TITLE: License suspension files

DATES: 1920-

ARRANGEMENT: Alphabetical by licensee's surname

ANNUAL ACCUMULATION: 1.00 cubic foot.

DESCRIPTION:

These records are created by wildlife enforcement officers to revoke the hunting or fishing license of an individual who has violated the rules and regulations of the wildlife code. These records provide justification for suspending licenses and background information for subsequent violation investigations. Records may include notice of the license suspension, the hearing officer's decision and order report, a notice of right to appeal decision, and a certificate of service indicating that the individual received the citation via certified mail.

RETENTION:

Retain 65 years.

DISPOSITION:

Destroy.

FORMAT MANAGEMENT:

The retention and disposition information on this schedule applies to the record copy which can be in any format. The record copy can include different formats. Format management information provided here is for the purpose of managing records that are being either stored by or transferred to Utah State Archives.

Paper: Retain in Office until scanned, checked for quality, input into database and then destroy.

Computer data files: Retain in Office for 65 years and then delete provided revocation period has expired.

APPRAISAL:

Administrative

This retention is based upon the administrative needs of the agency, as they enforce Utah Code 23-19-9 (2011). Due to the fact that offenders are often repeat offenders, it is valuable to have an offender's record for the duration of his life.

Previous retentions were 30 years and 5 years after revocation

period expires.

RETENTION JUSTIFICATION:

It is helpful for the agency to have a criminal violation history to reference when new offenses occur, which is a common trend. Those who poach as young adults tend to poach as old adults, too, so it is valuable to have an offender's record for the duration of his life.
