What is your motivation for service on the committee?

I feel that having lived in Payson most of my life, I should be involved in the city and do my part to help improve it. I also think it is interesting to know a little bit about what is going on in the city. So many people who live here just like to complain without really knowing why things are the way they are, and they don't have the motivation to find out. I enjoy being involved in causes that are beneficial to the city. Being retired, I have the time.

How does your background, training, and experience lend itself to service on the committee?

I have served on the PARC Committee for several years. I was also privileged to be on the original PARC Committee when it was set it up. I possess valuable knowledge and have a great deal of experience in it's policies and procedures. I was president of the newly formed Payson Cultus Club which was made from the Cultus Club and Jr. Cultus Club. This took some compromise and gentle persuasion to make both clubs feel wanted and needed. I possess the ability to see and help others compromise.

Please list any relevant areas of expertise, education, or training you possess that will be helpful for service.

I retired from a medical facility where I was the main secretary. I was also the HIPPA Officer which meant that I had extensive training in all things related to HIPPA. Besides my other secretarial duties, I was responsible to make sure 22 doctors knew of and attended their various meetings. Having been a member of the Payson City Band, the Payson Civic Chorale and a trustee at the Peteetneet, I am aware of their needs. I am also aware that other City entities have needs and have a desire to help them.
