Discussion of Mental Health for First Responders

(3:07 p.m.)

Commissioner Miles said there was a change in legislation this year. Local governments are required to provide mental health support for first responders. Grants are available to help start a program, expand the existing program, or try something new entirely. The County has a contract with North Eastern County to provide the service for the County's first responders. There are specific requirements that each entity must comply with: signs must be posted on the wall that resources are available, annual training must be complete, and dependents must be covered, including spouses and children. More information can be found by looking at Utah Code 53-21-103. The County will partner with the cities and towns if they would like to. The parties discussed the requirements of the new law.

Discussion of 2024 Road Projects

(3:17 p.m.)

Commissioner Miles asked what projects the cities and towns are working on. Duchesne City Mayor Rodney Rowley wants to partner with the County on 800 North and Main. They have completed some, but the expense is beyond what they can afford to complete.

The County has a contract with Burdick Materials and plans to chip-seal 70 miles of road this year. They are widening North Crescent Road; it will probably be a multiyear project. Tabiona Town Mayor John Breakfield is wondering when the County plans to finish roto milling the road from the rodeo grounds to the old road. Commissioner Miles said they will get to it when they can.

Discussion of Airport Overlay Zones

(3:23 p.m.)

Community Development Director Mike Hyde explained in response to House Bill 206, passed in the 2023 Utah General Legislative Session, Duchesne County proposes to amend its zoning ordinance to establish an airport overlay zone to protect the Duchesne Municipal Airport from incompatible development on lands under county jurisdiction. HB 206 establishes a deadline of December 31, 2024, for this to be completed. Duchesne City and Roosevelt City will need to consider a similar ordinance pertaining to lands within the city limits.

The proposed ordinance amendment was reviewed during a public hearing conducted by the County Planning Commission on May 1, 2024. Upon hearing numerous concerns and requests for an extension of time to review and comment on the ordinance, the Planning Commission voted to recess their public hearing until August 7, 2024, to study the regulatory options further.

They are working with the public and the oil industry to devise a solution that will protect the public in case of a plane crash.
