

Landfill Summary
10/23/2024

Area

537.43 Acres total land
396 Acres approximate permitted area for disposal
231 Acres currently developed (Modules 1 – 7)
38 Acres (Module 8)

Total Volume

87,500,000 Cubic Yards Total approximate permitted
2,555,520 Cubic Yards Total approximate final cover

Remaining Volume (07/02/2024)

60,483,978 Cubic Yards airspace
2,201,053 Cubic Yards final cover remaining

Volume Used (07/02/2024)

24,814,970 Cubic Yards (29%)

Current GASB-18 Closure/Post-Closure Cost Estimates

\$16,630,093 Closure Cost
\$23,943,745 Post-Closure Cost

Estimated Life Remaining

987,661 Cubic Yards placed per year (3 Year average – using .6 tons/yard compaction factor)
58 years remaining (2082 estimated final closure)

Area Total Volume Calculations

4,435'	Top
4,220'	Base Elevation
4,230'	Ground Elevation Base
