80.09%	100.00%	71	100%
100%			
19.9100%	80.0900%		

- The current distribution is based upon the Policy Committees decision that all funding for 2021 thru 2023 would follow a distribution equal to \$400,000 per region, with the remainder of the project funding distributed based upon criteria such as: the percentage of LMI population in each region; the average poverty rate of the region; pre-1980 housing construction; and pre-approved applicants based upon census data for identifying median income by county.
