

**Davis County Health Department**

**Mr. Dave Spence**

**22 South State Street**

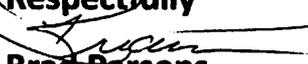

**Clearfield UT 84015**

**Requested Variances for VaporLoc LLC**

**This letter is to request a variance on three item that the Health department is requiring for electronic stores. The three items are listed below.**

- 1- (5.1) e-liquid for sale, My label does not state the warning for pets at this time it also states nicotine measured per ML not mg per ml. This can be rectified once my present stock is used. I have around 60,000 labels still left and would like a 5 month time period to go through them.**
- 2- My caps for my bottles are child proof but not tamper proof, but I fill all my bottles in house so there is no reason to have tamper proof caps. Once someone buys a bottle of juice and walks out my door it can never be returned for any reason.**
- 3- It states that I must replace my ceiling tiles (5.4) e-liquid manufacturing facilities, the regulation shows that I need to replace my ceiling tiles with nonabsorbent tiles, this would cost me over \$800 and since I don't have raw materials in my fill room and only transfer the liquid from a leader bottle to a 15ml bottle using high end lab pipets this regulation should not pertain to Vaporloc LLC.**

**Respectfully**

  
**Brad Parsons**

**President**

**Vaporloc LLC**
