**MIDVALE CITY PUBLIC NOTICE:**

Midvale City is requesting bids from qualified Bidders for a Construction Contract known as: Midvale City 2025 Roadway and Utility Improvement Project. This project consists of the full roadway and utility reconstruction of Stagg Street, Smelter Street, and Depot Streets, which are located to the west of the Midvale Historic Main Street, along with related water and storm water utility upgrades within the adjacent Holden Street, Main Street and Center Streets. This project consists of the following:

The demolition and off-site removal of approximately 17,300 square feet of existing asphalt roadway, together with the demolition and disposal of approximately 2,000 linear feet of curb and gutter, 5,900 square feet of sidewalk, storm drain inlets and piping, and related appurtenances. The work also includes the demolition of existing chain link fence, and the salvage and protection of two existing sliding gates for reinstallation;

Furnishing and installation of approximately 2,500 linear feet of storm drain, together with storm drain inlets, manholes, drainage grates, drainage basins, and related appurtenances;

Furnishing and installation of approximately 4,200 linear feet of new 8-inch diameter culinary water main, service lateral replacement, fire hydrants, valves, and related appurtenances; and

Furnishing and installation of approximately 3,800 linear feet of new curb and gutter, 16,000 square feet of sidewalk, and 50,900 square feet of new asphalt roadway and base (which includes utility pavement restoration in the adjacent streets). The work also includes the furnishing and installation of new chain link fencing and the reinstallation of the two existing, salvaged sliding gates.

**RECEIPT OF PROPOSALS:**

Proposals will only be accepted when submitted electronically to Bonfire Utah Public Procurement Place at:
