Policy #3077 Employee Devices Standards of Conduct Revision 1st Reading

- **One Time Salary Adjustment**

- Dallas Sylvester presented the options for a one-time salary adjustment for employees in the district.

- The proposals included a breakdown of different one-time salary adjustments scenarios and what they would cost the district.
 - Dallas mentioned that paying employees in the form of a bonus instead of a one-time salary adjustment would allow the district to pay more to employees. This is because a bonus is not subject to retirement through URS.
 - Paying the amount as a bonus rather than a one-time salary adjustment will save the district about \$12,000, which can be passed on to the employees. This allows the bonuses to be \$5 more per weekly contract hour and still stay within the budget that was set for the bonuses.
 - The board elected to pay employees this year as a bonus rather than a one-time salary adjustment.
