 - [R432-270](#) Assisted Living-Change in proposed rule removing critical incident reporting requirements in-line with new R380-600 enforcement rule. This CPR was posted June 1 and is currently out for public comment. Any comments can be submitted to dlbc@utah.gov

- o **Construction Rules**

- R432-4 General Construction was activated as previously amended on March 15.
- New 432-4 was drafted to add back incorporations by reference and standardize duplicative construction rule content into one place that applies to all (except Assisted Living).
- Plan is for OL to work with Michael Dolan (construction representative) and file asap. With the [12 construction rules](#) aligned to follow as soon thereafter as possible. No substantive changes, just moving content and restructuring for rulewriting manual compliance.
