   City Manager Kulow presented the request for Outside City Limits Utility Agreement/Application for Parcel #33524E311811. He introduced Public Works Director Baird to provide his assessment of the request. Baird stated that since this parcel was designated as “restricted development” he contacted the Department Of Energy to determine if this request was feasible. DOE stated that if the City contacted them for a background radiation check they had no problem with development. Baird further stated that there is a meter set on the parcel that the DOE was unaware of. The Council members asked clarifying questions on his statement.
   Assistant City Manager Gallegos clarified what a “restricted development zone” needs. She expressed a concern over how the property would be accessed. It currently does not front a city

street. She further proposed that before the City begins work on the project there be an approved San Juan County Building Permit in place.

Loren Holyoak stated the surrounding property belongs to her mother and she has an easement in place.

There was a great deal of discussion between all in attendance regarding annexation back into Monticello city limits along with the other parcels that have an outside city limits utility agreement in place. Councilmember Rice expressed concern over the fact that the Holyoak's deannexed the property from the City several years ago but are now asking for city services. He further stated the issue at hand was not "annexing back into city limits" but the incomplete application that was submitted. He expressed concerns over the fact that no approved SJC building permit has been issued, the DOE has not given a definite green light on the dig, and the easement of the water line across Holyoak's mothers property.

Councilmember Crowley asked if the applicants own the property in question and if they were the ones involved in the deannexation process. Councilmember Dunn asked Holyoak if she would consider annexing into city limits in the future and she stated "not that I can see". He then asked the city manager questions regarding rates in city vs outside city.

MOTION to deny the outside city limits utility application was made by Councilmember Rice. There was no second. The motion died.

October 3, 2024

Dear Council Members,

I am writing on behalf of San Juan Health Service District (Hospital) regarding the upcoming construction of our new replacement facility for the San Juan Hospital. As you are aware, the new hospital will be built on property adjacent to the existing facility; however, this property is currently outside the City of Monticello's boundaries.

The Hospital planned to request annexation as part of the process to construct the new facility; however, we have been made aware in our discussions with City officials that the City does not currently have an approved annexation plan in place, as required by Utah state statute. As a result, the City may not act on any new annexation request until a plan is in place that meets the requirements outlined in the statute. We understand that it will likely take several months for an approved plan to be put in place.

In the meantime, we are preparing to move forward with the project, which is scheduled to begin in March 2025. We are in the final stages of design, and several aspects of the project will soon require the approval of relevant authorities. Given that annexation is not possible at this time, the Hospital proposes that the facility be constructed within the County's jurisdiction while the City of Monticello agrees to provide critical utilities, including water, sewer, and sanitation services.

To this end, we respectfully request that the following terms be considered as part of any utility services agreement with the City:

- **Utility Services**: The City of Monticello will provide water, sewer, and sanitation services to the new hospital site as though the property were annexed into the City.
- **Utility Rates and Fees**: The Hospital will be charged the same rates and fees as other customers within the City who fall within the same classification.

Monticello, Utah 84535

www.sanjuanhealth.org

- **Service Guarantee**: In the event of water shortages or other disruptions, utility services provided to the Hospital be prioritized as essential services. The hospital cannot function and provide critical services to the community without these utilities. While we understand usage curtailment may be necessary during such times, the Hospital requests the same level of service as other in-City customers.
- **Utility Infrastructure**: The Hospital will extend water and sewer lines to the new site at its own expense and according to City specifications. The Hospital will also obtain or grant any necessary rights of way to facilitate this extension.
- **Future Property Owners**: In the event the City does not accept the Hospital's future petition to annex, any agreement to provide utilities to the hospital must extend to future property owners to ensure continued access to services.

In addition, we respectfully request that the City consider a petition for annexation of the hospital property as soon as possible after the new facility is occupied. This will ensure that the facility is fully integrated into the City's services and regulations in the future.

San Juan Health is committed to working collaboratively with the City of Monticello to ensure the success of this vital project. We believe that providing these essential services will not only support the Hospital's ability to deliver critical healthcare to the community but also strengthen our partnership with the City.

Thank you for your consideration of this request. We are available to meet at your convenience to discuss these matters further and address any questions or concerns.

Sincerely,

Clayton Holt
CEO, San Juan Health Service District

OUTSIDE CITY LIMITS UTILTIY AGREEMENT/APPLICATION

The applicant agrees and understands the following terms (Check each box):

- ☐ The City has a responsibility to meet the requirements of water users within the City limits, as well as those connected to the service within the future annexation area. However, in times of water shortage service to all such users may be curtailed with proper noticing.
- ☒ The City reserves the right to deny any application for connection to City utility lines, based on known or anticipated factors which might be considered detrimental to the City.
- ☒ The City has no obligation to extend, construct, or in any way provide water or sewer lines in addition to those already in existence.
- ☒ The applicant must agree to pay, in advance, the entire expense for extension of water or sewer lines or cause the lines to be constructed at the applicant's expense.
- ☒ The extended lines must be installed by a licensed contractor, according to City specifications, and must pass inspection by the City public works director and City engineer prior to final approval and acceptance by the City.
- ☒ The extended lines must be sized to meet the needs of future planned growth and infrastructure expansion as approved by the City Public Works department.
- ☒ The extended lines must be placed to meet the City's future planned growth and infrastructure needs, with consideration given to the Monticello City general plan and future road corridors, as reviewed and approved by the Planning & Zoning administrator.
- ☒ When complete, any water main extensions must be surrendered to City ownership along with all appropriate easements and rights-of-way.
- ☒ The extension must be individually reviewed and approved by the City Council.
- ☐ The applicant must agree to pay an additional fee for the provision of services outside City limits, with the rates to be reasonably set and justified by the City Council. Rates can be found in the City's consolidated fee schedule.
- ☒ Should the City institute an annexation which would include the property of the applicant, the applicant agrees to not resist or otherwise oppose such annexation.
- ☒ Water users outside the City limits will be required to follow the same water user restrictions as all other water users serviced by the City of Monticello.
- ☐ This agreement is for the current property owner. All future property owners must complete a new agreement/application.
