
Re: 2024-6-4 Meeting Recap

From: Timberline Special Service District <tssdoffice99@gmail.com>

To: TL-1-71 Eric Ghanem <eric.tssd@gmail.com>

Hello Eric,

Changes to the minutes should always be recorded. You will need to repeat the original paragraph and repeat the revised paragraph for the motion to correct the minutes.

Original version:

Kimba Forbes, Lot 82, joined the discussion, critiquing the use of resources like diesel during road maintenance and the board's decisions regarding equipment and contractor services. She expressed dissatisfaction with how operations were handled over the winter, suggesting that better strategic planning was necessary.

Revised version:

Kimba Forbes, Lot 82, raised concerns about excessive diesel use for road maintenance. A review of "Blue's" equipment efficiency was suggested. She also questioned whether hiring contractor services might be more cost-effective despite previous concerns about timing and expenses.

Let me know what changes you would prefer?

Hi all,

Great meeting tonight. Thanks everyone for your efforts, we are moving in the right direction and that feels great!

Here is a recap I made of tonight's meeting - please feel free to add/edit.

Carol - we ran into technical adversities and the meeting wasn't recorded. What should we do? our memories are freshest on the meeting now.....only getting fainter from here on out :/

Thanks,
