

SANPETE COUNTY COMMISSION MEETING

April 15, 2025, 2:00 PM

Sanpete County Courthouse, 160 North Main, Suite 101, Manti, Utah

Present are: Commission Chair Scott Bartholomew, Commissioners Mike Bennett and Jim Cheney. County Clerk Linda Christiansen.

Meeting is called to order by Commission Chair Scott Bartholomew.

OPENING PRAYER OR REMARKS AND PLEDGE OF ALLEGIANCE

Prayer is offered by Commissioner Jim Cheney. Pledge of allegiance is recited by all.

STACEY LYON: APPROVAL OF CLAIMS; APPROVAL OF FINANCES; APPROVAL TO OPEN AND ADVERTISE NEW CUSTODIAN POSITION; APPROVAL AND SIGNATURE ON IDC GRANT APPLICATION FOR FY 2025-2026; DISCUSSION AND POTENTIAL APPROVAL OF PROPOSED PARTICIPATION COMMITMENT PLAN IN REGARDS TO THE COOPERATIVE WILDLAND SYSTEM AGREEMENT.

County Auditor Stacey Lyon presents the agenda items. No questions or concerns are voiced in regards to the claims. Motion is made by Commissioner Bennett to approve payment of claims #361342 through #361452. The motion is seconded by Commissioner Cheney. Vote by voice is taken: Commissioner Cheney votes yes, Commissioner Bartholomew votes yes and Commissioner Bennett votes yes. The vote is unanimous and the motion passes. No questions or concerns are voiced in regards to the finances. Motion to approve the finances is made by Commissioner Bennett. The motion is seconded by Commissioner Cheney, and the motion passes. Ms. Lyon explains there was a conversation in the last Department Head meeting in regards to opening a position for a new custodian. Ms. Lyon has been working with Bryan Bies and Mike Tillack on creating an adequate job description. Ms. Lyon has already advertised the position but it needs to be approved on the record. Commissioner Bennett verifies that the custodian duties will be for three buildings; the County Building, the Jail/Sheriff's Building and the new Exhibition Building at the Fairpark. Ms. Lyon voiced concerns that there may be too many additional responsibilities suggested. Mr. Bies and Mr. Tillack will follow the job descriptions and duties once an individual is hired; and if it seems more can be added they will reassign duties as needed. Ms. Lyon has received 24 applications in less than a week; the job will close on April 24th. The starting wage will be \$17.93 an hour, with benefits. Motion is made by Commissioner Bennett to approve to open and advertise the new custodian position for the Administrative Building, Jail and Exhibit Building at the Fairpark. The motion is seconded by Commissioner Cheney, and the motion passes. Ms. Lyon explains Johanna Williams could not be in attendance today but she is the Managing Attorney that helps with this grant application every year. Ms. Lyon states they will apply again this year and it will be similar to prior years; the amount is close to \$500,000.00 but not all of that is grant money. Approximately two-thirds is grant money and the remaining third is County money. Motion is made by Commissioner Bennett to approve and sign on the IDC Grant application for FY 2025-2026. The motion is seconded by Commissioner Cheney, and the motion passes. Ms. Lyon anticipates to receive the awarding of the grant; once that happens she will return with Johanna to explain the grant and the amount rewarded. Ms. Lyon invited two of the Fire District Board members to attend today's meeting in regards to the next agenda item. Ms. Lyon explains the Participation Commitment last year was \$117,000.00; for 2025 it essentially doubled. Tom

Peterson, former Fire Warden came up with a great idea that the Board supports and hopes to get the Commissioners support as well. Three areas that qualify for the participation commitment plan are; mitigation, preparedness and education. One way they can utilize the money in preparedness would be to team up with the Fire District to purchase Wildland Brush Trucks. Mr. Peterson suggested the County use some of the money to pay for half of a Wildland Brush Truck up to \$80,000.00 and the Fire District would pay the other half. They would like to continue supporting the Lion's Club as they have in the past for education purposes. Zackary Jensen, Chairman of the Fire District explains the Board is in support of this proposal; the Fire District wants to help the communities any way that they can and brush trucks are heavily utilized. Mr. Jensen states they want to involve Indianola in this proposal as well, even though Indianola is not part of the Fire District because this is a County assisted grant. Commissioner Bartholomew explains the reason Indianola is not included is because it is a County Fire Department. Nick Lyon, Board member states Indianola does not meet the by-law requirements in order to be a part of the fire district; a fire department has to be part of an incorporation and Indianola is not. Thirteen communities and ten fire stations are part of the district. Ms. Lyon explains they have discussed other ideas in regards to the participation commitment plan but ultimately they would like to see the money stay in Sanpete rather than go back to the State. If the Commissioners are in agreement with the Fire District Board, Kevin Daniels has agreed to draft an Interlocal Agreement to do as such. Mr. Jensen states the only request the Board has if they allow Indianola to join in on this project is that there is a five year agreement in regards to the money distribution. All Commissioners agree this is a great way to keep the money in Sanpete. Ms. Lyon states the Wood Hollow fire cost Sanpete County 14 million dollars in 2011; now a catastrophic fire would easily cost 30 million. Zackary Jensen states the first truck would go to Indianola if the agreement between the County and Fire District goes through. Mr. Jensen states Indianola has always had a good Wildland program but they don't have the means to get the proper equipment. Commissioner Bartholomew explains each fire station is assigned to specific areas for wildland fire fighting. Motion is made by Commissioner Bennett to approve of the signing of the proposed participation commitment plan in regards to the Cooperative Wildland System Agreement; which would be for one half of the cost for a new Wildland Brush Truck, up to \$80,000.00 a year, over a five year period which includes Indianola in the plan and Indianola will receive the first truck. The motion is seconded by Commissioner Cheney, and the motion passes.

AMY WILLDEN: DISCUSSION AND POTENTIAL APPROVAL OF PROPERTY TAX REFUNDS.

County Treasurer Amy Willden presents the agenda item. Ms. Willden explains she is presenting the amounts due for overpayment of taxes paid from last year. Two of the amounts are for personal property; quite a few of the overpayments were due to residents paying their taxes twice. Motion is made by Commissioner Bennett to approve the property tax refunds in the amount of \$117,637.23. The motion is seconded by Commissioner Cheney, and the motion passes.

SCOTT OLSEN: DISCUSSION AND POTENTIAL APPROVAL OF CREDIT CARD LIMIT INCREASE.

Building Official Scott Olsen presents the agenda item. Mr. Olsen explains his current credit card limit is at \$1,000.00 and he has three employees that are working on certifications with ICC. Every ICC test cost is \$305.00; this past week they have taken three tests which maxes out his card quickly. This may delay the progress of testing if they have to wait for the next month to allow for more charges. Mr. Olsen could use the credit cards held by other offices in the meantime but he

would like to request an increase in order to prevent any further delays. Mr. Olsen is proposing an increase to \$2,000.00. Commissioner Cheney expresses concern that the limit may need to be higher than that if it is used for other purposes; maybe increase it temporarily. Mr. Olsen believes the amount of \$2,000.00 should be adequate to address his needs. Motion is made by Commissioner Bennett to approve the credit card increase for Scott Olsen in the Building Department from \$1,000.00 to \$2,000.00. The motion is seconded by Commissioner Cheney, and the motion passes.

APPROVAL OF RIGHT-OF-WAY EXCAVATION LICENSE FOR ENBRIDGE GAS TO MISSILE UNDER ESTLY CHRISTENSEN RD TO INSTALL A NEW GAS SERVICE AT 0215 E. 20250 NORTH, MORONI.

Tom Seely addresses the agenda item. Mr. Seely states Dominion Energy is going to missile under the road and he does not have a problem with what they are doing. They also have a bond on file with the County and they are always good to work with. Motion is made by Commissioner Bennett to approve the right-of-way excavation license for Enbridge Gas to missile under Estly Christensen Rd. to install a new gas service at 0215 E 20250 North, Moroni. The motion is seconded by Commissioner Cheney, and the motion passes. The application is signed by Commissioner Bartholomew and Linda Christiansen, County Clerk.

APPROVAL OF RIGHT-OF-WAY EXCAVATION LICENSE FOR ENBRIDGE GAS TO MISSILE UNDER THE ROAD (300 S OR SEELY LANE) TO INSTALL A NEW GAS SERVICE AT 11595 E. 24000 NORTH, FAIRVIEW.

Tom Seely addresses the agenda item. Mr. Seely states the same thing from the previous agenda item; the company is going to missile under the road and they have a bond on file with the County. Mr. Seely has approved the application request and there shouldn't be any problems. Motion is made by Commissioner Bennett to approve the right-of-way excavation license for Enbridge Gas to missile under the road (300 S or Seely Lane) to install a new gas service at 11595 E. 24000 North, Fairview. The motion is seconded by Commissioner Cheney, and the motion passes. The application is signed by Commissioner Bartholomew and Linda Christiansen, County Clerk.

KEVIN CHRISTENSEN: DISCUSSION AND POTENTIAL APPROVAL TO PURCHASE STAGE AND SECURITY CAMERAS FOR FAIRPARK EVENT CENTER.

Kevin Christensen presents the agenda item. Mr. Christensen explains he has a cost breakdown for a stage at the Event Center. The stage would be 16' x 8' with stairs and railings. It would also include skirting and a cart. The approximate price (not including freight) is \$7,318.31. Motion is made by Commissioner Bennett to approve the purchase of a stage for the new exhibit building ; 16' x 8' up to the amount of \$7,500.00. The motion is seconded by Commissioner Cheney, and the motion passes. Mr. Christensen then addresses a cost for security cameras in the new building. The total cost for the security cameras is \$2,076.52; purchased from Amazon. Motion is made by Commissioner Bennett to approve the purchase of security cameras for the Fairpark Event Center in the amount of \$2,076.52. The motion is seconded by Commissioner Cheney, and the motion passes.

SHERIFF JARED BUCHANAN: APPROVAL TO PAY PARISH CONSTRUCTION FOR PARTIAL PAYMENT ON SCORE REMODEL.

Sheriff Jared Buchanan presents the agenda item. Sheriff Buchanan explains the invoice he is

presenting is for the remodel project in the Courthouse. The invoice is for partial payment in the amount of \$20,450.00 , out of budget # 10-4960-452. Sheriff Buchanan reviews the details of the invoice. Motion is made by Commissioner Bennett to approve the payment to Parish Construction, invoice #2042, for partial payment on SCORE Center remodel in County Building out of budget 10-4960-452. The motion is seconded by Commissioner Cheney, and the motion passes.

RANDY STRATE REPRESENTING SPRING CITY: DISCUSSION AND POTENTIAL APPROVAL TO INITIATE THE PROCESS FOR COUNTY ZONING TO CONSIDER ADDING AN RA-1 ZONE AROUND SPRING CITY.

Randy Strate presents the agenda item. Mr. Strate explains Spring City has been discussing growth challenges and how to address the issues. Mr. Strate refers to the intent of buffer zones; to encourage growth closer to the cities that provide infrastructure such as water, sewer and roads. Spring City currently has an RA-2 zone, which requires 1 acre to build. The city has discussed how to give incentive to residents to build in the buffer zone and provide the services more efficiently. The city is currently working on expanding water and sewer capacity. Spring City does not allow connections outside of city limits at this time but may consider it once the expansion of the services is complete. Mr. Strate explains Spring City would like to implement an RA-1 zone that extends one thousand feet around the city; which is approximately two city blocks on all four sides. Mr. Strate has discussed this proposal with Steven Jenson, Zoning Administrator and he explained the first step is to present it to the Commissioners. Commissioner Bennett questions why they don't just annex instead. Mr. Strate explains there will be a stipulation included in the ordinance that if a resident were to build in the RA-1 Zone they would have to annex if they want to hook on to city services. The RA-1 Zone allows for half acre lots; the minimum lot size in Spring City limits is 1.06 acres. Commissioner Bartholomew questions why the city would want to implement a zone that is less than the city requires. Mr. Strate explains the RA-2 Zone that is currently around the city is also less than what they require. Mr. Strate states the city has discussed reducing the acreage requirements in city limits as well. Commissioner Bartholomew addresses Steven Jenson on the presentation of this agenda item and whether it should have come before them first. Mr. Jenson verifies the ordinance specifies it needs to be presented to the Commissioners in order to initiate the process. Mr. Jenson explains it is a way to make the Commissioners aware of the request before it is presented to the Planning Commission. Commissioner Bartholomew did not know this agenda item was coming before them until he saw the agenda and he has received multiple phone calls from residents that have concern in regards to the proposal. Commissioner Bartholomew would like to review the packet of information and discuss it with the other Commissioners before they make a decision. Commissioner Bennett has also received calls from residents and a council member. Mr. Strate understands there will be strong feelings on both sides of land issues. Mr. Strate states the challenge the city is trying to address is the growth that is coming and at this point they don't have a plan. He believes it is necessary to put good growth plans in place for the future. Commissioner Bartholomew understands the concerns he has expressed but he has not had a chance to review the proposal. He would like to see the matter tabled in order to give them a chance to discuss it. Mr. Strate indicates they are not in an emergency time frame to get this done; they are just trying to plan. Mr. Strate explains the information he submitted with his agenda request and that he changed some of the language in reference to building in the buffer zone. For instance; in order to get water and sewer connections one must agree to annex, which is not currently stated in their ordinance. Commissioner Bennett clarifies that the acreage in city limits

is 1.06 acres and they are proposing to implement a buffer zone that requires only a half acre. Mr. Strate states again that they are proposing to reduce the acreage in city limits to a half acre as well. Motion is made by Commissioner Bennett to table this matter (for a month) until the second Commission meeting in May. The motion is seconded by Commissioner Cheney, and the motion passes. Commissioner Bennett suggests looking at lowering the acreage inside the city limits first. Mr. Strate states they have discussed addressing lowering city lot acreage at the same time. Commissioner Bartholomew requests the County Clerk put this agenda item on the agenda in a month.

JANET BARLOW REPRESENTING INDIAN RIDGE WATER CONSERVANCY DISTRICT: DISCUSSION IN REGARDS TO CHANGE THE ROADS IN INDIAN RIDGE SUBDIVISION TO PRIVATE ROAD STATUS VERSUS PUBLIC.

Commissioner Cheney requests a map and Scott Olsen volunteers to grab one. Janet Barlow presents the agenda item. Ms. Barlow introduces Dave Atwood, Indian Ridge System Operator for the Water Conservancy District because she felt he needs to be involved in this conversation. Ms. Barlow explains that one of the problems they face in Indian Ridge is they have limited funds because they are a small subdivision. It is also expensive to build there because the property is located on the side of a mountain. They would like to put in a couple hydrants for the subdivision patrons. Scott Olsen returns with the map of County Roads from 2018. Mr. Olsen explains the black roads are the D roads; one portion of a D road goes into the subdivision. They explain to Ms. Barlow that a D road is County maintained. Dave Atwood states he talked to Rural Water and they suggested they get a locked gate at the bottom entrance of the subdivision because people are coming into the subdivision and stealing water, propane tanks and breaking into sheds. Mr. Atwood states the issue with installing a locked gate is that the POA won't install a locked gate because of the restriction of allowing access on a County road. Commissioner Bartholomew expresses concern in regards to locking a gate and preventing emergency services from being able to assist a resident. Sheriff Buchanan agrees that in a non-emergency situation, like a theft it wouldn't pose a problem if they had to wait for someone to open the gate. If there is an active domestic situation going on and a locked gate is preventing an officer from assisting, that is a huge concern. Ms. Barlow suggests the POA installs a gate that has a solar controlled lock that the Sheriff and Fire Department has access to the code. Sheriff Buchanan poses the question whether or not the road accesses any public land; Mr. Atwood states no, it is all private land. A few of the private land owners own property that is not part of the subdivision. Tom Seely expresses concern that if they limit access to subdivision lot owners they will take away a few private owners access. Mr. Seely is ok with them putting in a gate but anyone that owns property should have permission to go through the gate to access their property; including police, ambulance and fire. Commissioner Bartholomew explains the process that would need to take place in order to abandon a road. Ms. Barlow points out that Indian Ridge has always been a gated community but the gate got knocked down in an accident and the POA didn't put it back up. Commissioner Bartholomew states the County does not have an issue with a gate; it just can't be locked. Ms. Barlow states it used to be locked but it hasn't been locked for approximately eight years. No one can verify whether or not it was legally locked years ago. Commissioner Bartholomew suggests the County agrees to the POA installing a new gate without a lock and if that doesn't work they will have to go through the process to abandon the road. The commission discusses different types of gate possibilities with Ms. Barlow. Commissioner Cheney suggests installing a camera at the gate so

they know who is accessing the property and that may help in deterring thefts. Motion is made by Commissioner Bennett to approve Indian Ridge Water Conservancy to replace the pre-existing gate (non-locked) into their subdivision. The motion is seconded by Commissioner Cheney, and the motion passes.

DISCUSSION AND SIGNING OF APPROVED 1 LOT SMALL (KESKO) SUBDIVISION APPLICATION BY CHRISTIAN & AMIE OLSEN. THE PARCEL IS LOCATED NORTH OF EPHRAIM CITY AND IS LOCATED IN THE AGRICULTURE ZONE. THE SUBDIVISION WILL CONTAIN 1 LOT OF 6.275 ACRES, PARCEL # S-5211X2.

Zoning Administrator Steven Jenson presents the agenda item. Mr. Jenson states this application was presented to the Planning Commission and they approved the final plat. The Mylar was reviewed and recommended for approval by the Planning Commission and Recorder's office. The owner affidavit form was signed and notarized by the owners of the property. A letter from Central Utah Health Department is included indicating they have approved one septic system. Ephraim City Power has also submitted a letter indicating power is available along the road to connect to. Utah Division of Water Rights has approved one domestic use with one acre foot of flow; the well has been drilled on the property. County Road Supervisor has signed off on the access to the property from the County Road. The Police Fire and Ambulance waiver has been signed and notarized by the applicants. The taxes are paid and up to date. A copy of the current title search has been submitted with the application and there are no issues. Application fees have been paid and final approval was granted by the Planning Commission. No questions or concerns are voiced. Motion is made by Commissioner Bennett to approve signing of the plat for the 1 lot small (Kesko) subdivision application by Christian & Amie Olsen; the parcel is located north of Ephraim City and is located in the Agriculture Zone. The subdivision will contain 1 lot of 6.275 acres, parcel # S-5211x2. The motion is seconded by Commissioner Cheney, and the motion passes. The Mylar is signed by Commissioner Bartholomew and Linda Christiansen, County Clerk. Kevin Daniels will sign the Mylar tomorrow due to his absence in today's meeting.

Commissioner Bartholomew skips the next agenda item and will return at the end of the meeting.

DISCUSSION AND POTENTIAL APPROVAL OF PRIORITIZING THE CIB PROJECT LIST.

Prior to addressing the Commission duties agenda item, the Commissioners return to this item. Commissioner Bartholomew explains some of the projects listed on the CIB project list. The Spring City Fire Department expansion has already been approved by the CIB board so he is not sure why it is on the list. Commissioner Bartholomew states any planning projects with a master plan will automatically be approved, if it is less than \$50,000.00. They begin prioritizing the list of projects in numerical order from 1-23. Discussion ensues between the Commissioners on ranking the projects and sharing information in regards to some of the projects. Higher priority ranking will usually be given to critical infrastructure projects; such as water, sewer and roads. CIB won't consider irrigation projects. In order for a project to be considered it has to be on the list at the first of the year. There are instances where a project is not planned out but is a possible dream of the city but it is not a priority; they put it on the list anyway. Commissioner Bartholomew explains many projects listed as they decide on the priority numbering; the pros and cons, as well as, any information that he can share. Commissioner Bennett has an understanding of the well aquifer recharge project in Mayfield and he gives insight in regards to that project. Discussion

ensues between the Commissioners as they prioritize the CIB project list. The completed list will be sent to Cade Penney with R6. Motion is made by Commissioner Bennett to approve the prioritizing of the CIB project list for 2025. The motion is seconded by Commissioner Cheney, and the motion passes.

RATIFY ACCEPTANCE AND APPROVAL OF THE UDOT COOPERATIVE AGREEMENT IN REGARDS TO THE SUGAR FACTORY ROAD RECONSTRUCTION PHASE 1, EXECUTED ON SEPTEMBER 27, 2024.

Garrick Willden presents the agenda item. Mr. Willden explains between him and the County Clerk, they could not find the approval of said agreement on the record. Mr. Willden explains the agreement is for the Sugar Factory Road . They received funding from the Joint Highway Committee; which was 93% grant and .07% loan. This agreement changed it to 85% grant and 15% loan but also changed it from federal dollars to state. The change between federal and state dollars is a huge benefit because of federal requirements that make projects difficult. Mr. Willden presents the budget sheet to the Commission and reviews the breakdown. Mr. Willden requests a signature from Commissioner Bartholomew for the first pay request. Motion is made by Commissioner Bennett to ratify the acceptance of the approval of the UDOT Cooperative Agreement in regards to the Sugar Factory Road Reconstruction Phase 1, executed on September 27, 2024. The motion is seconded by Commissioner Cheney, and the motion passes. Mr. Willden explains the bridge is being built in relation to this project right now and SSD1 is paying for that. The road will be constructed in 2026. Commissioner Bartholomew questions this project being listed on the CIB project list when it has already been funded. Mr. Willden states the request is for the bridge and road; potentially if the project is way over budget, they could then approach the CIB to help with the overage. Mr. Willden explains how the project is being funded. The Sanpete County Special Service District is paying \$130,000.00 for the match and then UDOT will pay the remainder. If they stay within the budget; funding is one hundred percent. Mr. Willden does not believe the agreement needs to be signed again and he will work with Stacey on the pay request.

Not on the agenda- Commissioner Bartholomew addresses a lady in the audience. She states she is a concerned citizen that would like to discuss the Spring City Buffer Zone agenda item after the meeting. She lives in the County and would like to voice her perspective.

BRYAN BIES: DISCUSSION AND POTENTIAL APPROVAL OF PRIORITIZING REMODEL PROJECTS IN THE COURTHOUSE BUILDING; EAST COURT ROOM, RESTROOMS AND WEST JUDGE CHAMBERS.

Facilities Manager Bryan Bies presents the agenda item. Bryan Bies presents the Commissioners with multiple project proposal lists. The first item they address is the Assessor's office remodel that was rewarded to Todd Alder. Mr. Bies also addresses two bids for the Fire System in the Courthouse that was not listed on today's agenda. Delta Fire has serviced the sprinkler system in the past but it has not been serviced since 2014. The system should be tested every five years. Mr. Bies does not believe this has to be addressed right away but he wanted the Commissioners to be aware that it needs attention at some point. The projects that need to be prioritized are the restroom remodel, east court room and west judge chambers. Mr. Bies explains the justice court office staff wants to relocate to the west side of the building so the remodel of the judges chambers has evolved into a bigger project. Discussion ensues in regards to aspects of the west courtroom

remodel. Mr. Bies has not put the three projects to bid as of yet because he wanted to get feedback from the Commission first. He did receive one quote on the bathroom a couple of months ago for approximately \$177,000.00 for all six bathrooms. Mr. Bies suggests getting bids for each floor on the bathrooms and breaking that project into phases. Commissioner Bennett feels the East Court room remodel needs to happen first. Commissioner Cheney agrees. Commissioner Bennett addresses the issue of establishing a time line of completion when a contractor is awarded a bid. Mr. Bies has yet to receive a response from the contractor that is supposed to be working on the Assessor remodel and it was awarded two weeks ago. Commissioner Bennett will call the contractor. The contract has not been established on that job because the contractor won't respond. Mr. Bies would like to award the bid to someone else due to the lack of response. Commissioner Bartholomew suggests Mr. Bies seek counsel on whether or not the County is legally bound with a contract or not. Mr. Bies would like guidance on which project needs to happen first; other than the Assessor's because that one should already be under way. Commissioner Bartholomew states they will all go look at the projects after the meeting and give him some guidance. Mr. Bies explains he has spoken to Stacey Lyon, whom spoke with Kevin Christensen and it was indicated there may be some left over unrestricted ARPA funds. Commissioner Bartholomew states that is untrue; there has been multiple things they did not anticipate. If there are remaining funds, they will be used for sidewalks at the Fairpark. Mr. Bies believes his budget should have enough for all of the remodel projects.

They return to the CIB project List agenda item.

DISCUSSION AND POTENTIAL APPROVAL IN REGARDS TO COMMISSION DUTIES.

Commissioner Bennett addresses the agenda item. Commissioner Bennett and Commissioner Cheney were under the impression that Commissioner Bennett was over the Planning Commission and would like it clarified on the record. Commissioner Bartholomew voiced his concerns earlier and as long as they were heard he is ok with the switch. Motion is made by Commissioner Cheney to approve the duties of Planning Commission to Commissioner Bennett. The motion is seconded by Commissioner Bennett, and the motion passes.

APPROVAL OF MINUTES

Motion is made by Commissioner Bennett to approve the minutes from April 1st, 2025, with no corrections. The motion is seconded by Commissioner Cheney, and the motion passes.

CLOSED SESSION

No closed session was needed.

Motion is made by Commissioner Cheney to adjourn. The motion is seconded by Commissioner Bennett, and the motion passes.

The meeting is adjourned at 3:39 P.M.

ATTEST: 
Linda Christiansen
Sanpete County Clerk

APPROVED: 
Scott Bartholomew
Commission Chair
