

SECTION 1: AMENDMENT “4.08.060 Separate Service Lines Required” of the Payson Municode Code is hereby *amended* as follows:

A M E N D M E N T

4.08.060 Separate Service Lines Required

Service lines must be arranged to supply each separate unit or premises with a separate meter placed near the street curb. Where water is supplied through one service to one or more units or premises, the City may either refuse to furnish water until separate services are provided per unit to include any individual business unit in a building. The only time one lateral may be used is for a residential multi-tenant building for an apartment, condominium, or stacked flat building~~or continue to supply water on the condition that one (1) person shall be responsible to pay for all water used through the service.~~

SECTION 2: AMENDMENT “4.16.040 Permit For Sewer Connection” of the Payson Municode Code is hereby *amended* as follows:

A M E N D M E N T

4.16.040 ~~Permit For Sewer Connection~~Separate Service Lines Required

Service lines must be arranged to supply each separate unit or premises with a separate sewer lateral from the sewer main to the individual unit. Where sewer is supplied through one service to one or more units or premises, the City may refuse to furnish sewer until separate services are provided per unit to include any individual business unit in a building. The only time one lateral may be used is for a residential multi-tenant building for an apartment, condominium, or stacked flat building.~~Applications for a permit for a sewer connection must be made in writing to the city Development Services Department by the owner of the premises or his authorized agent, and must be accompanied by a plan showing the cause of the connection, its size and location. The application and plan, together with all impact, connection and special assessment fees shall be deposited with the city. A permit will be granted only after the applicant has complied with all applicable codes and building standards.~~
