Brent Rose with the Deseret Peak Temple Committee also spoke, and provided a handout to the Council. He stated they are looking to get ahead of safety and traffic issues on 2000 North and SR 36. It makes sense to the committee to finish 2400 North for the forthcoming high school and the temple traffic. He referred to the handout. The committee has negotiated with Ensign Engineering and they will donate design plans. Morgan Asphalt is willing to donate labor and equipment. Approximately \$220,000 is needed to complete the remaining aspects. The city is agreeable to assisting but not in a position to do so financially, and the Church is not willing to do anything further in this regard. He also stated the County would be reimbursed as a condition of development in areas surrounding the road.

Council Member Tye Hoffmann asked when the County would be reimbursed. Mr. Rose replied that a 15-year period is outlined in the agreement, so there is a risk that the County wouldn't be reimbursed.

Council Member Scott Wardle stated that Tooele City recently approved a zoning change in preparation for development in this area, and that it's very likely development will take place within the stated timeframe.

Gary Bolinder with Bolinder Resources stated that he has been in the road building business for a long

time. He stated that it is unlikely this project can be completed before the temple open house. He spoke in favor of the agreement.

Brent Rose emphasized that this is a public safety request and asked for Council consideration as soon as possible due to the limited timeline in which to move forward with the project.
