- Decreases child abuse & neglect
- Improves school readiness, performance, and attendance
- Enhances self-regulation skills
- Promotes better child health & development
- Increases economic self-sufficiency, with \$6 return for every \$1 spent

Client Stories

Sunn's Journey

- Enrolled at 16 weeks pregnant with twins, delivered early due to preeclampsia
- Struggled with medical bills and homelessness
- Alina helped enroll the family in Medicaid and taught bill management
- I felt lost and was trying to bond with my babies while figuring out how to improve for my family. I wanted to be heard, and Alina listened. She was an emotional mentor, and her support helped me tremendously”

IMMUNIZATIONS

Serves:

- All Salt Lake County residents

Offers:

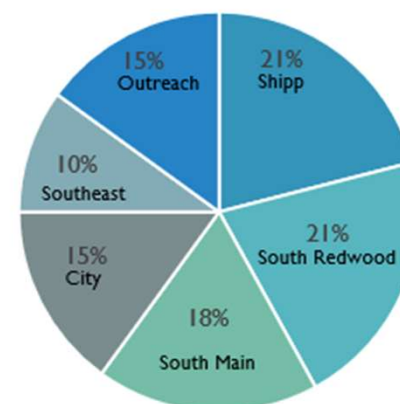

- Childhood, adult, and travel vaccinations
- Participates in Vaccine for Children program to offset vaccine cost for those who are uninsured or on Medicaid
- Special projects vaccines- Hepatitis A or B, flu, pneumonia, or Tdap (diphtheria/pertussis) free to vulnerable populations

IMMUNIZATIONS

- Outreach Clinics
 - Partnering with community organizations in high-risk areas
- International Travel
 - Tailored education and vaccinations to reduce travel risks
- Outbreak Response
 - Collaboration with other SLCoHD Divisions
 - Vaccination is a key public health intervention used to control vaccine preventable disease outbreaks

Services Provided

■ Shipp ■ South Redwood ■ South Main ■ City ■ Southeast ■ Outreach

Client Stories

“Great vaccine numbers! Can’t wait to see your team again.”— Geraldine E. King Resource Center

“Thanks for providing vaccines at Ridgeview Elementary. Our compliance is now 97%, up from 90%! Your team is efficient, kind, and friendly.”— Jordan Education Foundation
