Business:

Allen Henrie gave an update on the Panguitch Lake Dam. The company met with dam inspectors, county commissioners, and senators last month. All agreed that the dam should be replaced, and it should be done this fall. The dam is on the 'high risk list' because of the people that live downstream. Once the foundation is done, the dam could be built at a rate of 1 foot per

day. The West Panguitch Irrigation board will have a phone call with the Governor and State Senators to discuss funding this week. Engineering is almost done on the new dam.

Next meeting is scheduled for September 18, 2024.

The County Commissioners have agreed to partially fund a visit from the President of the National Center for Constitutional Studies on Saturday, September 7. He will do a daylong seminar in Escalante at the show house.

Allen Henrie made a motion to adjourn. The meeting adjourned at 2:24 pm
