TRI-COUNTY HEALTH-DARREN BROWN

Darren Brown stated he hasn't been to Myton City for a while, he just wanted to let the council know if there is anything they might need help with from them with anything they are available to help. He stated they have been broken into two divisions, one for environmental and one for health. He stated they have done some mobile vaccination clinics around the area but not in Myton, if that is something they would like Tri-County to do just let them know. Mayor Cooper stated that might be something to think about. Darren stated that it's a little late in the season this year, but they could set it up for next year for employees and the public. He explained which mobile clinics they use and what environmental health regulates.

WATER CONSERVATION PLAN

Alan Allred stated that the Water Conservation Plan was one of the requirements from the Division of Drinking Water for the water grants Myton City has received. Sunrise Engineering drafted the plan, and the council needs to adopt it as the city's conversation plan.

CEMETARY ORDINANCES

Carrie Boren stated that the cemetery ordinances need updated and after talking with Hullinger Mortuary if we are going to require the use of vaults it needs to be in the ordinances and there are some sections that needs updating. There was a discussion about what needs to be changed and about the purpose of having a vault and if we need to require them. Mayor Cooper stated to have Amy Hugie review it and make the changes that need to be changed and bring it back to council. Alan Allred stated they also needed to decide if the cremations need vaults. They asked Alan what his opinion was on the maintenance of the graves if they didn't require vaults. Alan Allred replied they may have to go fill in the grave the following year, but it wouldn't necessarily require more maintenance.
