

Proposed 2025 TriCounty Health Department Fee Schedule

Nursing

Fee Name	Fee Description	Fee Amount	Change
Azithromycin	Given in combination with OTC medications to treat travelers diarrhea	1.00/tablet	
Bexsero (Meningococcal B)	BEXSERO is a vaccine indicated for active immunization to prevent invasive disease caused by Neisseria meningitidis serogroup B. BEXSERO is approved for use in individuals 10 through 25 years of age.	\$199.00	Decrease \$7
Ciprofloxacin	Given for travelers diarrhea when there is an allergy to azithromycin	1.00/tablet	
DTap	DTaP is a vaccine that helps children younger than age 7 develop immunity to three deadly diseases caused by bacteria: diphtheria, tetanus, and whooping cough (pertussis) .	\$49.00	\$4
Flu 6mo+	FLULAVAL QUADRIVALENT is a vaccine indicated for active immunization for the prevention of disease caused by influenza A subtype viruses and type B viruses contained in the vaccine. FLULAVAL QUADRIVALENT is approved for use in persons aged 6 months and older.	\$32.00	
Gardasil 9(HPV)	a vaccine indicated for males & females 9 through 45 years of age for the prevention of cervical, vulvar, vaginal, and anal cancers caused by human papillomavirus (HPV) Types 16, 18, 31, 33, 45, 52, and 58; precancerous or dysplastic lesions caused by HPV Types 6, 11, 16, 18, 31, 33, 45, 52, and 58; and genital warts	\$312.00	\$58
Hep A Peds	The hepatitis A pediatric vaccine is given in a series of 2 shots. The first shot is usually given when the child is between 12 and 23 months old	\$54.00	\$5
Hep A Adults	Hepatitis A Vaccine for those at risk 19 years of age and older	\$93.00	\$4
Hep B Peds	Hepatitis B vaccine (HepB) usually is given as a series of three injections: shortly after birth, at 1–2 months of age and at 6–18 months of age up to 18 years of age	\$45.00	\$5
Hep B Adults	Hepatitis B Vaccine for those at risk 19 years of age and older	\$73.00	\$3
HIB	HIB is indicated for routine vaccination against invasive disease caused by Haemophilus influenzae type b in infants and children 2 to 71 months of age.	\$40.00	
J. Encephalitis	The Japanese encephalitis vaccine is an inactivated vaccine that is very effective at preventing infection. It is a two-dose vaccine administered 4 weeks apart; the second dose must be completed at least one week before travel. The Japanese encephalitis vaccine is approved for people age 2 months and older.	\$390.00	\$43
Kinrix (Dtap & Polio combo)	Kinrix is a vaccine used to help prevent the diseases of diphtheria, pertussis, tetanus, and polio in children who are ages 4 through 6 years (before the 7th birthday) who have received prior vaccination with a DTaP and IPV series.	\$77.00	\$9
Lopramide	Given in combination with antibiotic medications to treat travelers diarrhea	3.00/box	
MCV4	a vaccine indicated for active immunization to prevent invasive meningococcal disease caused by Neisseria meningitidis serogroups A, C, Y, and W-135(Meningitis). MCV4 is approved for use in persons 2 months through 55 years of age.	\$142.00	
MMR	MMR vaccine to protect against measles, mumps, and rubella . Children should get two doses of MMR vaccine, starting with the first dose at 12 to 15 months of age, and the second dose at 4 through 6 years of age.	\$109.00	\$18
Malarone(Atovaquone and Proguanil Hydrochloride)	Used to prevent and treat malaria caused by mosquito bites in areas where malaria is common. Malaria parasites can enter the body through these mosquito bites, and then live in body tissues such as red blood cells or the liver. This medication is used to kill the malaria parasites living inside red blood cells and other tissues.	1.50/tablet	
Prevnar 20	PREVNAR 20 is a vaccine approved for: the prevention of invasive disease caused by 20 Streptococcus pneumoniae strains (1, 3, 4, 5, 6A, 6B, 7F, 8, 9V, 10A, 11A, 12F, 14, 15B, 18C, 19A, 19F, 22F, 23F, and 33F) in individuals 6 weeks and older	\$284.00	\$16
PPSV 23	The pneumococcal polysaccharide vaccine (PPSV23 or Pneumovax®) protects against 23 types of pneumococcal bacteria . CDC recommends it for all adults 65 years or older and for those 2 years or older at increased risk for disease.	\$142.00	\$16
Pediarix	PEDIARIX®: Combined hepatitis B, diphtheria, tetanus, acellular pertussis (DTaP), and inactivated poliovirus (IPV) vaccine. Cannot be administered before age 6 weeks or after age 7 years.	\$101.00	
Pentacel	Pentacel vaccine is indicated for active immunization against diphtheria, tetanus, pertussis, polio, and Haemophilus influenzae type b . Pentacel vaccine is approved for use as a 4-dose series in children 6 weeks through 4 years of age	\$131.00	\$24
Polio (IPV)	Polio Vaccine is recommended in a 4-dose series in children at ages 2 months, 4 months, 6-18 months, and 4 through 6 years.	\$65.00	\$17
ProQuad (MMRV)	protects against measles, mumps, rubella, and varicella (chickenpox) . This vaccine is only licensed for use in children who are 12 months through 12 years of age.	\$293.00	\$56
Rabies	Rabies is a vaccine indicated for pre-exposure and post-exposure prophylaxis against rabies. Imovax Rabies vaccine is approved for use in all age groups.	\$383.00	
Rotavirus	Rotavirus is a virus that causes diarrhea, mostly in babies and young children. The first dose of rotavirus vaccine should be given before 15 weeks of age, and the last by age 8 months. Rotavirus vaccine may safely be given at the same time as other vaccines.	\$121.00	
TB/PPD (Tuberculosis test)	A purified protein derivative (PPD) skin test is a test that determines if you have tuberculosis (TB) . TB is a serious infection, usually of the lungs, caused by the bacteria Mycobacterium tuberculosis.	\$20.00	
TDAP	Tdap is a booster immunization given at age 11 that offers continued protection from diphtheria, tetanus, and whooping cough (pertussis) for adolescents and adults	\$62.00	\$6
TD (7+ years)	Td vaccine has been used for many years. It protects against tetanus and diphtheria. Recommended for those 7 or older that have been adequately vaccinated against pertussis	\$47.00	

Twinrix (Adult Hep A and Hep B combo)	TWINRIX®: Combined Hepatitis A and hepatitis B vaccine. Recommended for persons aged ≥18 years who are at increased risk for both Hepatitis A virus and Hepatitis B infections.	\$129.00	\$3
Typhoid	Routine typhoid vaccination is not recommended in the United States, but typhoid vaccine is recommended for travelers to parts of the world where typhoid is common. One dose provides protection. It should be given at least 2 weeks before travel to allow the vaccine time to work. A booster dose is needed every 2 years for people who remain at risk. Inactivated typhoid vaccine (shot) Should not be given to children younger than 2 years of age. (oral) Should not be given to children younger than 6 years of age.	\$144.00	\$18
Typhoid Oral	Routine typhoid vaccination is not recommended in the United States, but typhoid vaccine is recommended for travelers to parts of the world where typhoid is common. One dose provides protection. It should be given at least 2 weeks before travel to allow the vaccine time to work. A booster dose is needed every 2 years for people who remain at risk. Inactivated typhoid vaccine (shot) Should not be given to children younger than 2 years of age. (oral) Should not be given to children younger than 6 years of age.	\$144.00	\$18
Shingrix (Shingles vaccine)	SHINGRIX is a vaccine indicated for prevention of herpes zoster (shingles) in adults aged 50 years and older.	\$223.00	\$39
Varicella	chickenpox vaccine for children, adolescents, and adults. Children should receive two doses of the vaccine—the first dose at 12 through 15 months old and a second dose at 4 through 6 years old.	\$199.00	\$39
Vaxelis	Indicated for active immunization to prevent, diphtheria, tetanus, pertussis, poliomyelitis, hepatitis B, and invasive disease due to Haemophilus influenzae type b	\$176.00	\$37
Yellow Fever	Vaccine is recommended for people aged 9 months or older and who are traveling to or living in areas at risk for yellow fever virus	\$222.00	\$21
Private Administration Fee	Add to our cost for cash pay	\$15.00	
Private Administration Fee	Add to our cost with insurance	\$25.00	
VFC Administration Fee	Based on sliding fee schedule	\$25.00	
30 minute Travel administration Fee	Add to vaccine cost	\$50.00	
1 hour Travel Administration Fee	Add to vaccine cost	\$100.00	
Private Administration Fee STI	Added to our cost	\$25.00	
Pregnancy	Urine	\$8.00	
Chlamydia/Gonorrhea	Urine	\$35.00	
Hep B Antigen	Hepatitis B antigen blood draw	\$20.00	
Hep C	Hepatitis C rapid blood test	\$35.00	
HIV	HIV rapid blood test	\$35.00	
Syphilis	Syphilis blood draw	\$16.00	
Blood pressure	Blood pressure check	\$5.00	
Hemoglobin/Iron	Hemoglobin/Iron Blood draw	\$5.00	

Vital Records

Fee Name	Fee Description	Fee Amount	Notes

Environmental Health

Fee Name	Fee Description	Fee Amount	Notes
<u>OTHER ENVIRONMENTAL HEALTH INSPECTIONS</u>	Per Inspection	\$100.00	
	Plan Review (School, RV Parks, Mobile Home Parks, Hotels, Contaminated Properties)	\$200.00	
	*** 50% Late Fee when plans are not approved prior to demo/removal/remediation		
<u>AIR QUALITY</u>	Plan Review for Demolition/Removal/Remediation/Sample Review	\$100.00	
	Dust Control Plan Review	\$100.00	
	*** 50% Late Fee when plans are not approved prior to demo/removal/remediation		
<u>BODY ART/TANNING FACILITIES</u>	Body Art or Tanning Facility Permit	\$350.00	\$50
	Follow Up/Extra Inspection	\$100.00	
	Plan Review	\$250.00	\$50
	*** 50% Late Fee for operating without a permit		

	*** 50% Late Fee when plans are not approved prior to construction/remodel		
<u>EMERGENCY RESPONSE</u>	Initial Emergency Response/Spill Clean Up/Remediation F/U	\$100.00 per hr + lab fees	
<u>FOOD SERVICE</u>	Annual Food Service Permit/Reinstatement		
	Category I - Serving no time/temperature controlled items	\$300.00	\$100
	Category II - Serving less than 5 time/temperature controlled items	\$400.00	\$100
	Category III - Cooking raw foods or serving 5 or more time/temperature controlled items. Highly Susceptible - Hospital, Care Center, Daycare Centers, Senior Centers CFSM required	\$500.00	\$100
	Category IV - High risk based on history and violations	\$600.00	\$100
<u>TEMPORARY FOOD SERVICE</u>	Temporary Food Service Permit Category 1 Serving no time/temperature controlled items	\$20.00	
	Temporary Food Service Permit Category 2 Serving time/temperature controlled items	\$150.00	\$50
	Long Term Temporary Permit	\$150 + \$10/day	\$50
	Catering Fee (additional fee for Establishments that Cater)	\$200.00	
	After 1st follow up/per visit/pre-opening	\$100.00	
	***50% Late Fee for establishments which do not give proper notification or operate without a permit.		
<u>Food Service Plan Review</u>	Category I	\$250.00	\$50
	Category II	\$350.00	\$50
	Category III	\$450.00	\$50
	***50% Late Fee when plans are not approved prior to construction/remodel		
<u>Food Handler Permits</u>	Food Handler Permit (good for 3 years)	\$15.00	
	Duplicate Food Handler Permit (Lost Card Replacement)	\$10.00	
	On-site Handler Training (plus \$15.00 per class participant)	\$300.00	
<u>INFORMATION REQUEST/FILE SEARCH</u>	Environment Health Records per Utah Code 63G-2-204	\$10.00 minimum	
<u>POOLS AND SPAS</u>	Pool/Spa Permit/Reinstatement	\$250.00	
	Pool Samples (per sample)	\$40.00	
	Pool Plan Review	\$500.00	
	Follow Up Inspection	\$200.00	
	*** 50% Late Fee for establishments operating without a permit.		
	*** 50% Late Fee when plans are not approved prior to construction/remodel		
<u>SOLID WASTE</u>	Landfill Soil Disposal Review	\$100.00	
<u>SUBDIVISIONS</u>	Base for Each Subdivision	\$500.00	
	Per Lot Being Subdivided (reviewed)	\$100.00	
	Lot split (creating only 1 new building lot)	\$200.00	
<u>TEMPORARY MASS GATHERINGS</u>	Plan Approval/Permit	\$200.00	
	Per Inspection	\$100.00	
	*** 50% Late Fee for failure to notify 30 days prior to advertising event		
<u>WASTEWATER INSPECTIONS</u>	Wastewater Site Assessment (Required for all WW)	\$300.00	\$100
	New Onsite Wastewater Systems Permit (Can include tier I graywater system)	\$600 + State fee	\$100
	Homeowner Installation Class	\$200.00	\$100
	Tier I Graywater System Permit only	\$300.00	\$100
	Tier II Graywater System Permit	\$800.00	\$100
	Additional Visit	\$200.00	\$100
	Permit Extension	\$100.00	
	Existing Wastewater Inspections	\$300.00	\$100
	Repair/Replace Septic Tank Permit	\$200.00	\$100
	Repairs/Replace or Alterations to Drainfield/Permit	\$200.00	\$50
	Sewage & Non-Sewage Holding Tank Permit	\$900.00	\$200
	Temporary Labor Community/Drill Sites	\$350.00	
	Vault and Earthen Pit Privy Permit	\$300.00	\$100
	Liquid Waste Operator Permit	\$200.00	
	Experimental Onsite Wastewater Systems Permit	\$900 + State fee	\$200

	Alternative Onsite Wastewater System Operating Permits/Renewals	\$900 + State fee	\$200
	***50% Late Fee when plans are not approved prior to construction of structure or onsite wastewater system		
DRINKING WATER	Onsite Drinking Water Consultation (i.e. source, water sample)	\$100 + lab fees	
	Property Owner Request to Haul Water	\$50.00	
	Existing Water Well Inspections	\$100 + lab fees	
	Commercial Water Hauler Permit	\$300.00	\$100
	Drinking Water Review and Approval 4 plus Connections	\$100/hr + lab fees	
	BAC-T or HPC Test	\$25.00 per sample	\$5
	Nitrate Test	\$15.00 per sample	
	*ALL PER HOUR FEES WILL BE CHARGED AT A ONE HOUR MINIMUM		
Fee Name	Fee Description	Fee Amount	Notes
