Date of Meeting: October 15, 2024
Re: Robinson (NS) Hill Annexation Petition
Action: 30-Day Notice Protests Review, Discussion, and Consideration of Annexation Petition

Robinson (NS) Hill Annexation Petition

REQUEST

Review and discuss the protests received from a 30-day notice in consideration of the annexation petition.

BACKGROUND

An annexation petition was filed with the City by Jonathan Shaw representing Pamela Robinson for Parcel NS-424-A including 37.56 acres. Attachment A includes an aerial location map showing the annexation area in blue outline. As shown in Attachment B the petition area is located within the city annexation declaration boundary and is adjacent to the existing city limit line. Attachment C includes an annexation plat of the property.

The property is currently in the Eastern Summit County Ag/Grazing-5 Zone (1 unit/5 acres). The City Future Land Use Map identifies the Residential Agricultural (RA) Zone (1 unit/5 acres) for the property. Attachment D includes the City Future Land Use Map for reference.

City Council Review

On August 12, 2024 the City Council reviewed the annexation petition and tabled an action on the petition until after an open forum was held to receive public input on the City Annexation Declaration Boundary and Policies.

On September 4, 2024 the City Council held an open public forum to present the city annexation declaration mapping, water and sewer availability, and other general information for comment and input.

On September 9, 2024 the City Council summarized the input received at the public forum, continued the review and discussion of the annexation petition, and determined to accept the petition for moving forward with the required 30-notice protest period.

ANALYSIS

Section 03-180 of the Development Code require all annexations to be consistent with the City Annexation Policy Declaration and the relevant sections of the Utah Code. State Code Sections 10-2-402, 10-2-405, 10-2-406, 10-2-407 and 10-2-425 address annexation limitations, processing, notice, protests, and filing of annexation petitions. For reference Attachment E includes the city annexation policy declaration and Attachment F includes the state code sections.

Annexation Petition Summary Overview

According to the steps identified in the state code and the application process in the city annexation petition packet the next step in the annexation process included a 30-day protest period. Attachment G includes a copy of the required 30-day notice to receive protests of the annexation petition which was mailed to all entities/property owners within 300 ft of the proposed annexation area. Attachment H includes three (3) protests that were filed with the city.

At the meeting the City Council, after consideration of the filed protests, may reject the annexation petition or provide additional input and direction to the petitioner or staff for further consideration of the annexation. The petitioner recently submitted a project overview for consideration of the City Council which is included as Attachment I.

The City Council has ability to request additional property details, community benefits, and require an annexation agreement from the petitioner before scheduling a public hearing and voting to either grant or deny the annexation.

If the annexation is approved by the City Council the annexation survey and articles of incorporation must be sent to the Utah State Lt. Gov office for review.

Following the Utah State Lt. Gov office acceptance of the annexation, the petitioner may proceed with submittal of a development application for the proposed development on the property.

Annexation Petition Evaluation

According to the Development Code and General Plan, the City should evaluate the following criteria for consideration of approval of an annexation petition:

- (a) Compliance with all requirements of appropriate State Code provisions.
- (b) The current and potential population of the area, and the current residential densities.
- (c) Land uses proposed in addition to those presently existing.
- (d) The assessed valuation of the current properties or proposed uses.
- (e) The potential demand for various municipal services, especially those requiring any capital improvements.
- (f) Recommendations or comments from other local government jurisdictions regarding the proposal and potential impact of the annexation.

(g) An accurate map of the proposed annexation area, in addition to that required by State law, showing the boundary of the area and property ownership lines, the topography of the area and major natural features, easements, drainage channels, steep slopes, ridgelines, wooded areas, wetland areas, or high-water table, etc.

(h) A statement as to how the proposed area, and/or its potential land uses would contribute to the achievement of the goals, objectives, and policies of the General Plan.

(i) Identification of any special districts or county departments that are currently providing services. If the proposed area is receiving services that are to be assumed by the City, a statement should be included indicating that steps can be taken to ensure an effective transition in the delivery of services. A timetable for extending services should be included if the City is unable to provide services immediately.

RECOMMENDATION

Staff recommends the City Council review and discuss the protests to the annexation petition, address any question or comments with the applicant and staff, and either reject the annexation petition or provide additional input and direction to the petitioner or staff for further consideration of the annexation in the public hearing process.

REQUEST: COALVILLE CITY

The annexation policy declaration of Coalville City is as follows:

Section 1. The City desires to annex that portion of the territory hereinafter described which is not now located within the Coalville City limits. The territory is described as follows:

Beginning at the Northwest corner of Section 4, T 2N R 5E of the SLB&M, and running thence East along the North line of Section 4 and Section 3 to the Northeast corner of said section 3, thence South along the East line of said Section 3 to the Northwest corner of Section 11, thence East along the North line of Section 11 to the NE corner thereof, thence South along the East line of Section 11 to the SE corner thereof, thence West along the South line of said Section 11 to the SW corner thereof, thence South along the East line of Section 15 to the Southeast corner thereof thence West along the South line of Section 15 to the South quarter corner thereof, thence South along the center lines of Sections 22 and 27 to the South quarter corner of said Section 27, thence West along the South lines of Sections 27, 28 and 29 to the South quarter corner of Section 29,

(continued on following page)

thence North along the center line of said Section 29, to the North quarter corner thereof, thence West along the North line of said Section 29 to the Northwest corner thereof, thence North along the East lines of Sections 19 and 18 to the East quarter corner of said Section 18, thence West along the center line of said Section 18 to the center thereof, thence North along the center lines of Sections 18 and 17 to the North quarter corner of said Section 17, thence East along the North line of Section 17 to the Southwest corner of Section 5, thence North along the West line of said section 5 to the Northwest corner thereof, thence East along the North line of Section 5 to the Northwest corner of Section 4 T 2N R 5E SL&M and the point of beginning.

A map showing the respective locations of the above described territory and of the present City limits is on file with the City as a part of this Annexation Policy Declaration.

Section 2. Where feasible and practicable, the City favors annexation along the boundaries of special service districts. The City also favors a) the elimination of islands and peninsulas of unincorporated territory; b) the consolidation of overlapping functions of local government; c) promoting the efficient delivery of services; and d) encouraging the equitable distribution of community resources and obligations, consistent with the applicable state statutes.

Section 3. The City favors the annexation of all unincorporated areas of Summit County as described in Section 1 which is or may become urban. The City generally does not favor annexation of territory which creates islands or areas of undeveloped and undevelopable territory. However, situations may exist where it is in the public interest to preserve from development certain lands where there exist geologic hazards, excessive slopes, flood plains or the need for preservation of community open space and/or agricultural lands consistent with the Comprehensive Plan. In those circumstances, annexations may occur as a means of retaining those lands in a natural state. In addition, the City does not favor annexation of territory which should be located within another municipality nor does it favor the annexation of unincorporated territory solely for the purpose of acquiring municipal revenues or for retarding the capacity of another municipality to annex. The City does not favor the annexation of territory for which it has no intention to provide or capability of providing municipal services.

Section 4. This annexation policy declaration is intended to and hereby does incorporate by reference all of the standards required and suggested by Title 10, Chapter 2, Part 4. Utah Code Annotated 1953 for municipal policy declarations with regard to annexation.

00439884 Br00916 Pg00030

Section 5. The character of Coalville City is mixed residential, commercial, and industrial uses which attract a

great many visitors throughout the year. The community and the surrounding developments in the unincorporated territory which the City favors annexing, require the delivery of high quality, cost-effective municipal-type services.

Section 6. It is recognized that the unincorporated area under consideration for annexation may or may not be presently receiving sewer, fire protection, and public school services by virtue of the major special districts already created. Other services are provided on a rural level from Summit County. The territory which Coalville City annexes shall receive immediately on annexation the urban level of services, consistent with those services normally provided in the rest of the incorporated boundaries.

Section 7. The City retains the right to require of any annexing property certain conditions which must be complied with prior to completion of the annexation. These conditions normally will be applied uniformly for each property. Unusual or unique circumstances may emerge from time to time however, in which event special conditions may be applied. Conditions normally shall include but are not necessarily limited to:

- a. Transfer of usable water rights as established by ordinance sufficient to serve a particular project or projects at full development.
- b. Additional improvements as necessary which may be required in order to improve the water system.
- c. Dedication of necessary streets and rights of way consistent with subdivision standards.
- d. Payment of public park land acquisition and development fees.
- e. Provision for moderately priced housing in accordance with guidelines established by the City Council.
- f. Site plan and/or architectural review.
- g. Floodplain management or preservation of environmentally sensitive lands, as and if appropriate.
- h. Phasing of public and private improvements in accordance with plan.
- i. Fees paid in lieu of certain conditions as stated above not being met by the development.
- j. Analysis of the fiscal impacts of the development.

Section 8. As part of the establishment of conditions to be required and incorporated into the annexation agreement, the City will determine and approve the appropriate zoning category for the particular property. Consideration will be given to a variety of factors in establishing the best zoning, including but not limited to topography and site conditions, character and extent of development of adjacent properties and neighborhood, availability of municipal services and impact of the development on those services and consistency with the Coalville City Compre-

00439884 Bk00916 Pg00031

hensive Plan. The appropriate zoning will be formally considered by the Planning Commission for recommendation and the City Council for final approval concurrent with the public hearings on the proposed annexation.

Section 9. Within 30 days of receipt of a petition for annexation, the City will notify the owner(s) of the nature of the conditions which are deemed appropriate. Public hearings will then be scheduled before the Planning Commission for recommendations and the City Council for final action on the proposed annexation. The special conditions shall be formalized as part of the written annexation agreement. Hearings conducted on the petition and claims taken there on shall be in accordance with all applicable state and local laws, ordinances, regulations.

Section 10. It is not anticipated that the annexations will cause adverse tax consequences to residents in Coalville City or in the area annexed except that temporarily there might be a slight reduction in general level of services to the city residents in the present city limits as the general services are expanded into the newly annexed territory. Through proper phasing of annexations and services and sound fiscal management, it is anticipated that the residents in the territory to be annexed will experience an increase in their property tax by the amount of the city's mill levy. It is anticipated that the interests of other local jurisdictions concerned with Coalville City annexations will not be adversely affected.

Section 11. This Annexation Policy Declaration shall be reviewed and updated every five years or more frequently should the need arise. At the time of updating, the population and market projections that formed the basis for this Declaration, the progress of the City in annexing, and the experiences of the city with annexations from a cost and revenue standpoint, shall all be considered and evaluated. These findings shall form the basis for any proposed revisions of the Annexation Policy Declaration.

ARTICLE II

ORDINANCE IN FORCE

Section 1. This ordinance shall be in full force and effect from and after the date of publication in the Summit County Bee.

Section 2. Passed and adopted by the City Council of Coalville City, State of Utah on the 11th day of September, 1995.

Re: Statements for the proposed annexation of NS-424-A.

To Whom It May Concern,

As adjacent property owners and neighbors of the proposed annexation of Parcel # NS-424 we would like to state a few items that the proposed development will need to consider through the development process.

As the landowners of Parcel # NS-432-A and the 4 lots within the Robinson Sub. Amended we have concerns regarding the proposed access road to the North of the Parcel # NS-424 as contained in the staff report (Robinson (NS) Hill Annexation Petition) from September 9, 2024. We would suggest that the applicant acknowledge that they currently do not have an easement through the existing Robinson Sub. Amended to access Border Station Road but would have to pursue this possible access later within the development process.

One of the homes within the Robinson Sub. Amended Parcel # ROBIN-3-AM receives culinary water from a private spring (Water right number 35-1700). If the annexation is approved, we would like to discuss the future protection of this water source through the development review process.

We are not opposed to the annexation or the development of Parcel # NS-424 as this is the landowners right, but again as neighbors we wanted to state a few thoughts regarding the secondary access road and the private spring. Thank you for your time and consideration in this review, please contact us if you have any questions regarding the Robinson Sub. Amended.

Regards.

Subject: Annexation Petition Parcel NS-424-A 37.56 Acres

To Coalville City Council,

As a landowner that borders parcel NS-424-A and a secondary home owner near the proposed annexation, I protest the annexation until the following are resolved:

1. Safe access to the proposed annexation. The proposed annexed property is landlocked and does not have access for the proposed homes to the property. In the past, Coalville City Councils have allowed subdivisions to be built with a single access for several homes. Some of these subdivisions had plotted roads but the roads were never constructed. Residents that live in these subdivisions with a single ingress and egress street are put at risk. This annexation should not take place until two accesses to the property are constructed. Having a secondary access on a plot plan does not keep residents safe unless it is constructed.
2. Water – Do the property owners of this proposed annexation have sufficient water shares for the proposed homes? If no, we need to stop allowing developers to pay a fee in lieu of providing water rights.

Thanks you for addressing my basic concerns prior to granting annexation of NS-424-A.

I do not support this
annexation proposal.

(Parcel N5-424-A)

I don't feel we have the
water to support the develop-
ment, I don't want homes
close to my range. I
like rural living.

Thank you,
