Personal Information

- Life-long Utah resident
- University of Utah Law School
- Adjunct professor UofU Law School

Military Service

- Army - Judge Advocate General

Positions Held

- 7 years prosecutor
- Salt Lake County District Attorney 1975-1979
- Utah State Attorney General 1989-1993

Accomplishments While in Office

- Reorganized and streamlined both the DA's and the AG's offices.

Special Assignments

- Chaired Drug Task Force for the State Association of Prosecutors
- Consulted for the effective organization of prosecutors' offices nationwide through National DA's Association
- Chaired Western AG's Association
- Chaired National Anti-Trust committee for the AG's Association
- Member of the state's Air Quality Board
- In-house counsel for corporate health care corporations

Organizations

- Former board member – Ronald McDonald House
- Former executive director – Citizens for Dixie's Future

Interests (past & present):
music, horses, river running, bicycling, motorcycling, sailing

Vision Dixie - Manage Growth

I will spearhead and champion the Vision Dixie planning process – a plan created over a 16-month period by the people, of the people and for the people of Washington County to channel and direct growth to avoid the Las Vegas, Wasatch Front and Phoenix effect of uncontrolled sprawl.

Water Resources

I support water conservation strategies that will yield greater long-term results for our citizens. I oppose construction of the proposed unaffordable and unnecessary Lake Powell Pipeline. I support living within our means while growing with our available water supplies – which are considerable – and applying the Vision Dixie Principles.

Transportation

I will emphasize increased use of public transportation and clean-air vehicles to preserve our air quality as population grows. I will work to encourage coordinated planning to reach these goals. Our county's natural beauty and geology present challenges and opportunities.

Supporting our Obligations Red Cliffs Desert Reserve

Our leaders agreed to preserve the threatened Mojave tortoise population and other flora/fauna to allow our county's growth. Although challenging, this commitment must be honored in spite of growth pressures.

Law Enforcement

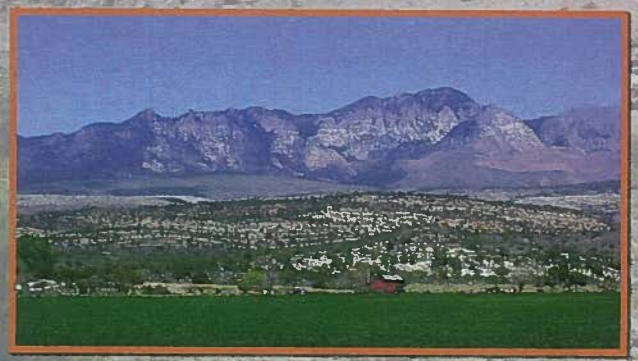
As the county grows, the coordination of law enforcement services with cities – about 50% of most budgets – will become more critical. Proper coordination and consolidation of some functions should be evaluated.

Public Lands

I believe that a process is needed to identify what, if any, public lands might be useful for this county – lands that would meaningfully contribute to the well-being of this county but not detract from the beauty of our area or restrict public lands access.

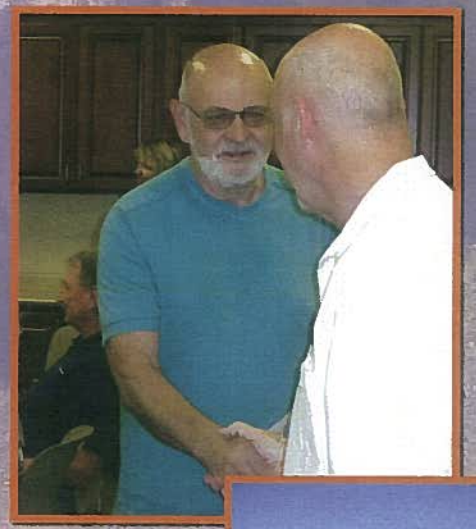
Public land recreation is a key component in our county, making our area a year round attraction. It should not be sacrificed without considering the consequences. Our well-being and economy depend on good stewardship of our resources.

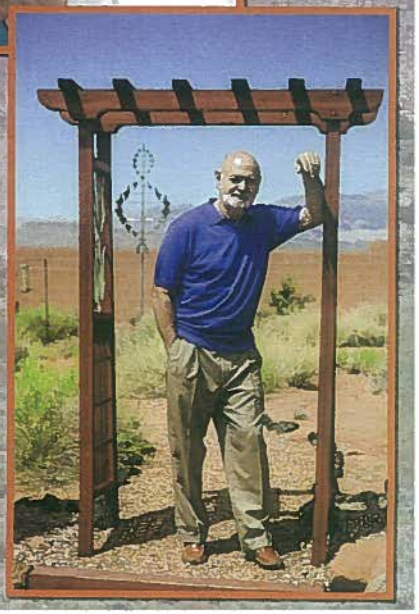
Proven Leadership for Dixie's Future!

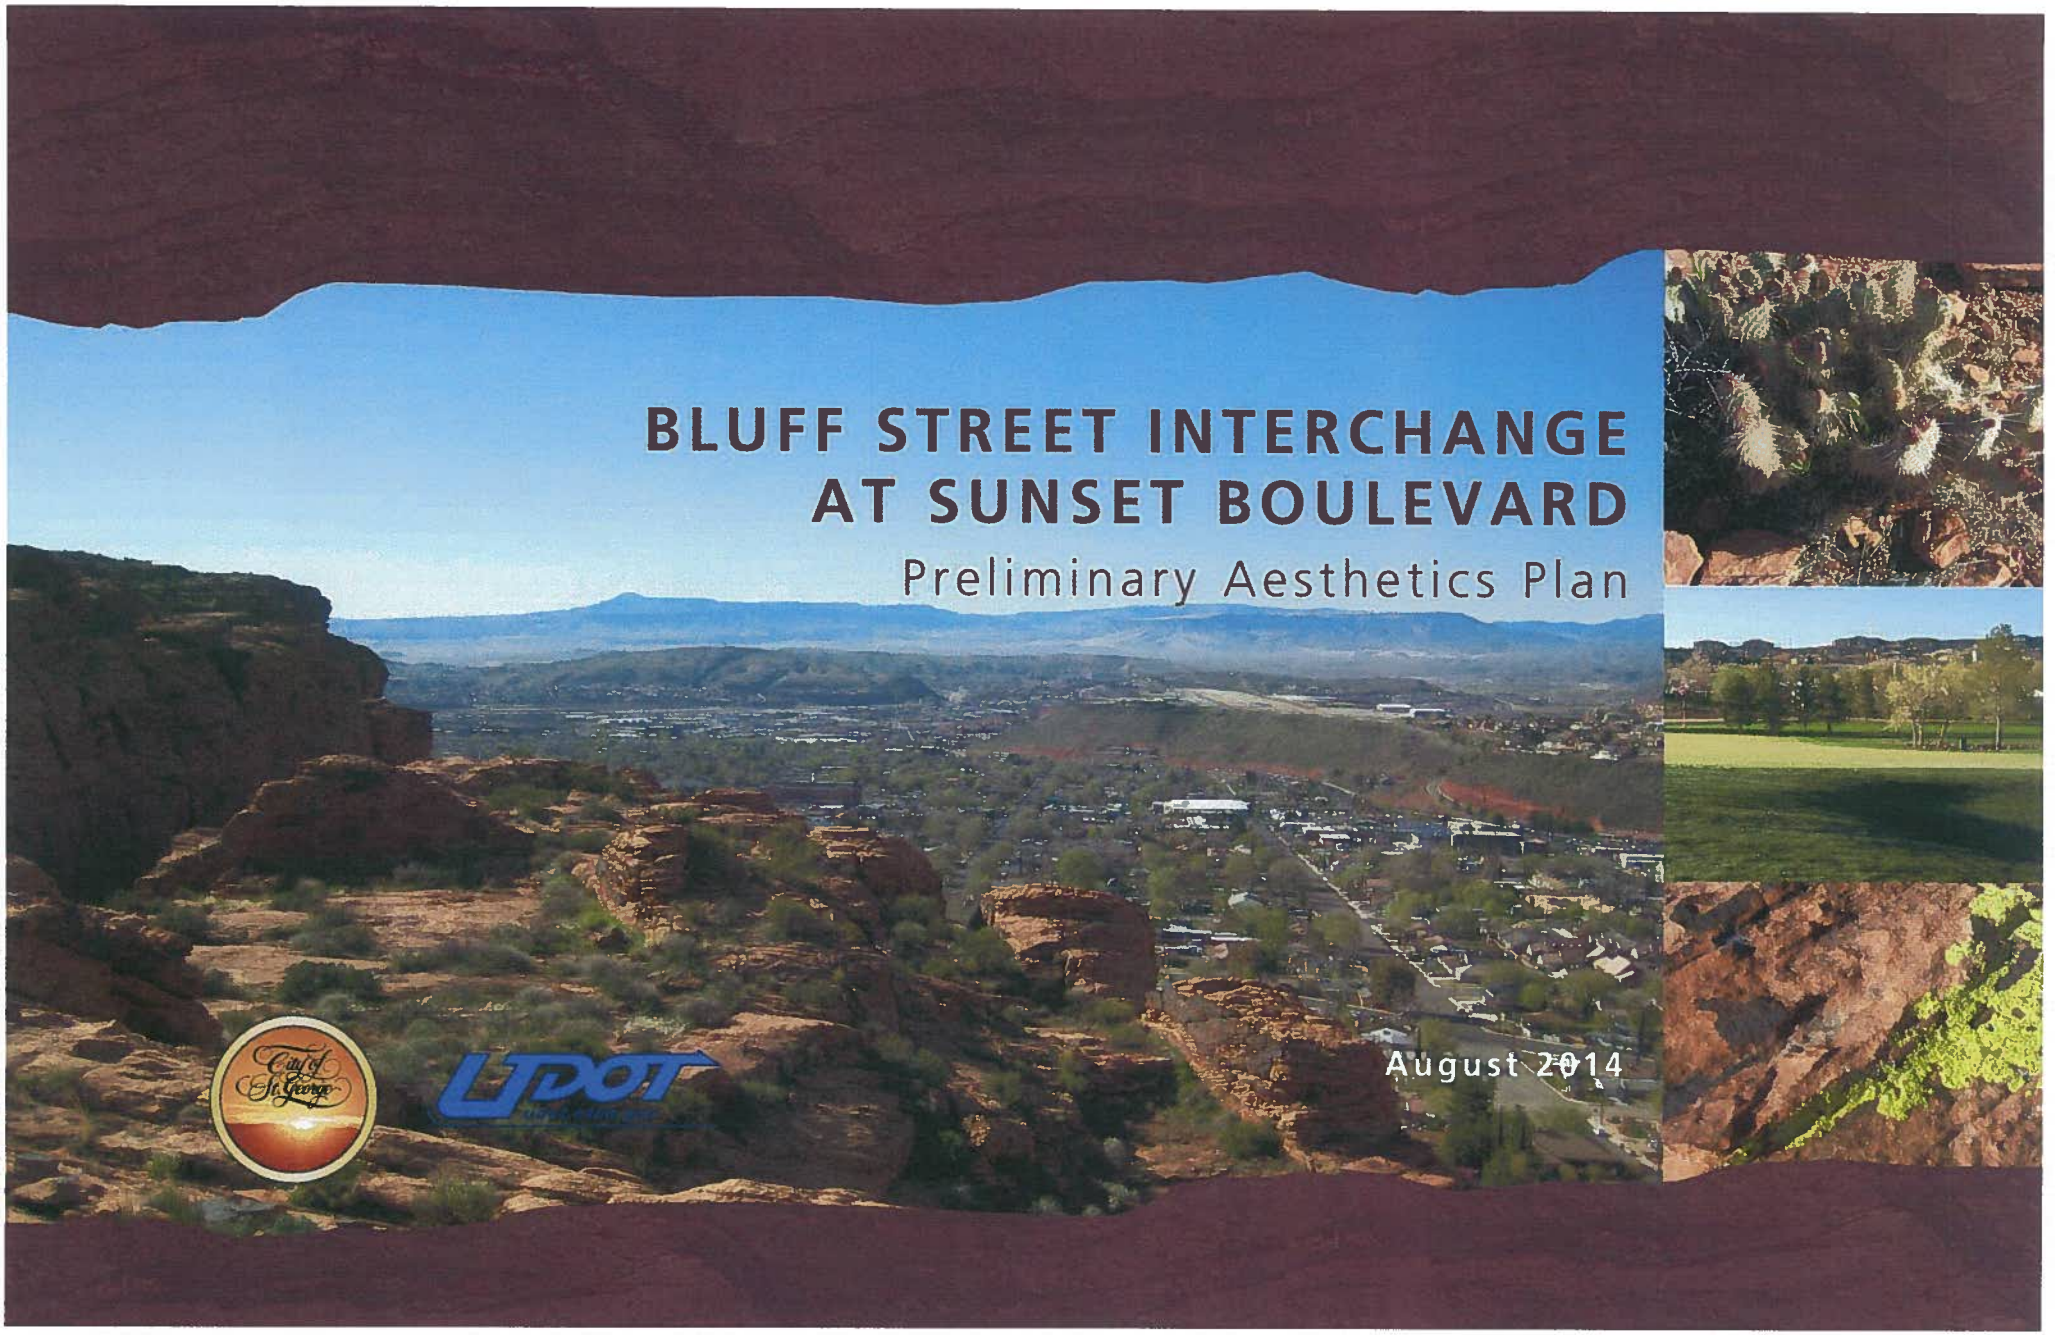


GOALS

- Achieve growth in Washington County without sacrificing our quality of life in the process
- Provide a more broad perspective on issues
- Listen to the concerns of Washington County's citizens and work to respond effectively to their needs
- Encourage open government, for the people
- Protect individual Constitutional rights







BLUFF STREET INTERCHANGE AT SUNSET BOULEVARD

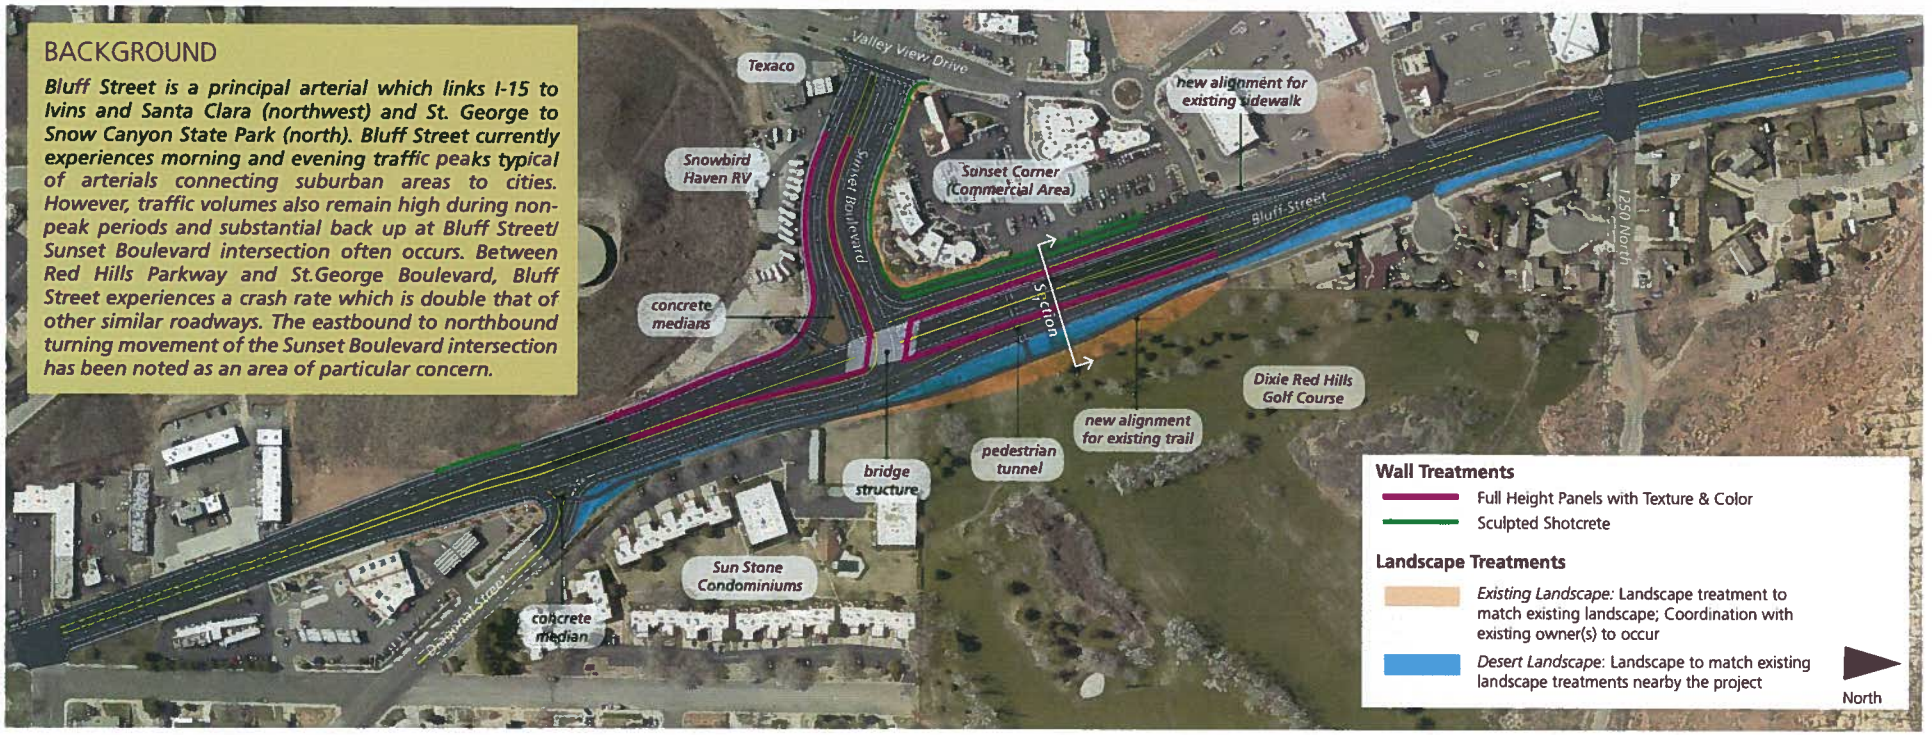
Preliminary Aesthetics Plan

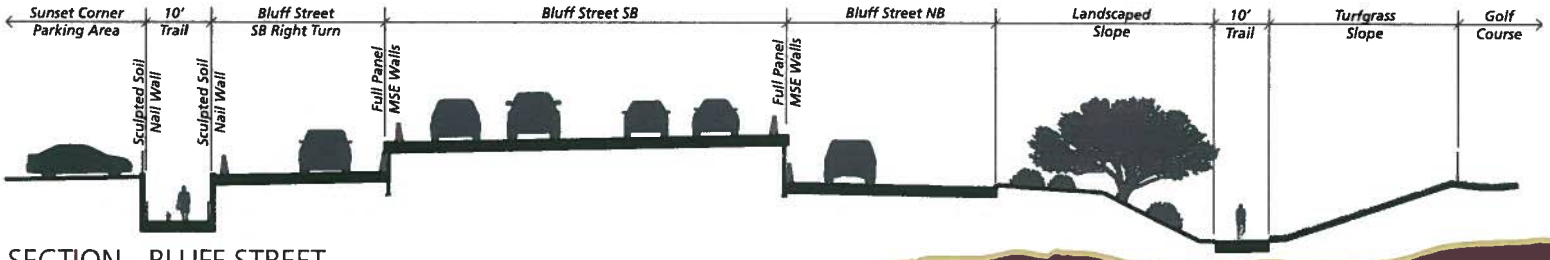
August 2014

Project Overview

BACKGROUND

Bluff Street is a principal arterial which links I-15 to Ivins and Santa Clara (northwest) and St. George to Snow Canyon State Park (north). Bluff Street currently experiences morning and evening traffic peaks typical of arterials connecting suburban areas to cities. However, traffic volumes also remain high during non-peak periods and substantial back up at Bluff Street/ Sunset Boulevard intersection often occurs. Between Red Hills Parkway and St.George Boulevard, Bluff Street experiences a crash rate which is double that of other similar roadways. The eastbound to northbound turning movement of the Sunset Boulevard intersection has been noted as an area of particular concern.

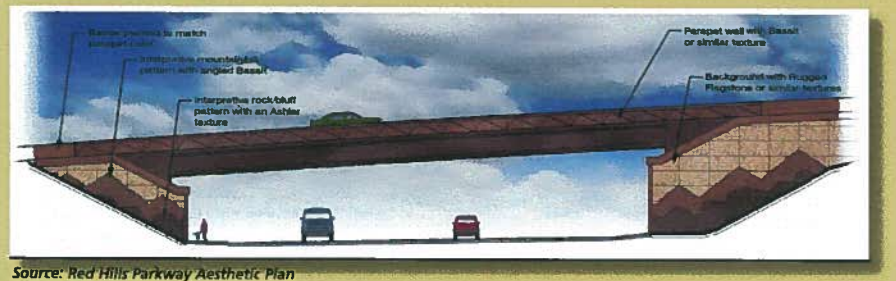




SECTION - BLUFF STREET

Existing Context

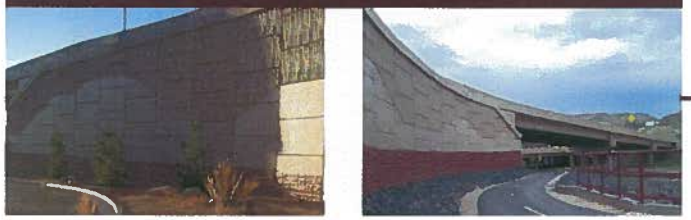
RED HILLS PARKWAY



Source: Red Hills Parkway Aesthetic Plan

The Red Hills Parkway Interchange–approximately 0.7 miles north of Sunset Boulevard–is currently being constructed. Due to the close proximity of the two projects, St. George City has requested that the aesthetics for the Sunset Boulevard Interchange match the aesthetics/ themes developed for the Red Hills Parkway as closely as possible.

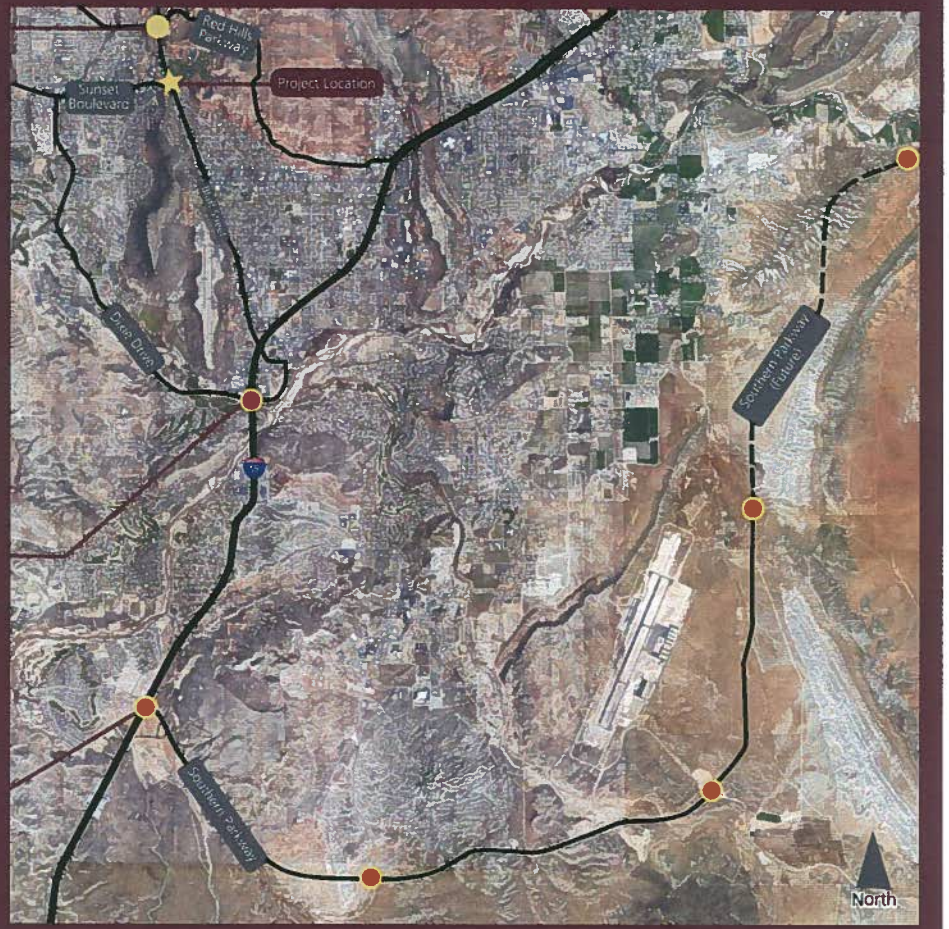
I-15 & DIXIE DRIVE



SOUTHERN PARKWAY*

**Variations of the theme pictured here have been used on all 5 constructed bridges along Southern Parkway.*

INTERCHANGE AESTHETICS IN THE ST. GEORGE AREA

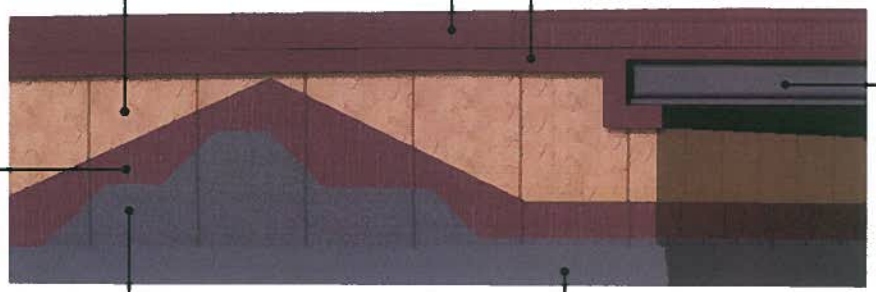


Bridge & Wall Enhancements

CONSISTENT THEME - ***The general theme from the Bluff Street & Red Hills Parkway Interchange will be applied to the bridge and walls on the Sunset Boulevard project. Even though the intersection configuration at Sunset Boulevard is distinctly different, the same paint colors and formliners will be used on both projects to provide a consistent look and feel along the Bluff Street Corridor.***

View of bridge and walls looking west

MSE Wall - Full Height Panels



Parapet & Barrier
Parapet FormlinerTexture: Oregon Basalt
Paint Color (Parapet & Barrier): Red Hook

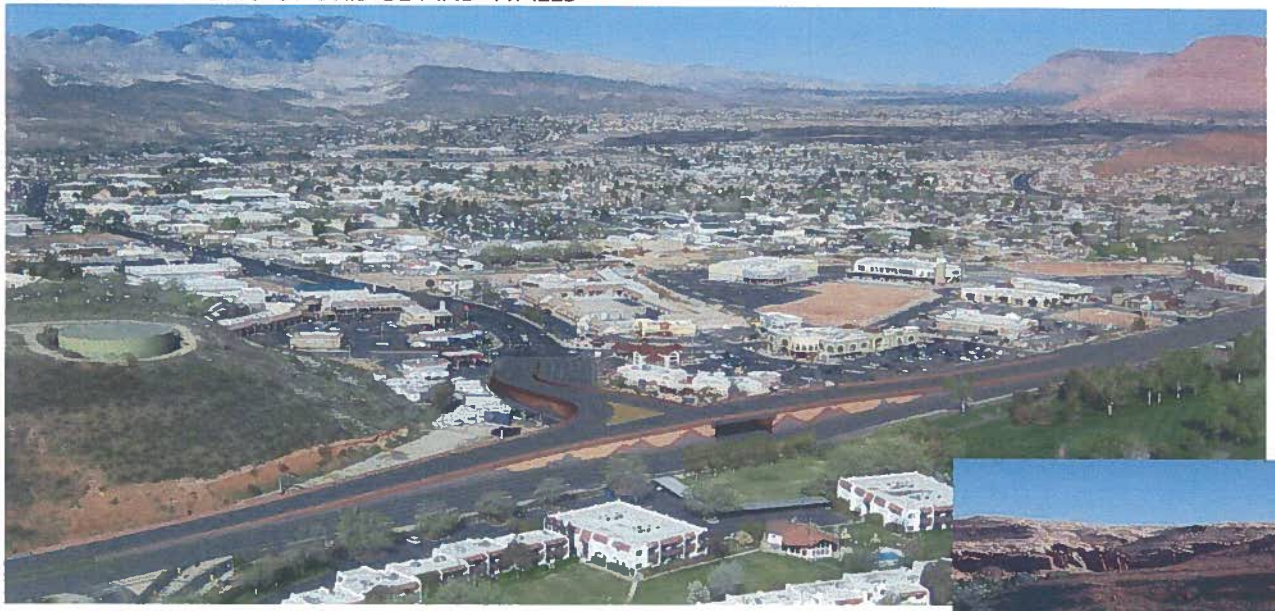
Coping
Paint Color: Red Hook

Girders/Abutment
Paint/Stain Color: Chaps

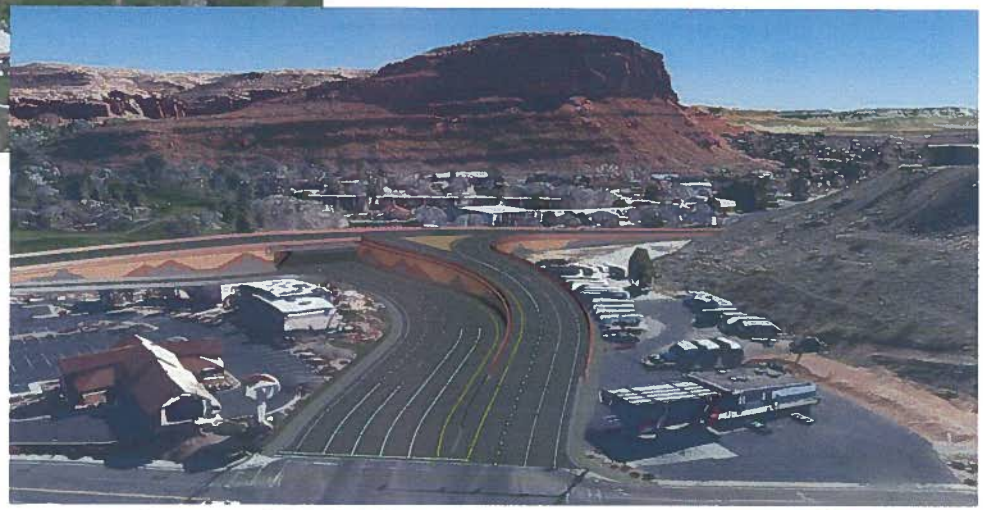
Barrier
Paint Color: Chaps

Bridge & Wall Enhancements

PERSPECTIVE VIEWS OF BRIDGE AND WALLS

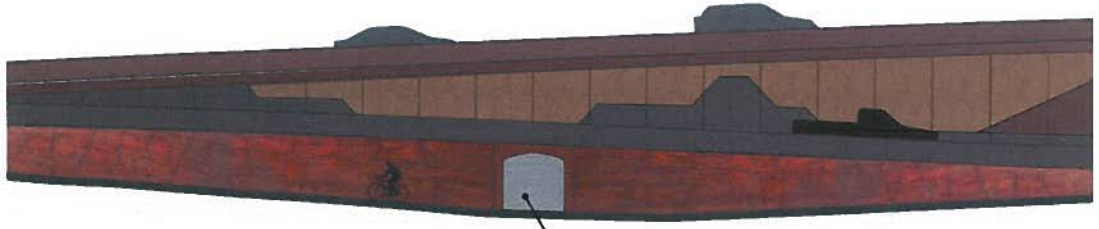


View of bridge and walls looking west



View of bridge and walls looking east

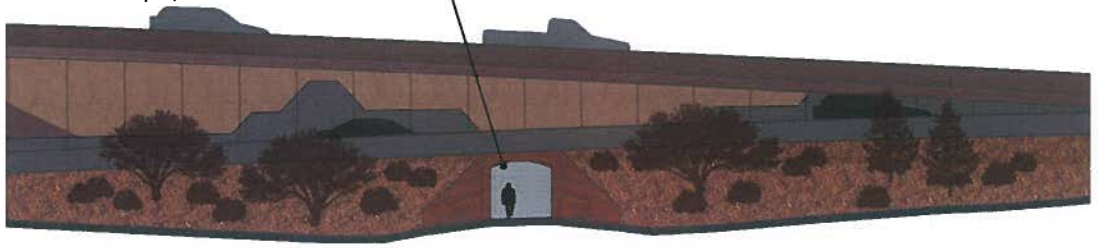
Pedestrian Tunnel & Wall Enhancements



WEST TUNNEL ENTRANCE
with sculpted shotcrete soil nail walls

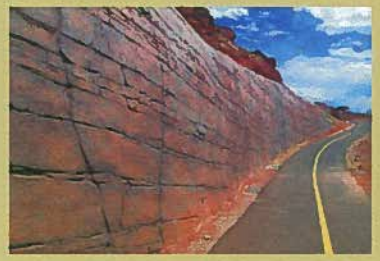
Tunnel walls and ceiling to be painted Armagnac (see Bridge and Wall Enhancements sheet for color sample)

EAST TUNNEL ENTRANCE
with sculpted shotcrete wing walls & landscaped hillside



SCULPTED SOIL NAIL WALLS

Soil nail walls are sculpted and stained (below) to replicate local, natural rock formations (right).



Sculpted Soil Nail Walls Maximum Relief: 2"

Natural rock formation near the Bluff Street/Sunset Boulevard Interchange

Medians & Lighting

MEDIANS

Concrete flatwork will also match the Red Hills Parkway Project.

Stamped Concrete Pattern: Random Flagstone. Maximum Relief: 5/16"

Yosemite Brown (Davis Color)

LIGHTING AND SIGNALS

PEDESTRIAN TUNNEL LUMINAIRES

Vandal Resistant Overhead Lighting

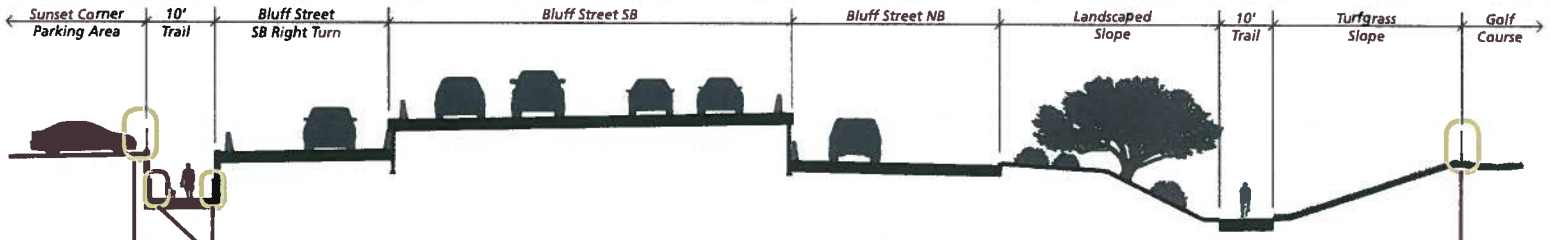
TRAFFIC SIGNAL POLES

Black Powder-Coated Traffic Signal Poles

ROADWAY LUMINAIRES

Standard Highway Lighting

Railings & Fencing

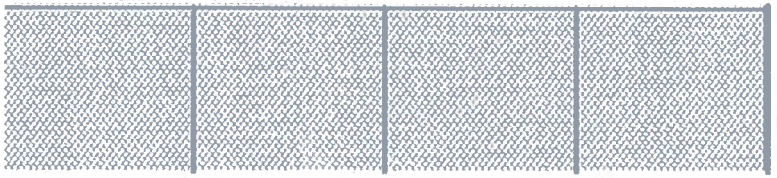


HAND RAILING: ***Required handrail to match the style of the basic railing (below)***

BASIC RAILING

RAILING WITH WIRE MESH

FENCING



Standard Chainlink Fence

POSSIBLE ENHANCEMENT

Black Powder-Coated Ornamental Picket Fence

Landscape Areas

DESERT THEME

Plant materials and mulches will match the existing, "desert" theme of the landscapes near the project site (see photos below). Plants selected will provide a variety of visual interest all year long. Plant species shown (at right) are a representative of a more extensive, water-wise plant palette.

TREES

Desert Willow
Chilopsis linearis

Chaste Tree
Vitex agnus-castus

Mondel Pine
Pinus eldarica

Texas Honey Mesquite
Prosopis glandulosa glandulosa

Southern Live Oak
Quercus virginiana

SHRUBS

Ephedra
Ephedra viridis

Black Dalea
Dalea frutescens

Sand Sagebrush
Artemisia filifolia

Carpet Rose
Rosa 'Flower Carpet'

Apache Plume
Fallugia paradoxa

GRASSES/ ORNAMENTALS

Purple Threeawn
Aristida purpurea

Banana Yucca
Yucca baccata

Red Yucca
Hesperaloe parviflora

Ocotillo
Fouquieria splendens

Regal Mist
Muhlenbergia rigens 'Regal Mist'

PERENNIALS

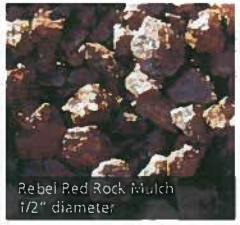
Desert Marigold
Baileya multiradata

Pink Gaura
Gaura siskiyou pink

Firecracker Penstemon
Penstemon eatonii

Red Autumn Sage
Salvia greggi

MULCH



Rebel Red Rock Mulch
1/2" diameter

Black Basalt Rock Mulch
2-4" diameter

BLUFF STREET INTERCHANGE AT SUNSET BOULEVARD

Landscape Concept

Bluff Street Interchange at Sunset Boulevard

Landscape & Aesthetics Enhancement Opportunities

Aesthetics Treatments							
Element	**Base Condition**	**Enhancement Allotment (Up to 0.75 of project)**	**Unit Cost above Base Condition**	**Unit**	**Quantity**	**Additional Cost**	**Comments**
Structural Elements							
Abutment Walls	1" textural relief, natural concrete with non-tinted sealer	Paint	$1.00	S.F.	360	$360.00	
Parapets	UDOT standard, natural concrete	Form Liner (Oregon Basalt, 2" Relief)	$1.00	S.F.	910	$910.00	
		Paint	$1.00	S.F.	2,035	$2,035.00	
Girders	No Treatment	Paint	$1.00	S.F.	3,560	$3,560.00	Includes edge of deck.
Culvert (Pedestrian Crossing)	UDOT standard, natural concrete	Paint	$1.00	S.F.	5,400	$5,400.00	Includes ceiling, walls & wing walls.
Retaining Walls							
MSE Wall Form Liners	1" textural relief, natural concrete with non-tinted sealer	Form Liners: Deeper relief/three patterns; Three colors of paint	$10.00	S.F.	26,180	$261,800.00	
Soil Nail Walls	Natural shotcrete	Colored concrete; Sculpted and stained	$10.00	S.F.	7,845	$78,450.00	
Barriers							
	Precast natural concrete with non-tinted sealer	Paint	$1.00	S.F.	32,640	$32,460.00	Two sides where abuts MSE walls; three sides everywhere else.
Roadway and Pedestrian Lighting							
Roadway	UDOT standard: Cobra type (lighting), galvanized finish	*No additional treatments*	--	--	--	--	
Tunnel	Typical Tunnel Lighting	*No additional treatments*	--	--	--	--	
Traffic Signal Poles							
	Galvanized finish	Black powder coating (Two signal poles and neighboring roadway light)	$4,650.00	LUMP	1	$4,650.00	Does not include powder coat for sign bridge.
Railing							
Golf Course	Chain-link fencing	*No additional treatments*	--	--	--	--	
Top of Trail Wall	Chain-link fencing	Metal Pipe Handrail with Welded Wire Mesh (like Dixie Drive)	$80.00	L.F.	450	$36,000.00	
Park Strip Treatments							
Hardscape	Stamped colored concrete	*No additional treatments*	--	--	--	--	
Softscape	Turf sod and irrigation or rock mulch	Plant Material (standard density) and irrigation	$2.50	S.F.	52,550	$131,375.00	
Landscaping							
	Topsoil, seeding, and mulch	Plant Material (light density), irrigation and rock mulch	$2.60	S.F.	21,640	$56,264.00	
					Enhancement Subtotal	**$613,264**	
					Mirius 0.75% Allowance	$95,000	
					TOTAL	**$518,264**

ST. GEORGE POLICE COMMUNICATIONS

Training Overview

TRAINING …

FIRST YOU HAVE TO GET HIRED!

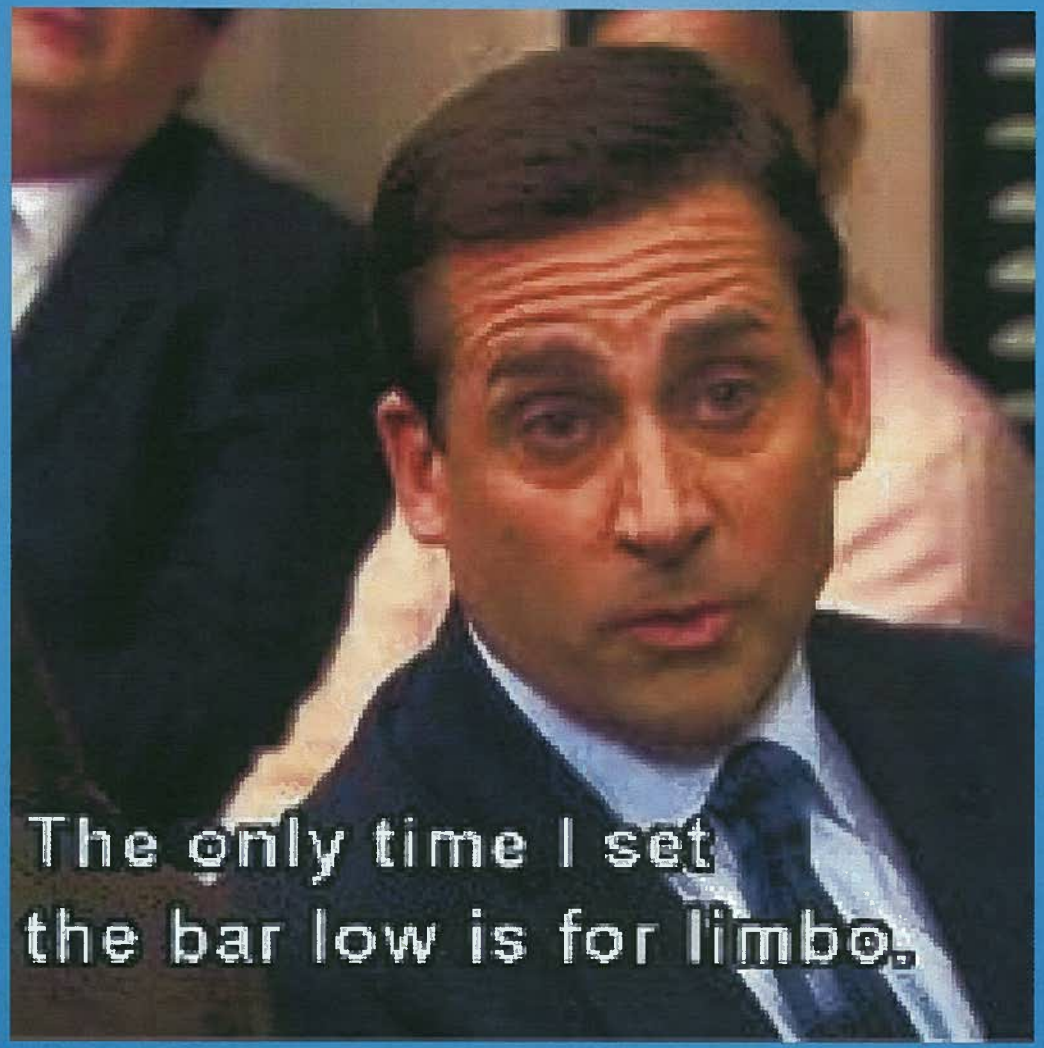
- *Application*
- *Typing (min 40 wpm)*
- *Multi tasking test*
- *Background Investigation*
- *Polygraph*
- *Drug Test*

TRAINING

- ***State of Utah Requirements***
  - *None, they are 'recommendations'*
  - *Dispatchers don't 'have' to be POST certified*
  - *St George Dispatchers are POST certified*

POST REQUIRED TRAINING

	Hours
Unit 1 - Course Orientation	2
Unit 2 - Role of the Public Safety Dispatcher – Overview of Public Safety Organizations	0.75
Unit 3 - Emergency Medical Dispatcher (EMD)	0.75
Unit 4 - State and National Computer Files	0.5
Unit 5 - Effective Communications	4
Unit 6 - Public Safety Call Taking and Interrogation	6
Unit 7 - Homeland Security	2
Unit 8 - Crime Classification/Definitions – Utah Criminal Code	3
Unit 9 - Law Enforcement Dispatching	5
Unit 10 - Fire Dispatching	4
Unit 11 - Legal Aspects of Public Safety Dispatching	4
Unit 12 - Communications Technology	2.5
Unit 13 - Excited Delirium / Agitated Chaotic Event	2
Unit 14 - Health and Wellness – Stress Management	1.75
Course Administration and Testing	1.75
Total Hours 40	40



The only time I set
the bar low is for limbo.

POST REQUIRED TRAINING	POST	St. George Dispatch
	Hours	Hours
Unit 1 - Course Orientation	2	16
Unit 2 - Role of the Public Safety Dispatcher – Overview of Public Safety Organizations	0.75	8
Unit 3 - Emergency Medical Dispatcher (EMD)	0.75	24
Unit 4 - State and National Computer Files	0.5	16
Unit 5 - Effective Communications	4	32
Unit 6 - Public Safety Call Taking and Interrogation	6	16
Unit 7 - Homeland Security	2	8
Unit 8 - Crime Classification/Definitions – Utah Criminal Code	3	8
Unit 9 - Law Enforcement Dispatching	5	20
Unit 10 - Fire Dispatching	4	24

Course Administration and Testing	1.75	4
Total Hours 40	**40**	**204**

40 hours	CIT training
40 hours	Ride along w/ 4-5 different agencies
40 hours	Required Spillman Training Hours
272 hours	Required Hours on Radio Console with Trainer
256 hours	Required Hours on Phones Console with Trainer
852 hours	**Total Training**
80 hours	Up to 80 Addl Hours avail for Radio training with Trainer
80 hours	Up to 80 Addl Hours avail for Phones training w/ trainer
1012 hours	Total training

DURING TRAINING

- *Weekly Quizzes*
- *Benchmark Testing*
- *Daily Score Sheets - includes 38 different sections scored from NRT to 5*
- *- Identifies areas to work on, goals for the week/day/hour notes by the trainer, gets signed by the trainee/trainer, reviewed by me ☺*

MONTHLY TRAINING

- *Lexipol*
- *Quality Assurance Self Checks – EMD Calls*
- *Protocol Worksheets*
- *EMD CD's*

- *EMD Recert – every 2 years 24 hours of CEU's*
- *POST - every year 20 hours of CEU's*

A Logan, UT

B St George, UT

382.2 mi

This radio system allows a dispatcher
(or anyone else for that matter)
to be in St George and speak with someone in Logan Utah
faster than if they used a cellular phone
(yes, we have tried it)
