Subject: Engineering Firm Selection for EWP Flash Flood Project

To: Michael Kourianos <mikek@priceutah.net>

Mayor and Council,

The selection committee met this morning with each of the two engineering firms which had submitted proposals for the RFQ for the EWP FLash Flood Project . As a result, the committee is recommending that Price City hire Johansen and Tuttle Engineering to provide the design and construction engineering for the project.

The EWP funding pays for 100% of the engineering costs for the components of the project which qualify. The budget estimate for these services is \$273,000.00

Due to the urgency of getting the project underway, we are scheduling a special meeting of the City Council for this Monday, September 16th to approve the committee's recommendation. Once approved, we will prepare a service agreement and place it on the agenda for the September 25th City Council Meeting.

Please contact me with any questions.

Miles
