The USBE may issue a written notice of default providing a ten (10) day period during which Agency will have an opportunity to cure. Time allowed for cure will not diminish or

eliminate Agency's liability for damages. If the default remains after Agency has been provided the opportunity to cure, the USBE may do one or more of the following: (i) exercise any remedy provided by law or equity; (ii) terminate this Agreement; (iii) impose liquidated damages, if liquidated damages are listed in this Agreement; or (iv) demand a full refund of any payment that the USBE has made to Agency under this Agreement for Procurement Item(s) that do not conform to this Agreement.

19. **FORCE MAJEURE:** Neither Party to this Agreement will be held responsible for delay or default caused by fire, riot, act of God, and/or war which is beyond that Party's reasonable control. The USBE, after consultation with Agency, may appoint an expert or panel of experts to assist in the resolution of a dispute. If the USBE appoints such an expert or panel, USBE and Agency agree to cooperate in good faith in providing information and documents to the expert or panel in an effort to resolve the dispute.
25. **ORDER OF PRECEDENCE:** In the event of any conflict in the terms and conditions in this Agreement, the order of precedence shall be: (i) this Attachment A; (ii) Attachment B; (iii) Agreement Signature Page(s); (iv) the State of Utah's additional terms and conditions, if any; (v) any other attachment listed on the Agreement Signature Page(s); and (vi) Agency's terms and conditions that are attached to this Agreement, if any. Any provision attempting to limit the liability of Agency or limit the rights of the USBE or the State of Utah must be in writing and attached to this Agreement or it is rendered null and void.
26. **SURVIVAL OF TERMS:** Any terms that by their nature would survive the expiration of, completion, or termination of this Agreement shall survive.

- 34.2. The Data Steward will classify the linked data based on security or privacy risks. This could include evaluating the method of release, on the likelihood of identifying individuals from the linked Data, if linking the Data will violate any laws or regulations, or if the new data set meets the original request.

- 34.3. Based on the results of the risk assessment, USBE may refuse to provide Agency with some or all of the requested Data in its sole discretion in order to mitigate any risks identified.
- 34.4. Should USBE consent to the Data being linked, the Data Steward shall apply additional constraints as necessary to the usage of the new data set.

 - 35.9. Agency shall maintain data only until such time that the data is no longer needed (Term Expiration) or upon early termination of this Agreement (with Cause), whichever occurs first. At that point, the data will be destroyed within 30 days by the party holding the data, except for disclosed information possessed by any court. Agency shall certify to USBE in writing that the data has been destroyed.
- 36. **INCIDENTS:**
 - 36.1. If Agency becomes aware of an Incident involving Data by either Agency or any of Agency's Subcontractors, Agency shall notify USBE within three (3) calendar days and cooperate with USBE regarding recovery, remediation, and the necessity to involve law enforcement, if any.
 - 36.2. Agency shall produce a written remediation plan that includes information about the cause and extent of the Incident and the actions Agency will take to remediate the Incident and to reduce the risk of incurring a similar type of Incident in the future. Agency shall present its analysis and remediation plan to USBE within ten (10) calendar days of notifying USBE of an Incident. USBE reserves the right to adjust this plan, in its sole discretion. If Agency cannot produce its analysis and plan within the allotted time, USBE, in its sole discretion, may perform such analysis and produce a remediation plan, and Agency shall reimburse USBE for the reasonable costs thereof.
 - 36.3. In the event of an Incident, Agency shall provide USBE or its designated representatives with access seven (7) days a week, twenty-four (24) hours a day, for the purpose of evaluating, mitigating, or resolving the Incident.
 - 36.4. Unless Agency can establish that Agency or any of its Subcontractors is not the cause or source of the Incident, Agency shall be responsible for the cost of notifying each person whose personal information may have been compromised by the Incident.

ATTACHMENT B: SCOPE OF DATA SHARING

BACKGROUND AND LEGAL AUTHORITY:

Utah Code 53F-2-526. In 2024 the Utah Legislature passed [S.B. 173 Market Informed Compensation for Teachers](#), which established 53F-2-526 and the Excellence in Education and Leadership Supplement program. The law outlines that participating LEAs and the Center for the School of the Future at Utah State University will collaboratively identify eligible teachers for Utah's Teacher Merit Award Program. The law directs Agency and USBE to "collaborate regarding data sharing and other relevant interactions to facilitate the successful administration of the program."

Family Education Rights and Privacy Act (FERPA); 20 U.S. Code § 1232g and 34 CFR § 99.31. The "audit and evaluation exception" of FERPA allows for the disclosure of student personally identifiable information for the purpose of audit and evaluation of any federally or State supported education program or in connection with the enforcement of the Federal legal requirements which relate to any such program.

PURPOSE:

The purpose of this data sharing arrangement is to facilitate the Center for the School of the Future at Utah State University ("CSF") in executing its Utah Code 53F-2-526 responsibilities.

CSF will use data from USBE to:

- Establish a teacher merit award identification system (TMAIS).
- Collaborate with LEAs to identify teacher merit awardees for the Excellence in Education and Leadership Supplement.
- CSF in coordination with a qualified 3rd party data modeling contractor, and in pursuit of 52F-2-526 requirements will utilize statewide student achievement data to create a Value-Added Model (VAM) to identify teachers producing high levels of K12 student value-added learning.
- CSF in coordination with a qualified 3rd party data modeling contractor, and in pursuit of 52F-2-526 requirements will use a student-teacher linkage system (roster verification) as part of the teacher merit award identification system (TMAIS). Roster verification's purpose is to ascribe student learning to their respective teacher in a valid way. Teachers will enter a website viewing the students' names that they teach, the proportion of the total time they teach an academic subject, and they will also offer information about their students' attendance.

SUPPORTING RATIONALE:

To develop a value-added growth model, 53F-2-526 mandates collection of statewide student achievement data. Development of value-added growth models requires statewide student achievement data, and for two purposes. *First*, value-added growth models are custom fit to the needs of a state. To determine which model best serves Utah's purposes, up to four candidate models will be developed. Each model requires use of all student achievement data present in Utah. Failure to do so results in candidate value added growth models which then require selection of a

model from four weak options. *Second*, the teacher merit award system will use a process called “data validation.” Data validation provides normative data utilizing data from all LEAs (i.e., those participating in and those not participating in Excellence in Education and Leadership Supplement program) to ascertain if an LEA’s data submissions are outliers among Utah’s larger universe of LEAs. If so, these data can assist CSF in engaging LEAs in their processes that produced outlier data.

To achieve the development of the robust value-added growth model explained above, 52F-2-526 directs that CSF create the methods to determine teachers nominated statewide and directs CSF (see 52F-2-526(7)(b) and 52F-2-526(16)(b)(i) to report the statewide metrics used for nominating teachers. In closing, the statewide metrics used for nominating teachers, of necessity, arise from development of a statewide value-added growth model which require statewide achievement data versus just data from participating LEAs.
