

General Obligation Bond

Public Outreach Updates

What's been done

- Finalized site plan concepts & branding
- City & Project website updates
 - www.chtowncenter.com
 - www.ch.utah.gov
- Butlerville Days booth
- August 2024 newsletter article

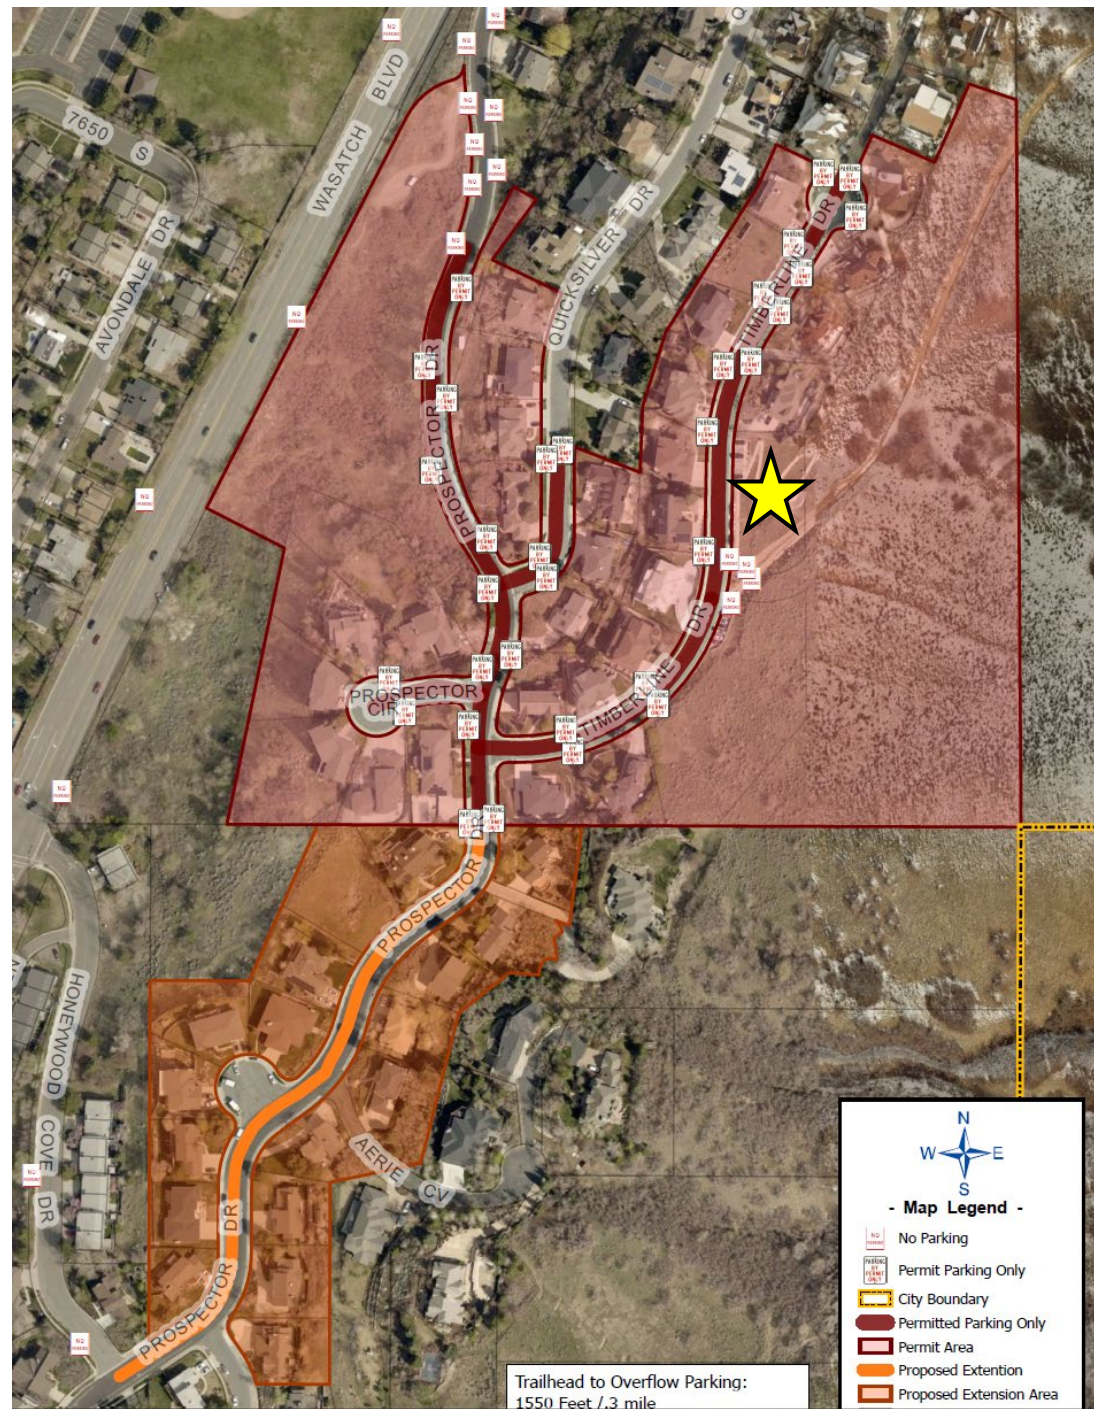

Next Steps

- Public open house – Monday, August 12th / 6:00 p.m. – 8:00 p.m.
- Coordination of neighborhood meetings with advisory committee
- Coordination of district meetings by Council members
- FAQ page published on project webpage
- Printed informational signs to distribute
- Draft ballot language (expected this week for review)
- Tabling at CHRC; possible presentation to CHPRSA Board
- Council vote on bond parameters resolution (August 20)
- Ballot language and resolution submitted to SLCO (August 22)

Ferguson Trailhead Parking

- Existing Condition – approx. 15 parking stalls at trailhead
- On-street parking is restricted to resident-only parking within 0.3 miles in all directions from trailhead

Ferguson Park – Parking Lot

- Parking lot contains approx. 45 parking stalls, intended for use by park, and for regional trail parking for Ferguson/future BST
- Neighborhood Concern:
 - Vehicles typically check upper stalls first, leads to constant traffic, turnarounds in driveways, and general congestion
 - New parking lot and permit parking restrictions don't mitigate this concern

BST Access Master Plan

- Adopted by City Council in 2020
- Ferguson Park area identified as regional access opportunity
- Plan recommends removal of non-ADA trailhead stalls in lieu of regional parking lot
 - This was added as a result of public input given to the Council at the time

congestion experienced at the existing Ferguson Canyon Trailhead. This site is easily accessed just off of Wasatch Boulevard from Prospector Drive. In addition to the amenities agreed upon in the Interlocal Cooperative Agreement, this trailhead will provide walking paths (both paved and natural) and pedestrian connections to Prospector Drive to connect to Ferguson Canyon and the future BST. Upon completion of this trailhead and expanded parking area, it is recommended that all existing trailhead parking on Timberline Drive be removed except for the required or appropriate amount of accessible stalls for the existing amphitheater use. It is recommended that no trail parking will be allowed on Timberline Drive and that all trail users utilize the regional access site.

Current Status

- When Ferguson Park was constructed, the last phase was to block/remove non-ADA stalls near trailhead, per the BST Access plan
- SLCO raised concerns (a portion of the stalls are on SLCO property), and stated that a formal written request was required by the city before any decision is made regarding removal
- PTOS Recommendation – leave ADA stalls, remove/modify existing stalls, leave ADA stalls, and explore creation of a drop-off area and bicycle parking.

Public Health Coalition

Previous Discussion

- Vote on ordinance tabled from the July 16th meeting to August 6th.
- SLCO Health Department support staff has volunteered to attend a future work session to answer questions about coalitions, frameworks, and how other cities are operating.
- To be eligible for technical support funding from SLCO (city currently has received a pending grant of approximately \$70,000), one of several scientific frameworks is required. Staff is recommending Communities That Care (CTC), as it is considered the 'gold standard' framework.
- Work within a framework does not preclude other community initiatives and priorities. The adopting ordinance can be amended to reflect this. Coalitions are recommended to be catered to individual community health needs and priorities.
- Frameworks, including CTC are flexible. Not following an established framework may preclude the city from important support funding and require additional resource allocation.

Healthy Utah Community

Neighborhood Out & Abouts

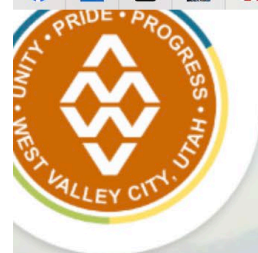

Birds and Bikes Campaign

WHAT:

Neighborhood Out & About is a Healthy West Valley Coalition sponsored program to encourage residents to get out and get moving in their neighborhoods, traditionally known as walkabouts. Residents are encouraged to walk, bike, roll, or skate in their community during designated dates and times to get exercise and connect with their neighbors. If a neighbor chooses, they can also hang out on their porch and wave to those passing by.

Birds and Bikes Campaign

Healthy West Valley is participating in a grant provided by the Get Healthy Utah organization aimed at increasing physical activity for West Valley residents. The Birds and Bikes campaign educates residents on several trails within West Valley City boundaries community members can take advantage of. Learn more about the campaign, improvements to Decker Lake, and the summer-long scavenger hunt you can participate in at www.wvcbirdsandbikes.com.

CTC Formation Analysis
by CM Birrell
(7/26/24)

	WVC	Holladay	Midvale	Cottonwood Hts
What formation was chosen?	"Coalition" This format has allowed WVC to include wellness and health programs such as: "Neighborhood Out & About" encouraging resident to get outside walking & rolling "Birds and Bikes Campaign" Increases physical activity; Educates residents on trails; Includes summer-long scavenger hunt	"CTC" Holladay has had an coalition for years but not formalized with SLCO until they were offered \$72k "Opioid Settlement Fund" grant by SLCO staff. At that point, they chose the <u>CTC</u> model.	"CTC" Youth violence & crime growing. Needed framework for a coalition to address this. CTC is data driven, Vanessa: "CTC is nationally recognized framework." & became their choice. Formation 2022/finalized 2023. Initially, mayor and admin asst took lead role.	"CTC" Choice for CTC was made by staff when \$72k funding from "Opioid Settlement Fund" grant offered by SLCO staff
Progression	Finalized	In process	In Tier 3 of CTC formation Chose to have SLCO staff assist with interview process to select Coalition Coordinator.	In Tier 1 of CTC formation City staff has made all decisions RE CTC formation in conjunction with Whitney Rosas/SLCO.
<u>Council and Staff involvement</u>		Council Member Matt Durham serves as a full voting member chosen through city council deliberation No city staff serve on CTC other than the 'coalition coordinator' paid for by funds from SLCO.	CM is a "CTC Key Leader" and voting member	Council Member is a non-voting "liaison" member chosen by city manager w council approval. 6 city staff

	WVC	Holladay	Midvale	Cottonwood Hts
Codification		Chose not to codify	Adopted in 2023 a new policy on committees for <u>City</u> ; treating this as an "Administrative Committee"/goals set by City Council	In process
Bylaws		In process	In <u>process</u> ; bylaws will come in front of council for adoption	CTC would be subject to a "citizen committee" type codification developed by staff
Grant monies	Using grants from "Healthy Utah Community"/State funding (Is the CTC form eligible for this kind of State funding?)	Yes. Received funding; Not reliant on codification	A 2023 State multi-year grant that was administrated by SLCO was obtained that pays for CTC coordinator. Terms: select "framework" (they chose CTC). Reporting requirement.	Not reliant on codification
Members		UPD Chief, UFA, Granite SD, Intermountain Heath, Interfaith Council, 5 citizens not on other citizen committees, Currently, no youth but may add a Youth City Council <u>rep</u> ; Parks & Rec	City manager approves city logo and ensures the committee is following city policies "Key Leaders": Police chief, mayor, CM, city manager, resident, Canyons SD "Community Group": UPD, Road Home, SLCO Social <u>Sys.</u> (no youth or parent reps)	CHPD chief, CHPD admin staff, UFA, CH Communications Dir, 3 city planning staff, Canyon SD, 2 Planning Commissioners, 1 PTOS, Youth City Council, CHRC manager, 2 church reps
Current Focus		Opioid Settlement funding related focus on drug addiction prevention	Youth violence and crime prevention	Drug prevention within K-12
