Subject: Resolution 25-2 reconsideration

To the Honorable Mayor and City Council of Roy,

I'm writing you all today to express my opinion, and looking at the social media FB groups for Roy; mine is probably not a popular one. I'm a life long resident of Roy, my parents moved here in 1949. I have a BS in Electrical Engineering as well as an MBA; so I might know a little about math and expenses.

I'm 100% in FAVOR to the resolution that was passed, 25-2, changing the height limit to 10 stories for residential buildings on the east side of 1900 W and between Harmon's and roughly 6000 South. I know that the chances of a developer coming in and making a 10 story apartments is probably fairly low. Those would be extremely expensived to build and no where else in Weber County are there apartment buildings that high. The city is in a crunch, we either raise taxes or get more people to move in to get more property tax base. Neither of which seems popular but a lot of people don't understand the difficult job you all have. But the noisy few make the most noise, I just wanted to make sure that my voice is heard too. Once 5600 and 1900 are done, I don't feel these dwellings will add a ton of congestion to 1900. Put in a big box store and it will for sure.

Thanks for your time,
Jhan Jensen
