## New Business

### Regular Commission Business:

(0:02:40)

Item # 1 PUBLIC HEARING - ZMA-2025-02 - Lambert/Emery Rezone - Review and recommendation regarding a Zoning Map Amendment (Rezone) of 6 parcels located along 1800 North, and east of 800 East (Parcel IDs: 04-096-0003, 0004, 0005, 0006, 0007, 0008). The rezone request seeks to upzone the subject properties from A-10 (Agricultural), to R-1-10 (Single-Family Residential).

Scott introduced a rezone request for six parcels near the intersection of 1800 North and 800 East.

- **Background:** The parcels in question date back prior to the city's zoning ordinance adopted in 1970.
- **Original Request:** Three parcels (Emery and Lambert properties) sought rezone from A10 to R1-12.

54     • **Staff Recommendation:** Expand rezone to six parcels and change zone to R1-10 to make all  
55     conforming.  
56     • **Conceptual Subdivision Plan:** Proposed shared access easement to improve safety and reduce  
57     conflict with the nearby intersection.  
58     • A development agreement was recommended to memorialize the proposed configuration.

59  
60     *Nan Isaacson read aloud the guidelines for speaking at a public hearing, and opened the public hearing*  
61     *at 6:47 p.m.*

62     Larry Emery raised concerns about losing direct access to 1800 East.

63     Russell Goodwin questioned UDOT's involvement and was informed UDOT funding applies to another  
64     intersection, not this one.

65     Darren Henry, a longtime resident, questioned the necessity of the changes, citing no history of access-  
66     related accidents and criticizing the roundabout proposal.

67  
68     *At 6:58pm Nan Isaacson closed the public hearing and opened up the dialogue to the Planning*  
69     *Commission.*

70     Planning Commission discussion with staff, including:

71     • Staff clarified the design improves safety and aligns with future plans for a roundabout at the  
72     intersection.  
73     • Commissioners acknowledged the intersection's increasing traffic and safety concerns.  
74     • All agreed that the proposed rezone and shared rear access design was an improvement.

75     **(0:30:53)**

76     **Motion**

77     *Gavin Payne made a motion to forward a positive recommendation for ZMA-2025-02 - Lambert/Emery*  
78     *Rezone - Review and recommendation regarding a Zoning Map Amendment (Rezone) of 6 parcels*  
79     *located along 1800 North, and east of 800 East; based on facts and finding in the staff report, and with*  
80     *the condition that we memorialize the accompanying development agreement.. Tracy Walker seconded*  
81     *the motion. A vote was called and the motion passed unanimously with Nan Isaacson, Gavin Payne, and*  
82     *Tracy Walker voting in favor.*

83     **(0:32:08)**

84     Item #2: Work Session: Review and discussion regarding draft zoning text amendments to NLMC Section  
85     12C intended to implement the goals and policies contained within the recently adopted 2025 General  
86     Plan.

87     Scott Perkes led an in-depth review of a draft zoning text amendment (ZTA 2024-02) focused on:

88     • Clarification of Terms: Definitions for "parcel," "lot," and legal non-conformance.  
89     • Purpose: Consolidate scattered provisions into one coherent section to address grandfathered  
90     parcels, non-compliant structures, and development standards.  
91     • Key Considerations:  
92         ◦ Establishing a reference date of July 31, 1970, as the cutoff for determining legal non-  
93         conformance.  
94         ◦ Providing clearer guidelines on required improvements for non-conforming parcels.  
95         ◦ Establishing a process for issuing Letters of Legal Non-Conformance.  
96         ◦ Draft includes optional amortization tools for phasing out non-compliant uses over time.

97     Commission Input:

98     • Suggested adding language to explicitly apply the recently adopted geological hazard ordinance.  
99     • Recognized the need for development protections while maintaining minimum safety standards and  
100     infrastructure requirements.
