

Minutes
Town Council
October 2, 2024
7:00pm

Council in attendance: Briar Proctor, Spencer Proctor, Richard Pyne, Matt Draper
Council absent: Miff Bishop
Others in attendance: Jess Peterson, Kyler LaRose, Kara Proctor, Bob Lloyd, Roger Stowell

Mayor Proctor called the meeting to order and asked for a review of Septembers meeting minutes. Spencer motioned to approve those minutes and Richard seconded. Minutes were approved. Following the council reviewed the financial documents for September and Richard made the motion to approve and Spencer seconded. Financials were approved. Bob filled us in with a quick update from mosquito abatement and said that the West Nile virus has been found, but hasn't created a problem yet.

Time was turned over to Roger Stowell who had questions about flood irrigating the park. Kyler was informed on the risks of doing so and explained to Roger why it wouldn't be in the towns interest knowing that it will most likely cause issues with the septic tank that sits under the field. Kyler spoke on behalf of Sunrise Engineering who doesn't recommend flood irrigating.

There was a well project update, we received three bids and each one was significantly over budget. Kyler said we could pursue supplemental funding from the Department of Drinking water, or we can put out a request for re-bids hoping to get some options under budget. Both could potentially raise water rates again, which the council really wants to avoid. The re-bid option could take about a month, but in order to lessen the possible water rate increase, there was a lengthy discussion. Mayor Proctor would like to put it out for re-bid, the council agreed. Kyler will begin working on that process.

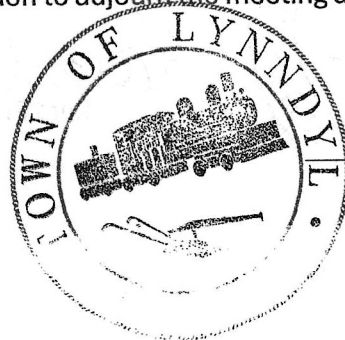

The town council discussed possible projects they would like to use CDBG funds for around town. We will hold a public hearing next month to hear from the public and then decide.

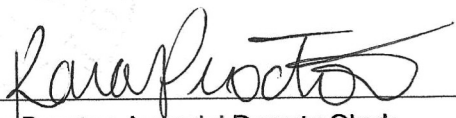

Planning and zoning noted that they are almost done reviewing the General Plan. They hope to bring something to Town Council next month.

Parks would like to begin having trees around the park and the town hall trimmed. Now is a good time to get that done. There are also some sprinkler lines that need to be replaced, but we hope to hold off until Spring for those repairs.

The town party is next week. There was a discussion about what needs to be done before.

Matt made the motion to adjourn the meeting and Spencer seconded. Meeting adjourned.

Kara Proctor, Lynndyl Deputy Clerk
