GLH Industrial, LLC

Re: Proposal for Engineer's Cost Certification on potential pay-app reimbursement on public infrastructure installed as part of the GLH Industrial Park Project.

Professional Services

Conduct bi-weekly (every two weeks) site visits to inspect and log status of public infrastructure construction. Logs will be compiled based on site visits and used in the Engineer's Cost Certification (in addition to city inspection reports). These logs will be used as resource materials to review and approve requested pay-apps.

After reviewing the reimbursement request, a written letter will be provided to the District, certifying if the reimbursement request is reasonable.

With site visit inspections, reports and pay-app reviews, we anticipate 16 hours of work conducted per month at a bill rate of \$195/hour. This would result in an invoice of approximately \$3,120 per month.

If you have any questions or comments please call.

Sincerely,

CIR Civil Engineering, L.L.C.
