RE: Board Appointment

At the December 3, 2024 Council meeting, I will request ratification of the following:

Light & Power Advisory Board – New appointment

Brian Juber

Thank you.

Brian Juber was born in Brigham City, Utah in 1969.

From a young age, Brian has had a deep passion for the outdoors, engaging in activities such as hunting, fishing, camping, and hiking. This love for nature has shaped his lifestyle and interests throughout his life.

After graduating high school, Brian attended Utah State University while working for Whitaker Construction. Seeking a career with less travel, he transitioned to James Plumbing, where he earned his Journeyman's Plumber license. His career took a significant turn when he accepted a position with Intermountain Healthcare (IHC) as a plumber. Brian found great satisfaction in solving construction challenges and repairing broken systems, which fueled his passion for the trade.

During his time at IHC, Brian has had numerous opportunities to develop his leadership skills, ultimately becoming the Facility Plant Manager for Logan Regional Hospital, Bear River Valley Hospital, and Intermountain Healthcare North Clinics. He also serves as the President of the Logan Medical Condos Association and is a past board member of the Utah Society of Healthcare Engineers.

Brian is a firm believer in perseverance and integrity, striving to be a reliable individual who honors his commitments.

He has been married to Lesly Juber for 31 years, and together they have two children and two grandchildren. Their daughter, Abbi, and her husband, Jake, recently purchased a home in Hyrum, while their son, Cole, is attending Utah Tech and playing lacrosse.

Brian's journey reflects a commitment to personal and professional growth, a love for teamwork, and a dedication to his family and community.
