

# Lake Point City Proposed Annexation Conceptual Drawing 03/05/2025 (Does not comply with LGO standards)

# CONCEPT MAP DOES NOT COMPLY

A concept map diagram is overlaid on a map of a region. The map features a grid of roads and place names like 'Big Canyon', 'Adobe Rock', 'Mills Junction', and 'Foothill Way'. A large, semi-transparent blue parallelogram is positioned diagonally across the map. Inside this parallelogram, the word 'CONCEPT' is written in large, bold, dark grey capital letters. Below 'CONCEPT', the word 'MAP' is also written in large, bold, dark grey capital letters. The letters are partially obscured by the blue parallelogram. The background map shows elevation contours and a winding road labeled '80'.

The map displays a residential area with a grid street pattern. Key features include Sainsbury Park, Sainsbury Parc, and various roads such as Union Pacific, N Foothill Way, N Dripping Rd, N Foothill Rd, Bates Canyon Rd, and Pole Line Rd. A green dashed boundary outlines a specific area, and a blue dashed boundary outlines a larger area. A white inset map in the upper right shows elevation contours and roads, with labels like 4278 ft, 4556 ft, 4554 ft, 4482 ft, 5380 ft, 5956 ft, 6959 ft, 6284 ft, 5573 ft, and 8538 ft. The map also shows canyons like Coyote Canyon and Pole Canyon. A scale bar at the bottom right indicates 0, 0.5, and 1 Miles.
