

# City Council Staff Report

AGENDA  
ITEM  
#5

TO: Honorable Mayor and City Council

FROM: **Tyson Jackson, Public Works Director**  
[tjackson@pleasantviewcity.com](mailto:tjackson@pleasantviewcity.com) (801) 827-0453

MEETING DATE: **July 23, 2024**

---

## RECOMMENDATION

Move to approve the purchase of 2024 Polaris from Young Sports \$14,545.62.

---

## BACKGROUND

Streets/Storm Water are tasked with maintaining acres of varying sizes and types of ponds as well as miles of unimproved shoulders of rights of way.

They are currently using a backpack sprayer to manage weeds and water ornamental plants in the newly created rock scape ponds covering several acres throughout the city. Due to its small tank size and the amount of area we must cover this has become increasingly inefficient with multiple trips to complete single pond areas. Using a truck is generally ineffective due to the steep slopes and tight quarters of the ponds or roadsides such as 2700 N so the smaller and lighter UTVs have proven to provide this function safer and more effective. Other uses such as checking discharges, ponds, drainage areas and more remote areas for other departments such as mountainous areas for culinary sources and sewer mains during MH inspections between Hwy 89 and I-15

## PROPOSAL FOR EQUIPMENT PURCHASE

We believe the Ranger from Young Powersports will be the best fit to accomplish those goals for several reasons:

- Horsepower for the steeper ponds.
- Ease of maintenance with local dealer.
- Ease of on-the-job operation.
- Cost
- Larger bed area for weed spray and water tank.
- This model was a favorite among the Pleasant View City Public Works Department during demonstration for many of its working features and ease of maintenance.

---

## BIDS & BUDGET

We reviewed models of comparable makes from four different dealerships shown below.

The bids were returned with the following prices:

**Young Power Sports Ranger - \$ 14,545.62**

City local meets or exceeds all requirements

**Golden Spike Powersports Ranger - \$ 14,625.00**

Meets or exceeds all requirements ½ windshield and roof included

**Karl Malone Powersports Can Am- \$12,168.00**

Under powered for our needs and price did not include ½ windshield

**BCP Equipment RTV 850 - \$18,540.29**

Over budget

\$15,000 was budgeted between two separate funds:

Polaris Ranger - \$14,454.62

Storm Water 50% \$ 7,227.31

Class C Fund 50% \$ 7,227.31

Unexpended \$ 545.38
