Regular Meeting

### 5. Sanpete County Bike Trail Project & Public Involvement Period- *Jones & DeMille*

Jones and DeMille presented the proposed Sanpete County Bike Trail to the council, which is being funded through a Federal Government grant. The objective is to complete the study, enabling the cities to apply for the trail project in the future. Following presentations to all city councils, the next phase will involve gathering public feedback. During the presentation, Jones and DeMille provided a map outlining the projected bike path.

A poster will be displayed to inform the public about the upcoming open houses. Additionally, a map will be available in the city buildings along with comment cards for feedback. Members of the public can also visit the project website to submit their comments online.

### 6. Water Connection Discussion for lot on 900 E – *Mark Puett*

Mr. Puett decided not to attend the council meeting.

### 7. Planning and Zoning Recommendation Site Plan Review on variance on footage for property approx. 840 E 200 S- *Greg Poulsen*

Greg Poulsen provided the council with a copy of the property he intends to develop, including a proposal for potential lot divisions. This plan has already been approved by the Planning and Zoning Commission. However, Planning and Zoning requested that Greg obtain council approval for the property's frontage and cap the irrigation lines that run through the area. The development will be like Mtn Ville Farms, with culinary water being used for outdoor irrigation. With the new map provided Greg meets the 90-foot average need for planning & zoning and the council does not need to grant a variance.

**Motion:** **Action:** To Approve the new map that has one lot that is 88 ft wide but meets the 90-foot average **moved by** Cade A. Beck **Seconded by** Paul C. Madsen

**Yes:** D. Lynn Beesley, Paul C. Madsen, Russell G. Keisel, Cade A. Beck.

**Vote:** Motion carried by roll call vote Yes = 4

### 8. Sewer Line Extension – *Rich & Molly Brotherson*

Rich and Molly are planning to build at the intersection of 400 N and 500 W and have inquired about cost participation for extending sewer service to the property. Their proposed plan includes installing the sewer line at the south end of the property. The mayor reported that he and Colter Allen, the Public Works Director, conducted a grade assessment and found a significant elevation drop, suggesting that a septic system might be a more viable option. If a sewer connection were pursued, a pump would be required. Dave reviewed the potential costs for the city and confirmed
