIGN CRITERIA

1. Typical trail cross section: 10' wide trail with 2-3' graded shoulders (Note 1)

NOTES

1. Widen trail to 12' where volumes may be higher, including adjacent to schools, commercial nodes, transit stops, trailheads, or when the trail also serves as a circulation route within a park.

Trail Construction Specifications: Trail cross section should consist of 2-5" voidless hot mix asphalt over 6" compacted road base course (unless otherwise specified in geotechnical investigation to accommodate site specific conditions). Consider using saw-cut concrete in flood plains or areas of frequent washout.

URBAN TRAIL

Urban Trails are characterized by fronting commercial, institutional, civic, multi-family, or other high-density land uses that immediately front the trail and where high volumes of foot traffic are anticipated. Physical cross section elements may vary depending on site specific needs and constraints; however, separation of pedestrians and bicyclists should be a priority.

Two-way bicycle facilities present several challenges in urban contexts (e.g., driveway and intersection conflicts); one-way separated bike lanes may better address these issues in some circumstances.

EXAMPLES OF URBAN TRAILS

- 300 W (Salt Lake City)
- 900 S, 9-Line Trail (Salt Lake City)

Trail Construction Specifications: Trail cross section should consist of 2.5" voidless hot mix asphalt over 6" compacted road base course (unless otherwise specified in geotechnical investigation to accommodate site specific conditions). Consider using saw-cut concrete in flood plains, areas that may be periodically submerged, or areas of frequent washout.

DESIGN CRITERIA

- A** 12-14' trail width, marked for bicyclists
- B** 6-8' pedestrian through zone
- C** Frontage zone: 2-5' wide or greater, depending on fronting uses
- D** Pedestrian buffer (presence and width will vary based on available right-of-way; see Note 1)
- E** Street buffer: 5' minimum width (see Note 2)

NOTES

1. To encourage compliance of bicycle and pedestrian separation, consider differing pavement materials, landscape buffers, pavement buffers or delineation, mountable curbs, or a combination of the above; tactile directional indicators should be used if no other landscaping or vertical separation can be provided.
2. Reference local standards for minimum widths needed for street trees.

DESTINATION TRAIL

A destination trail is a trail that attracts both local and regional users as well as people visiting from out of town. In addition to nearby residents using the trail for transportation and recreation, people will travel from farther away to use the trail for recreation. Because of this, destination trails tend to see higher volumes and a higher mix of uses. More visitors on the trail may support the need for more trail width and wayfinding.

EXAMPLES OF DESTINATION TRAILS

- Virgin River Trail

Trail Construction Specifications: Trail cross section should consist of 2.5" voidless hot mix asphalt over 6" compacted road base course (unless otherwise specified in geotechnical investigation to accommodate site specific conditions). Consider using saw-cut concrete in flood plains, areas that may be periodically submerged, or areas of frequent washout.

DESIGN CRITERIA

- A** 14-16' trail width where separate pedestrian path is not provided
- B** 10-12' trail width when separate pedestrian path is provided
- C** 6-8' pedestrian path for slower moving trail users
- D** Buffer (presence and width will vary based on available right-of-way; see Note 1)
- E** Messaging to indicate trail separation

NOTES

1. User separation may only be necessary intermittently; physical separation preferred, but striping and pavement markers may also be used to create pedestrian lane.
2. Pedestrian path surface material may differ from trail surface.
3. Follow AASHTO guidance for trail design related to cross slopes, horizontal curves, grades, design speed, sight distances, stopping distances, security, etc.

Special Circumstances

TRAILS ADJACENT TO HIGHWAYS

Trails adjacent to highways generally follow the same design principles as trails adjacent to other roadways; however, due to the fact that higher motor vehicle speeds occur along highways, and highways often lack concrete curbs, which provide more protection to trail users, more consideration is given to separation between trail users and highway users in this context. The standards outlined in this section may be subject to change based on UDOT review.

DESIGN CRITERIA

- A** Trail width varies (Note 1)
- B** 2-3' graded shoulder (Note 2)
- C** 10' minimum clear zone from edge of paved roadway to edge of trail (Note 5)

NOTES

1. Use 10' trail width unless greater width is necessary based on context; 12' minimum may be required by UDOT.
2. Graded shoulder must be kept clear of vegetation, signage, lighting, or any other vertical obstructions.
3. Where a trail is adjacent to bodies of water or steep downward slopes of 14:3H or steeper, provide 5' (minimum) separation from top of slope to edge of path; a physical barrier may be needed - see AASHTO for more guidance.
4. Follow AASHTO guidance for trail design related to design speed, sight distances, stopping distances, grades, security, etc.
5. If 10' width of clear zone cannot be achieved, a physical barrier should be provided between the roadway and the trail; type of barrier subject to UDOT review.

TRAIL BRIDGES

Grade separated crossings such as bridges are sometimes needed to cross barriers such as rivers, drainage washes and channels, or busy streets and highways. The dimensions and design of bridges should maintain the same level of service, safety, and high-quality user experience as the trails they serve.

DESIGN CRITERIA

- A** Trail width varies (Note 1)
- B** 2' clear width
- C** 42-48" railing or barrier (Note 3)

NOTES

1. Trail width on the bridge should match the width of the trail leading up to the bridge; trail width does not include the clear width area.
2. If carrying the clear width across the entire bridge is not possible, at a minimum the receiving clear width at the end of the bridge should allow 2' of clearance on each side of the trail and may taper to the trail width. Carrying the clear width across the entire bridge is desired to provide a clear width from the railing and mitigate conflicts with trail users who have stopped on the bridge.
3. Where a bicyclist's handlebar may come into contact with a railing, a smooth, wide rub rail may be installed at a height of 36-44".
4. Openings between horizontal or vertical members on railings and bridge edge protection should comply with ADA standards.

TRAIL UNDERCROSSINGS

Trail undercrossings, or tunnels, allow trail users to cross barriers such as busy streets and highways without interacting with motor vehicle traffic. Similar to bridges, the dimensions and design of undercrossings should maintain the same level of service, safety, and high-quality user experience as the trails they serve. This section provides guidance for creating a safe and comfortable experience.

DESIGN CRITERIA

- A** Trail width varies (Note 1 & 2)
- B** 2' clear width (Note 3)
- C** 10' minimum vertical clearance
- D** Adequate 24-hour lighting should be provided in undercrossings (Note 5)

NOTES

1. Trail width through undercrossing should match the width of the trail leading up to the undercrossing; trail width does not include the clear width area.
2. For undercrossings longer than 60', greater widths are preferred.
3. If carrying the clear width across the entire undercrossing is not possible, at a minimum the receiving clear width at the end of the undercrossing should allow 2' of clearance on each side and may taper to the trail width. Tapered walls (leaning out) can decrease the clear width needed and create a more comfortable experience.
4. Where possible, make approach to undercrossing straight from both sides to maintain sight lines.
5. Where possible (e.g. divided highway undercrossings), create openings to allow daylight to enter portions of the undercrossing.

03 Trail Signage and Markings

Pavement Markings & Striping

TRAIL STRIPING

Trail striping should be used to delineate lanes of travel and trail obstructions and should be 4" wide. Striping patterns used on trails in Southern Utah include:

- Dashed yellow lines to separate directions of travel where sight lines allow safe passing
- Solid yellow lines to separate directions of travel and indicate no passing due to limited sight lines or upcoming conflict point (street crossing, trail junction, tunnel, bridge, etc.)
- Solid yellow lines to inform trail users of obstructions within the trail
- Solid white lines to inform trail users of obstructions on the edge of the trail
- Solid white lines to separate users traveling in the same directions

Jurisdictions may opt to not include centerline striping on their trails; however, it is encouraged in order to create consistency across the regional trail network.

Dashed yellow

Solid yellow

Solid yellow - obstruction in trail

Solid white - obstruction at edge of trail

Solid white - user separation

$L = WS$, where W is the offset in feet and S is the bicycle approach speed in mph

TRAIL PAVEMENT SYMBOLS

In addition to striping, trail pavement markings may be used to mark travel lanes for faster and slower moving trail users. A bicycle symbol should be used for lanes intended for faster moving trail users, and a pedestrian symbol should be used for lanes intended for slower moving trail users.

Additionally, where the installation of stop or yield signage is not feasible, word and/or symbol pavement markings may be used in lieu of signage. "Stop" should be communicated with a stop line and/or the word "STOP". "Yield" should be communicated with a yield line and/or the word "YIELD".

All trail pavement symbols should be made from thermoplastic or paint. Local preference may vary. Thermoplastic symbols are more durable and require heating equipment to apply. If paint is used, paint specifications should follow that which is used on local roadways.

Bicycle pavement marking

Pedestrian pavement marking

Stop line and word pavement markings

Yield line and word pavement markings

Signage

REGULATORY AND WARNING SIGNAGE

The placement of regulatory and warning signage should follow guidance outlined in AASHTO and the Manual on Uniform Traffic Control Devices (MUTCD) regarding trail clearances, distance from intersections based on stopping sight distances, mounting heights, and accessibility standards.

INTERSECTION WARNING

W2-1 W2-2 W2-4 W2-5
Size: 18 x 18"

Application: Used on a trail in advance of an intersection to indicate the presence of an intersection and the possibility of turning or entering traffic. They should be installed at least 50 feet in advance of the beginning of the change alignment.

ORIENTED TOWARDS ROADWAY USERS

Hill: W7-5

Size: 18 x 18"

Application: May be installed on trails to warn bicyclists of steep slopes.

Stop: R1-1

Size: 18 x 18"

Application: Where conditions require trail users to stop; should be placed or shielded so that it is not readily visible to road users.

Yield: R1-2

Size: 18 x 18 x 18"

Application: Installed at points where bicyclists have an adequate view of conflicting traffic and where bicyclists are required to yield the right-of-way to that conflicting traffic.

Bicycle Cross Traffic: W16-21P

Size: 12 x 24"

Application: Typically installed below STOP or YIELD signs on crossroads and driveways to alert road users of an unexpected bicycle movement.

Trail Crossing: W11-15 + W11-15P

W11-15 Size: 30 x 30" for single lane; 36 x 36" for multi-lane; W11-15P Size: 18 x 24"

Application: Used at all locations where a trail crosses a roadway, except for at signalized intersections.

Turning Vehicles Yield: R10-15, modified

Size: 30 x 30"

Application: Placed in advance of side streets and commercial driveways where right turns intersect the trail. The sign should be modified to include both a bicycle and pedestrian icon.

WAYFINDING SIGNAGE

All paved trails in Southern Utah should incorporate the wayfinding signage system established in this document. The purpose of the wayfinding system is to increase confidence of all trail users in orienting themselves in the region and accessing destinations. Wayfinding signage within UDOT right-of-way may be subject to UDOT approval.

SIGN TYPES

- **Masthead:** sign topper intended to mark the trail currently being traveled; includes a space for local jurisdiction branding
- **Directional:** includes destination name and directional arrow, installed at trail junctions or decision points
- **Destination:** includes distance and travel time information for straight ahead destinations served by the trail; installed at trail entry points or after junctions as confirmation signs; may also include directional arrows to function as a "Directional" sign
- **Destination (multiple):** same function as "Destination" sign, but includes multiple destinations that share the same directional, distance, and travel time information
- **Specialty Area:** intended to communicate loops or smaller area networks to aid trail users in trip planning and orientation. Graphics and information may vary.

WAYFINDING SIGN INSTALLATION

Wayfinding signage should be installed on 4x4 wood posts. Signs that fall within UDOT right-of-way may require different mounting and installation methods based on UDOT review. Sign placement should follow guidance outlined in AASHTO and the Manual on Uniform Traffic Control Devices (MUTCD) regarding trail clearances, distance from intersections based on stopping sight distances, mounting heights, and accessibility standards.

CUSTOMIZATION

Wayfinding sign shape, size, fonts, icons, information layout, and mounting methods should remain the same across the region. However, each jurisdiction has the flexibility to incorporate custom branding on Masthead signs and use a different base color other than brown on all signs. All colors should comply with MUTCD standards for acceptable colors.

TRAIL ETIQUETTE MESSAGING

Trail etiquette messages should be deployed at strategic locations to promote a safe and friendly environment for everyone. The purpose of trail etiquette messaging is to address and mitigate common conflicts between trail users by establishing what behavior is acceptable and what aligns with local regulations. While the enforcement of etiquette rules is up to local jurisdictions, etiquette messaging can be effective in helping trail users feel accountable to others on the trail when the messaging is placed for all to see.

Table 3.1 establishes the preferred messaging to be used on trails in Southern Utah for various issues/conflicts, as well as guidance for where messages should be placed along the trail for maximum effectiveness. Consistent etiquette messaging is also critical for visitors who may not be familiar with local regulations or trail etiquette.

Table 3.1 - Trail Etiquette Messaging

ISSUE/CONFLICT	MESSAGE ON SIGN	PLACEMENT GUIDANCE
Announcing one's self when passing others	Be Kind: Ring bell or announce yourself when passing others	Intermittently throughout "middle points" of the trail corridor (away from trail entrances and junctions) where passing is more likely; emphasis on busy sections of trail
Groups spreading across the full width of the trail	Make Room for Others: Keep your group to the right	Soon after trail entrances and intermittently along busy sections of trail
Keeping right except to pass, passing on the left	Make Room for Others: Keep right and pass on the left	Soon after trail entrances and intermittently along busy sections of trail
Conflicts with dogs on leashes	Make Room for Others: Leash dogs and keep them to your right.	Soon after trail entrances and intermittently along busy sections of trail
Stopping or congregating around corners, in dark tunnels	Limited visibility ahead. Don't stop in tunnels. Limited visibility ahead. Don't stop around corners.	Prior to undercrossings, corners, or other locations with limited visibility
High speeds	Be Kind: Slow down around others	Middle points of the trail (away from trail entrances and junctions) where faster speeds are more likely
Unauthorized vehicles (optional messaging along trail if trail entrance "prohibited uses" signs prove ineffective)	Travel Safe: No golf carts on the trail Travel Safe: No e-motorcycles on the trail Travel Safe: No motorcycles on the trail Travel Safe: No ATVs on the trail	Soon after trail entrances, where frequent infractions are reported

TRAIL ETIQUETTE SIGNAGE

Trail etiquette signage should follow the template provided in this document to create consistency across the region. Trail etiquette messages and graphics should be printed on 18" x 24" aluminum signs and mounted vertically on a 4" x 4" wood post. Signs should follow placement standards outlined in this chapter and should not be obstructed by vegetation, furnishings, structures, or other signage.

ETIQUETTE SIGN EXAMPLE

ETIQUETTE SIGN MOUNTING

04 Trail/Street Interface

Uncontrolled Crossing Locations

MID-BLOCK STREET CROSSINGS

Whenever a trail intersects a roadway at a mid-block location, adequate measures should be implemented to provide a safe crossing. The preferred crossing treatment will depend on roadway context, but should include a marked crosswalk and trail crossing warning signage at a minimum. Use the Crossing Treatment Selection Guidance on page 29 to determine the appropriate crossing treatment. If on-street parking is present, crossing should be restricted within 30 feet of the crossing in both directions to increase trail user visibility.

DESIGN CRITERIA

- A** Marked crosswalk
- B** Directional ramps: match width of trail
- C** Curb bulbouts decrease crossing distance and increase visibility of trail users
- D** Trail crossing signage at a minimum; see Crossing Treatment Selection Guidance
- E** If needed, implement measures to restrict motor vehicle access (see page 38)

NOTES

1. Restrict on-street parking within 30 feet of trail crossing in both directions.

CROSSING TREATMENT SELECTION

Once a location has been identified as a candidate for a mid-block crossing, Table 4.1 should be used as a guide to determine an appropriate crossing treatment. The recommendations in this table are based on FHWA's Guide for Improving Pedestrian Safety at Uncontrolled Crossing Locations. Engineering judgment should be used on a case-by-case basis to determine final recommendations for a safety countermeasures at mid-block crossings. Engineers should provide adequate justification for any recommendations that deviate from those outlined in table.

Where possible, new trail alignments should be configured to cross at existing controlled crossings or intersections while also avoiding undue detours for trail users.

Table 4.1 - Crossing Treatment Selection

Roadway Type	ADT < 9,000			ADT 9,000 - 15,000			ADT > 15,000		
	≤ 30 mph	35 mph	≥ 40 mph	≤ 30 mph	35 mph	≥ 40 mph	≤ 30 mph	35 mph	≥ 40 mph
2 lanes	A 1 2 4 5	A 4 5	B 4 5 7	A 2 4 6	B 4 6	C 4 6 7	B 2 4 6	B 4 6	C 4 6 7
3 lanes w/ raised median	A 1 2 3 5	A 3 5	B 3 5 7	B 2 3 6	B 3 6	B 3 6 7	B 2 3 6	B 3 6	C 3 6 7
3 lanes w/o raised median	A 1 2 3 4 5	B 3 4 5	C 3 4 5 7	B 2 3 4 6	B 3 4 6	C 3 4 6 7	C 2 3 4 6	C 3 4 6	C 3 4 6 7
4+ lanes w/ raised median	A 3 5 6	B 3 5 6	C 3 5 6 7	B 3 5 6	B 3 5 6	C 3 5 6 7	C 3 5 6	C 3 5 6	C 3 5 6 7
4+ lanes w/o raised median	A 3 4 5 6	B 3 4 5 6	C 3 4 5 6 7	B 3 4 5 6	B 3 4 5 6	C 3 4 5 6 7	C 3 4 5 6 7	C 3 4 5 6 7	C 3 4 5 6 7

Marked crosswalk and signage

- A** Marked crosswalk and signage
- B** RRFB + "A" treatments
- C** PHB or Signal + "A" treatments

Additional Enhancements:

1. Raised Crosswalk
2. In-street pedestrian sign
3. Advanced "yield here to" markings & signage
4. Pedestrian refuge island
5. Curb extensions/bulbouts
6. Road diet
7. Grade separation

Notes:

- Suggested additional enhancements should be considered and implemented based on context and feasibility
- Use actual speed data where available
- On-street parking should be restricted within 30' of all crossings on both sides

Controlled Intersections

The design of trails through intersections should match the comfort and safety of the trail itself so that an intersection does not serve as a weak link in an otherwise comfortable route. Geometry, roadway characteristics, and right-of-way constraints vary from intersection to intersection; however, the following design principles should be followed when designing trails through intersections:

- Reduce vehicle speeds for both through and turning movements
- Provide a safe space for all modes to wait and yield to others
- Maximize the visibility of pedestrians and bicyclists to motorists
- Mitigate conflicts between bicyclists and pedestrians
- Make navigating the intersection clear and predictable for all modes

DESIGN CRITERIA

- A** Provide trail setback from parallel street, enough room for at least one vehicle to queue while yielding
- B** Solid yellow trail centerline in advance of potential conflict points with other modes
- C** Curb bulbouts/extensions at intersections to increase visibility of pedestrians and bicyclists waiting to cross, shorten crossing distances, and slow through and turning vehicle movements
- D** Directional ramps should be used, not apex/diagonal ramps
- E** Optional hardened centerline to reduce left turn radius and speed

INTERSECTING TRAILS

When two trails intersect at a controlled intersection, the design principles are the same as when a single trail passes through an intersection; however, special attention should be given to the corner at which the two trails intersect, ensuring that a physically protected corner is provided.

DESIGN CRITERIA

- A** Provide trail setbacks from parallel streets, enough room for at least one vehicle to queue while yielding
- B** Solid yellow trail centerline in advance of potential conflict points with other modes
- C** Curb bulbouts/extensions at intersections to increase visibility of pedestrians and bicyclists waiting to cross, shorten crossing distances, and slow through and turning vehicle movements
- D** Directional ramps should be used, not apex/diagonal ramps
- E** Optional hardened centerlines to reduce left turn radius and slow left turning vehicles
- F** Physically protected corner where trails intersect

TRAILS INTERSECTING ON-STREET BIKEWAYS

When a trail meets an on-street bikeway at an intersection, the same guiding principles apply. Additional measures should be taken to ensure that bicyclists can safely transition between the trail and the on-street bikeway, including providing adequate queuing space for two-stage left turn movements.

ALTERNATIVE 1: TWO-STAGE LEFT TURN QUEUE BOX

ALTERNATIVE 2: PROTECTED INTERSECTION

DESIGN CRITERIA

- A** Transition between on-street bikeway and trail: bike exit/entry ramps
- B** Left turn queuing space: provide two-stage left turn queue box (Alternative 1) or protected intersection (Alternative 2)
- C** Tactile Directional Indicators to prevent low-vision pedestrians from using bike ramps

TRAILS AND BIKEWAYS AT ROUNDABOUTS

Trails at roundabouts should be designed in a way that allows trail users to safely move through the roundabout with physical separation from roadway traffic and reasonably short, direct crossings. On-street bicyclists should be provided the option to ramp up to sidewalk level in order to navigate around the roundabout. For more guidance on designing for bicyclists and pedestrians at roundabouts, including multi-lane roundabouts, see Section 2.3 of the NCHRP Report 672, *Roundabouts: An Informational Guide*.

DESIGN CRITERIA

- A** Bike ramps for transitions between on-street bikeways and trails
- B** Trail condition or widened sidewalk, even on corners that do not directly serve a trail but may serve on-street bikeway
- C** Tactile Directional Indicators to prevent low-vision pedestrians from using bike ramps
- D** Crosswalks set back from roundabout traffic flow to allow motorists a waiting area to yield

NOTES

1. Additional crossing measures such as RREB's or Hybrid Beacons may be necessary, depending on context.

Other Scenarios

SIDE STREETS

Trail design at side streets should mitigate conflicts between trail users and roadway users. Design principles for intersections apply to side streets; namely, providing a trail setback and maximizing the visibility of trail users. Trail setbacks are particularly beneficial at stop-controlled side streets because they allow exiting motorists to

focus on yielding to trail traffic and then roadway traffic in two phases instead of all at once. Similarly, motorists making a left turn onto the side street can turn across and clear oncoming traffic and then yield to trail traffic. Raised crossings should always be considered to further enhance the safety and comfort of trail users.

DESIGN CRITERIA

- A** Provide trail setback from parallel street; enough room for at least one vehicle to queue while yielding (20' preferred)
- B** High visibility crosswalk; consider raised crosswalk to prioritize trail users and slow vehicle traffic
- C** Right turning vehicles yield to pedestrians and bicyclists signage (R10-15, modified to show pedestrian AND bicycle icon)
- D** Curb radius designed for turning speeds of 10 mph

NOTES

1. Maintain clear sight triangles where trail intersects side street, clear of tall vegetation, entry signage, and other vertical obstructions.

COMMERCIAL DRIVEWAYS

Similar to side streets, commercial driveways present conflicts between trail users and motorists who may not expect two-way trail traffic. If right-of-way does not allow for a trail setback, signage and/or green conflict zone paint should be used to alert motorists of two-way trail traffic.

A high frequency of commercial driveways significantly diminishes the safety and comfort of trail users. In these cases, one-way separated bikeways should be considered in lieu of two-way trails or cycle tracks.

DESIGN CRITERIA

- A Stop sign and/or stop bar plus "2-way bicycle cross traffic" signage (MUTCD W16-2TP)
- B Right turning vehicles yield to pedestrians and bicyclists signage (RT0-15, modified to show pedestrian AND bicycle icon)
- C Maintain sight triangles in both directions, clear of tall vegetation and other obstructions, so drivers can see cross traffic

ON-STREET / OFF-STREET TRANSITIONS

Safe and comfortable transitions between on-street bikeways and off-street trails should be provided. Particular attention should be given to ensuring that transitions comply with ADA standards and protect low-vision pedestrians from unknowingly entering an uncontrolled roadway environment. This section provides planning and design guidance for transitions to/from on-street facilities when a trail terminates at a roadway and any other scenario where a transition is necessary, such as at intersections and roundabouts.

When a trail terminates at a roadway...

Can the trail alignment be configured to terminate at a controlled intersection or crossing?

ON-STREET / OFF-STREET TRANSITIONS CONTINUED

Bicycle ramps for transitions between on-street and off-street facilities should follow current standards as depicted in UDOT's "Bicycle Ramp Detail" drawings (DM 3.5).

RESTRICTION OF MOTOR VEHICLES

With the exception of municipal service and emergency vehicles, motor vehicles are not allowed on paved trails in Southern Utah, including passenger cars, trucks, motorcycles, ATVs, golf carts, and any vehicle that can exceed 20 mph exclusively using motor power. In some cases it may be necessary to implement measures to restrict motor vehicles. Bollards, both fixed and collapsible, present a hazard to trail users and should only be considered as a last resort. Other design elements that should be considered to help discourage motorized vehicles from entering a trail include:

- Signage communicating prohibited trail uses; for consistency, the signage concept at right should be used throughout the region
- Split-path entry lanes divided by a narrow median or landscape area; this also alerts cyclists about the intersection ahead and the need to slow down.
- Entry design with a strong sense of identity and transition

PROHIBITED TRAIL USES SIGNAGE

TYPICAL SPLIT-PATH ENTRY DESIGN

Ordinance No. _____

AN ORDINANCE OF THE CITY COUNCIL OF LAVERKIN, UTAH,
APPROVING A CHANGE TO THE ZONING MAP OF THE CITY OF LAVERKIN IN
CONNECTION WITH A CHANGE OF ZONING FROM RESIDENTIAL
AGRICULTURAL (R-A-1) TO ONE-FAMILY RESIDENTIAL (R-1-8) FOR CERTAIN
PROPERTY LOCATED WITHIN THE BOUNDARIES OF LAVERKIN.

WHEREAS an application for a zone change from Residential Agricultural (R-A-1) to One Family Residential (R-1-8) has been received for certain real property located within the boundaries of LaVerkin; and

WHEREAS a public hearing to receive and consider public input regarding said application was held on June 27, 2024, after notice of said hearing was given in accordance with Utah State law; and

WHEREAS the City Council deems it to be in the best interest and general welfare of the residents of the City of LaVerkin,

BE IT HEREBY ORDAINED by the City Council of LaVerkin Utah that the zoning designation for the following described property be changed from Residential Agricultural (R-A-1) to One-Family Residential (R-1-8):

LV-3-1-13-34031 LEGAL DESCRIPTION 1:

COMMENCING AT THE WEST 1/4 CORNER OF SECTION 13, TOWNSHIP 41 SOUTH RANGE 13 WEST, SALT LAKE BASE AND MERIDIAN; THENCE SOUTH 89°08'11" EAST, ALONG THE CENTER SECTION LINE, A DISTANCE OF 322.12 FEET; THENCE SOUTH 82°45'11" EAST, A DISTANCE OF 113 FEET; THENCE SOUTH 01°55'27" WEST, A DISTANCE OF 642.25 FEET; THENCE NORTH 88°55'03" WEST, A DISTANCE OF 505.32 FEET; THENCE NORTH 00°06'20" EAST, A DISTANCE OF 608.87 FEET; THENCE NORTH 64°58'25" EAST, A DISTANCE OF 100.73 FEET, TO THE POINT OF BEGINNING.

LV-3-1-13-34021 LEGAL DESCRIPTION 2:

BEGINNING NORTH 0°21'42" EAST ALONG THE SECTION LINE 281.78 FEET FROM THE SOUTHWEST CORNER OF THE NORTHWEST QUARTER OF THE SOUTHWEST QUARTER (NW1/4) OF SECTION 13, TOWNSHIP 41 SOUTH, RANGE 13 WEST, SALT LAKE BASE AND MERIDIAN; THENCE NORTH 0°21'42" EAST 224.59 FEET; THENCE SOUTH 81°27'20" EAST 201.06 FEET; THENCE NORTH 0°21'42" EAST 170.95 FEET; THENCE SOUTH 88°39'49" EAST 467.79 FEET; THENCE NORTH 0°24'36" EAST 648.47 FEET; THENCE SOUTH 82°30'03" EAST 57.80 FEET; THENCE SOUTH 88°52'54" EAST 725.09 FEET AND SOUTH 02°10'46" WEST 12.59 FEET FROM THE WEST QUARTER CORNER OF SECTION 13; THENCE SOUTH 02°10'46" WEST 1284.28 FEET; THENCE NORTH 87°57'20" WEST 552.53 FEET; THENCE NORTH 0°21'42" EAST 267.98 FEET; THENCE SOUTH 90° WEST 131.60 FEET TO THE POINT OF BEGINNING.

BE IT FURTHER ORDAINED that the official zoning map of the City of LaVerkin be changed to reflect the change of zoning approved hereby.

BE IT FURTHER ORDAINED that this ordinance shall take effect immediately upon publication or posting as required by Utah law.

PASSED AND APPROVED on this _____ day of _____, 2024.

City of LaVerkin

Kelly Wilson, Mayor

Attest:

(Seal)

Nancy Cline, City Recorder

On the _____ day of _____, at a regular meeting of the LaVerkin City Council held at 111 South Main Street in LaVerkin, Utah, the foregoing Ordinance was presented to the LaVerkin City Council, whereupon a motion to approve said Ordinance was made by _____ and _____ seconded by _____. A roll call vote was then taken with the following results:

	Yes	No
Darren Prince	_____	_____
Blair Gubler	_____	_____
Patricia Wise	_____	_____
Richard Hirsch	_____	_____
Michael Gubler	_____	_____

Nancy Cline, City Recorder

SECTION 13, TOWNSHIP 41S, RANGE 13W, HURRICANE, UTAH

COMINGING AT THE COORNER OF SECTION 13, TOWNSHIP 41
SOUTH RANGE 3 WEST, SALT LAKE BASIN AND MENDHAM TOWNSHIP 41
SOUTH RANGE 1 EAST, ALONG THE CENTER SECTION LINE, A DISTANCE OF
88.9871 FEET, A DISTANCE OF 82.7511 FEET, A DISTANCE OF 11.1571
FEET, THENCE SOUTH 41° 19' 57" WEST, A DISTANCE OF 115.71
FEET, THENCE SOUTH 11° 19' 57" WEST, A DISTANCE OF 115.71
FEET, THENCE NORTH 89° 50' 11" WEST, A DISTANCE OF 656.82 FEET, THENCE
NORTH 10° 00' 09" EAST, A DISTANCE OF 668.68 FEET, THENCE NORTH
64° 56' 23" EAST, A DISTANCE OF 100.75 FEET, TO THE POINT OF
BEGINNING.
