1. Site Location Priorities. Except as otherwise provided in this Subsection, all wireless communication facilities shall be subject to the provisions of Table below.
 - a. Providers of wireless telecommunications services will first seek to locate facilities on existing City structures, such as Buildings, communication towers, water tanks and smokestacks; provided, however, that if existing structures owned by the City are not available, or do not meet the system design needs of the provider, as determined by the provider, or would impose excessive costs in comparison to other alternatives, providers will then attempt to locate their facilities on privately owned structures, such as Buildings, communication towers, water tanks or smokestacks.
 - b. If providers are unable to locate on existing structures, and a Monopole is necessary, providers will first seek to locate their Monopoles on City-owned property; provided, however, that if City property is unavailable, or does not meet the system design needs of the provider, as determined by the provider, or would impose excessive costs in comparison to other alternatives, providers will then seek to lease property for the Monopole from a private property Owner.
 - c. To encourage the location of wireless facilities on City-owned Structures and property and privately-owned existing Structures, wireless telecommunication facilities are Permitted Uses in all districts of the City if the land or existing Structures are owned or leased by the City. Except in low Density residential districts, facilities located on any existing Structure are also an allowed Use.
 - d. Wireless providers will agree to locate their facilities on City-owned or leased property only when the provider and government entity agree on the terms and conditions of the Site lease, including fair and reasonable compensation for the Use of the property. If no agreement can be reached, the provider will locate its facilities on privately owned property.
 2. Regulations. The following shall apply to all wireless communication facilities:

All facilities shall be subject to design review standards of this Title.
 - b. Low power radio services facilities are characterized by the type or location of the Antenna structure. There are five general types of such Antenna structure: wall-mounted Antennae; Roof-Mounted Antennae; Monopoles with Antennae and Antenna support Structure less than two feet in width; Monopoles with Antennae and Antenna support Structure greater than two feet in width; and Lattice Towers. If an Antenna Structure is allowed in a designated zoning district under the Land Use Matrix either as a Permitted or Conditional Use, the minimum standards for the installation of each type of Antenna are as follows:
 - i. Wall-Mounted Antenna.

- a) Wall-mounted Antennae may not extend above the wall line of the Building or extend more than four (4) feet horizontally from the face of the Building.
 - b) Antennae, equipment and the supporting Structure shall be painted to match the color of the Building or Structure or the background against which they are most commonly seen. Antennae and the supporting Structure on a Building shall be architecturally Compatible with the Building. Whip Antennae are not allowed on a wall-mounted Antenna Structure.
 - c) Antennae mounted directly on existing parapet walls, penthouses or mechanical equipment rooms are considered a wall-mounted Antenna if no portion of the Antenna extends above the roof line of the Building.
- ii. Wall-Mounted Antennae.
 - a) Roof-Mounted Antennae shall be constructed, painted or fully screened to match as closely as possible the color and texture of the Building and wall on which it is mounted.
 - b) Roof-Mounted Antennae may be mounted on the top of existing penthouses or mechanical equipment rooms if the Antennae and Antenna support structures are enclosed or visually screened from view. The Screening Structures may not extend more than eight (8) feet above the existing roof line of the penthouse or mechanical equipment room.
 - c) Antennae not mounted on a penthouse or mechanical equipment room shall be mounted at least five (5) feet back from the exterior wall of the Building. The maximum height of an Antenna mounted between five (5) and ten (10) feet back from the exterior wall shall be directly proportional to the Setback distance and may not exceed ten (10) feet above the roof line of the Building. Antennae shall be mounted at least five (5) feet behind any parapet wall. The maximum height of an Antenna mounted between five (5) and ten (10) feet behind a parapet wall shall be directly proportional to the Setback distance and may not exceed a height of ten (10) feet above the top of the parapet wall. An Antenna may not extend more than 15 feet above the roof line of the Building itself except as allowed as a Conditional Use. Similarly, a Roof-Mounted Antenna may not extend above the roof line of a penthouse or mechanical equipment room except as allowed as a Conditional Use.
- iii. Monopoles. The height of a Monopole with Antennae and Antenna support Structure/s shall not exceed the lesser of the maximum Building Height for the tallest Structure allowed in the District, up to 60' in height.
 - a) A Monopole within one hundred fifty (150) feet of a residential district, is a separately regulated Conditional Use.
- iv. Lattice Towers. Except as provided in this Subsection, Lattice Towers may not be located within 330 feet of a residential district.
 - a) A Lattice Tower maybe located closer than 330 feet from a residential district if the Planning Commission finds that the tower's apparent height would not exceed the apparent height of any public utility pole, wire, cable, or similar Structure located in the same vicinity as the proposed tower, when viewed from a height of six (6) feet at the nearest adjacent residential district boundary.

- b) Lattice Towers may not exceed a height equal to 90 percent of the tower's distance from nearest adjacent residential district boundary, and in any case the height may not exceed 150 feet.
- c. Location on Parcel. Monopoles and Lattice Towers shall be located only in the Rear Yard area of the affected Lot or Parcel, though a different location may be approved by the Planning Commission in compelling circumstances, but only to prevent a violation of federal law and to carry out the intent and purpose of these regulations. These Structures may not be located in a required Landscaped Area, Buffer area, or required Parking Area.
- d. Area Limitations for Wall- and Roof-Mounted Antennae. A combination of both roof- and wall-mounted Antennae are allowed on a Building. Except as allowed under a Conditional Use permit, the total area for all wall- and Roof-Mounted Antennae and supporting structures combined shall not exceed the lesser of 60 square feet or five (5) percent of each exterior wall of the Building. The total area is the sum of the area of each individual Antenna face and the visible portion of the supporting Structure as viewed when looking directly at the face of the Building. The total area for a Roof-Mounted Antenna shall apply to the closest exterior wall.
- e. Height Regulation—Monopoles with Antennae. The height of Monopoles with Antennae and Antenna support Structures is restricted to the maximum Building Height of the tallest permitted Structure of the District.
- f. Wall- and Roof-Mounted Antennae on Noncomplying Buildings that Exceed the Maximum Building Height Limit of the Zoning District. Wall-mounted Antennae which otherwise are permitted or approved under this Chapter may be mounted on noncomplying Buildings that exceed the maximum Building Height of the zoning district in which they are located. Roof-Mounted Antennae which are mounted on a Noncomplying Structure above the maximum Building Height of the zoning district require Conditional Use approval.

 - 2. The Planning Commission may require that the Structure be designed and engineered to reasonably allow Collocation by a subsequent provider of low power radio communication services, if Collocation

3. Accessory Buildings for Antenna Structures. Accessory Buildings to Antenna Structures must comply with the required Setback, height and Landscaping requirements of the zoning district in which they are located. Monopoles shall be fenced with a six-foot chain-link fence and the climbing pegs removed from the lower 20 feet of the Monopole.
4. Abandoned Facilities. Notices required by this Section may be given by personal service, or by certified mail addressed to the person's last known address.
5. Where Allowed. A low power radio service facility, which is not otherwise classified in this Section, is a Conditional Use as outlined herein. A Conditional Use permit for a Monopole may be granted in a residential district only if the Planning Commission finds that:
 - a. The Monopole Antenna otherwise meets the requirements of Subsection (D) and does not exceed 60 feet in height;
 - b. The Antenna tower will be placed on a Parcel occupied by a non-Residential Use, such as a school, church, or other non-Residential Use that is a legally conforming structure in that residential district;
 - c. The Antenna tower will be located no closer than 150 feet from the nearest residential structure; and
 - d. The Antenna and supporting Structure will be disguised as, or otherwise integrated with, a light pole, Billboard, utility Structure or similarly Compatible and useful Structure located on the Parcel in a way that minimizes and mitigates the visual impact of the Antenna.
6. Controlling Chapter. Notwithstanding the various descriptions of land uses listed in the ordinances of the City relative to communication facilities, and the manner in which those various Uses are listed as Permitted or Conditional Uses in the respective chapters of this Title, the provisions of this Section and the Land Use Matrix shall prevail in governing the placement of wireless communication facilities, low power radio services facilities, and appurtenant facilities in the City, including the designation of Permitted and Conditional Uses in the various land-use districts.

If the land use authority determines that the Application does not comply with the standards and criteria of this Chapter and the Applicant has not proposed or the land use authority cannot impose additional, reasonable conditions of approval to that would bring the proposal within the standards and criteria of this Code, the land use authority may deny the Conditional Use Permit Application.

17.05.070 Modification of Conditional Use Permit.

The land use authority may reasonably modify the conditions of a Conditional Use Permit if the actual detrimental effects of previously identified adverse impacts are greater than anticipated, or the proposed mitigation has been unsuccessful at mitigating those actual detrimental effects to comply with the standards of this Code.
- B. Modification proceedings may be initiated by the Applicant, the City, or an injured party with standing. The party seeking the modification must pay the costs associated with the modification proceedings and file a petition for modification with the City. - B. Expansion of a Conditional Use occurs if the square footage of a Structure on a property subject to a Conditional Use Permit or associated with a Use listed as "Conditional" in this Title's Land Use Matrix will be increased by greater than ten (10) percent of the square footage existing at the time of the initial Conditional Use Application.
- C. A Conditional Use has grown if any of the following occurs:
 - 1. The pedestrian or vehicle traffic has increased by greater than twenty (20) percent than was anticipated at the time of the initial Conditional Use Application, and the increased traffic is a result or impact of the Use;
 - 2. Off-Street parking has become inadequate due to the number of customers, employees, or occupants associated with the Conditional Use; or
 - 3. Other detrimental effects, such as noise, odor, or light pollution, have increased beyond what was reasonably anticipated at the time of the initial Conditional Use Application.
- D. The City may initiate modification proceedings if a Conditional Use has grown to the extent provided in this Section.

17.05.090 Revocation of Conditional Use Permit.

 - 4. The holder or user of the Permit has failed to construct or maintain the site as shown on the approved plans; or
 - 5. A Conditional Use has been expanded or grown and cannot mitigate the detrimental effects of that expansion or growth.
- B. Revocation is appropriate when the Applicant has knowingly engaged in conduct that violates the Conditional Use Permit, or when the holder or user has previously had the Permit suspended. Notice shall be given of a pending revocation and the Property Owner will be given a reasonable opportunity to cure the violation in the same manner as provided for other violations of ordinances in this Title.

17.05.100 Building Permits.

The issuance of a Conditional Use Permit does not excuse an Applicant from applying for and obtaining Building Permits for the location, unless Building Permits are not required for the approved Conditional Use.

17.05.110 Conditional Use Permit Expiration.

- A. Conditional Use Not Implemented. A Conditional Use Permit expires if the Permit has not been implemented within two (2) years from the date of approval. The Permit is considered implemented if the holder of the Permit engages in the Conditional Use on the site or maintains an active building permit (excluding demolition permits) on the site for which the Conditional Use Permit was granted.
- B. Conditional Use Abandoned. If the approved Conditional Use or activity ceases for any reason or does not maintain an active building permit for a continuous period of two (2) years or more, the Conditional Use Permit shall automatically terminate without further notice, as having been abandoned. A person may only reinstate the Conditional Use after applying for and receiving a new Conditional Use Permit.
