STAFF REPORT

TO: Mayor and City Council
FROM: Shawn Warnke, City Manager
DATE: July 17, 2024
SUBJECT: Interlocal Cooperation Agreement between Hooper and West Haven City to share costs associated with the road improvements to 5100 West

The Weber School District is building a new elementary school on the corner of 3300 S. and 5100 W. in West Haven. The 5100 West Street, between 4000 South and the elementary school, will be one of the main entrances to the elementary school and is the dividing line between West Haven and Hooper.

Both West Haven and Hooper desire to improve 5100 W by increasing its size and providing gutters and sidewalks to create a safe and easy-to-use area to approach the school by car or on foot. To improve 5100 West, West Haven City submitted several applications to the Weber Council of Governments (WACOG), which has agreed to provide grant funding of approximately \$4,798,00 for road improvements to 5100 West. Additionally, WACOG has decided to provide grant funding of roughly \$900,000 for intersection improvement at the 4000 South 5100 West intersection associated with a future traffic light, to be installed by the Utah Department of Transportation.

The WACOG grant funding requires matching funds. West Haven and Hooper have agreed to equally contribute a matching amount needed for the grant funding to facilitate the aforementioned improvements. This Interlocal Agreement formalizes both cities' commitment to provide matching grant funds. More specifically, the cities agree to the following matching funds:

- The widening of 5100 W. and sidewalk improvement requires a total match of \$500,000, which equates to \$250,000 from each City.
- Increased scope of the original project to widen 5100 W and sidewalks to include from 3500 S to 4000 S requires a total match of \$80,000, which equates to \$40,000 from each City.
- Intersection improvements at 5100 W. 4000 S. in anticipation of future traffic signal installation require a total match of \$100,000, which equates to \$50,000 from each City.

As set forth above, each of the cities to this Agreement will have a financial obligation of \$340,000 to meet the total match requirement of \$680,000 as required by these grants.

Since the school will be opened in August 2024, the Weber County School District asked the cities to consider installing a temporary pedestrian access on the east side of 5100 W. The path is expected to accommodate Hooper City school children crossing 3575 S from the west and West Haven school children walking from the south. Exhibits B and C of the Interlocal Agreement depict the path location and construction details.

The path will remain until permanent improvements are made through the WACOG grant agreements. The total cost of the temporary path construction is estimated at \$3,500, and realized costs will be split evenly between the Cities.

This Interlocal Agreement is made under and complies with the statutory requirements of the Interlocal Cooperation Act contained in the Utah Code. This is the purpose of the Interlocal Agreement is stated within this Act (See Utah Code 11-13-102) as follows (emphasis added with underlined text):

(1) to permit local governmental units to make the most efficient use of their powers by enabling them to cooperate with other localities on a basis of mutual advantage and thereby to provide services and facilities in a manner and under forms of governmental organization that will accord best with geographic, economic, population and other factors influencing the needs and development of local communities; and

(2) to provide the benefit of economy of scale, economic development, and utilization of natural resources for the overall promotion of the general welfare of the state.
