

## **Environment System Committee**

### **Environmental Dashboard survey**

[Link to survey](#)

The goals of this survey are to:

- Collect information on if and how the Environmental Dashboard is being used;
- Collect feedback on how the Environmental Dashboard could be improved to better serve community and decision makers;
- Use survey responses to develop a project plan for making changes/improvements to the Environmental Dashboard.

Survey audience:

- Stakeholders Council and their organizations/networks
- Board members and their jurisdictional communication networks
- Youth Council and their organizations/networks
- CWC email list and social media
- University networks / elementary/middle/high schools?

#### **Questions for EBAC:**

- **Do you have any suggestions for the design of the survey (e.g. formatting, length, wording, etc.)?**
- **Should any survey questions be added, removed or modified to capture additional information?**
- **Who would you like to see respond to this survey (e.g. organizations, interest groups, demographics) and what outreach methods should be used to reach them?**
