FY 2026

Parowan City Budget

Dan Jessen, City Manager

Budget Message

Presented with the Parowan City FY26 Budget

To the Honorable Mayor, City Council, and Citizens of Parowan:

It is my privilege to present the proposed budget for Fiscal Year 2025–2026. This document represents Parowan City’s continued commitment to sound financial stewardship, community-focused service delivery, and strategic investment in the future of our growing city.

Fiscal Overview

The FY26 budget is balanced with no increase to the property tax rate. It reflects a proactive approach to growth management, a prudent use of one-time revenues, and a focus on long-term sustainability. New commercial development within the city has positively impacted property tax valuations, local sales tax distributions, and tourism-related revenues, including the Recreation, Arts & Parks (RAP) tax and Transient Room Tax (TRT). The City remains in a strong financial position thanks to disciplined budgeting and a diversified revenue base.

Notable Year-Over-Year Changes

Several key changes in this year’s budget affect comparisons to the prior fiscal year:

- **Justice Court Transition:** The City has formally contracted with Iron County to administer Justice Court services. This change eliminates an entire department from the City’s budget, significantly reducing related expenditures. Some court-related revenues remain but are reduced in line with the new arrangement.
- **One-Time Grants and Projects:** A number of budgets reflect significant year-over-year variances due to one-time grant revenues and expenditures tied to major capital projects. These include:
 - Water Recharge Project
 - Airport improvements
 - Water and utility engineering design work
 - Restoration efforts at the historic Old Rock Church
 - Comprehensive planning initiatives

Some of these projects were completed in FY25, and associated budgets are returning to normal levels in FY26. Others are continuing into the new fiscal year with active grant funding and matching City investment.

- **Fire Department Staffing:** For the first time, Parowan City will employ a part-time Fire Chief. This transition from a volunteer role reflects the City's growth and the increasing demands placed on our emergency services.
- **Potential Capital Improvements (Funding Dependent):**
 - **Library Remodel:** A planned renovation to improve public access, usability, and infrastructure—contingent on funding availability.
 - **Valentine Peak Sports Complex Lighting:** Installation of field lighting to support youth recreation and community events.
 - **Water Distribution System Improvements:** Targeted upgrades to improve fire flow and overall system reliability.
- **Main Street Bridge Replacement:** A vital infrastructure project to ensure long-term safety and connectivity. This project will transition from design to construction during the FY26 Budget Year and some budget adjustments may be needed as bids are received.
-

Budget Priorities

In addition to addressing immediate needs, the FY26 budget supports several strategic priorities:

- **Core Infrastructure and Public Services:** Investment in roads, water systems, emergency services, and planning capacity reflects our commitment to maintaining quality service and preparing for future growth.
- **One Time Projects:** Matching funds for Grants and other One-time projects which will leverage the resources the City has for vital strategic needs.
- **Employee Retention and Performance:** Full implementation of the City's hybrid compensation plan—with a structured step-and-grade system and a performance-based incentive program—strengthens our workforce and enhances service delivery without increasing taxes.

Long-Term Outlook

As Parowan continues to grow, this budget reinforces our focus on preserving the city's unique rural character while providing for the needs of a changing and expanding population. By aligning our financial resources with community priorities, we are laying the groundwork for a resilient, well-planned, and vibrant future.

Conclusion

This budget reflects a thoughtful balance of fiscal responsibility, community investment, and strategic foresight. I extend sincere thanks to the Mayor, City Council, department heads, and staff whose work has shaped this plan, and to the citizens of Parowan for their trust and participation in shaping our shared future.

Respectfully submitted,

Dan Jessen, Parowan City Manager

About Parowan City

Parowan City, known as the “Mother Town of Southern Utah,” is a historic community nestled at the base of the towering red rock cliffs of Parowan Gap and the western slopes of the Brian Head plateau. Founded in 1851 as the first settlement in southern Utah, Parowan has a deep legacy rooted in pioneering spirit, agriculture, and family-centered values. The city serves as the county seat of Iron County and is home to approximately 3,300 residents.

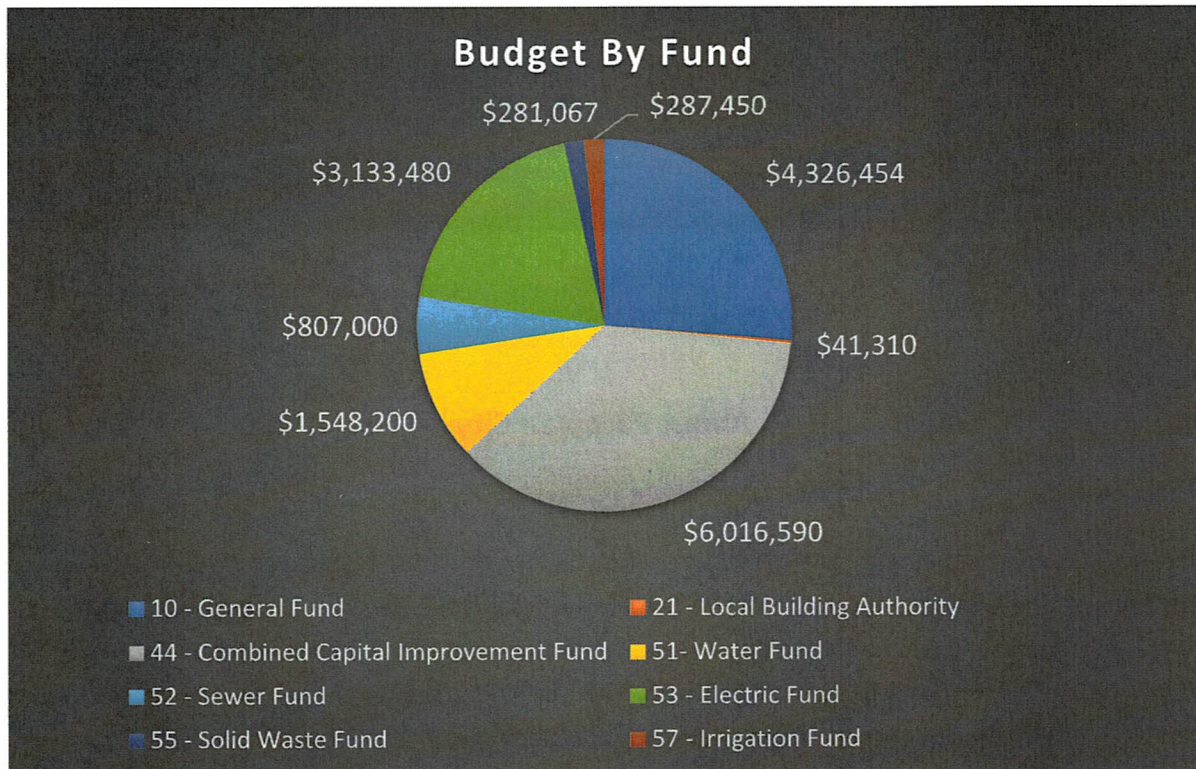

Parowan is governed under a six-member council form of government, consisting of a mayor and five city council members elected at-large. The city provides a full range of services, including public safety (police, fire, and EMS), culinary water and sewer utilities, parks and recreation, cemetery operations, an airport, a library, and a municipal swimming pool. Parowan also supports a range of community events, arts programs, and historic preservation efforts.

The city’s economy is a blend of local service businesses, tourism, agriculture, and light industry. Parowan’s proximity to Brian Head Resort, Cedar Breaks National Monument, and Zion and Bryce Canyon National Parks positions it as a quiet, scenic base for regional recreation. The city is also known for its festivals and events, including the annual Iron County Fair and Independence Day celebrations that draw thousands of visitors.

With a strong commitment to preserving its rural charm while planning for gradual, sustainable growth, Parowan has recently undertaken significant updates to its zoning and administrative codes. These initiatives aim to balance heritage conservation with housing affordability, economic opportunity, and intergenerational resilience.

Parowan’s combination of natural beauty, small-town cohesion, and forward-looking leadership makes it a unique and enduring place to live, work, and visit.

PAROWAN CITY COUNCIL MEETING MINUTES
JUNE 12, 2025 – 5:30 P.M.
PAROWAN CITY COUNCIL CHAMBERS
35 E. 100 N., PAROWAN, UT 84761

Elected Officials Present: Mayor Mollie Halterman, Councilmembers David Burton, John Dean, Sharon Downey, David Harris, and Rochell Topham

City Staff Present: Dan Jessen, City Attorney; Chief Addison Adams, Parowan PD; Officer Anderson Humphreys, Parowan PD; Officer Mike Bleak, Parowan PD; Connie Biasi, City Billing Clerk; Jerry Ross, City Treasurer

Public Present: See Sign In Sheet

Welcome and Call to Order: Mayor Mollie Halterman

Mayor Mollie Halterman called the Parowan City Council meeting to order on June 12, 2025, at 5:31 pm.

Opening Ceremonies: By Invitation

Connie Biasi led the opening ceremonies. She began with a prayer, expressing gratitude for the opportunity to gather as a city and council. She asked for the spirit to be with them as they made decisions concerning the city. After the prayer, Connie led the Pledge of Allegiance.

Declaration of Conflicts With or Personal Interest In any Agenda Items: City Councilmembers

Mayor Halterman asked if any council members had conflicts or personal interests in any agenda items. No conflicts were declared.

Public Comments

Mayor Halterman opened the floor for public comments, clarifying that this was separate from the upcoming public hearings.

Larry Sherman approached the microphone to discuss a petition circulating since May 23rd regarding changes to the city ordinance on horse corrals. He explained that the current ordinance stipulates a 75-foot distance, while the petition seeks to reduce it to 40 feet. Mr. Sherman presented photos showing the difference between 40 feet and 75 feet from his property.

Mr. Sherman shared his personal experience with horses at 40 feet, stating that he couldn't use his back patio or open windows due to smell and flies. He emphasized that this wasn't an anti-horse issue, mentioning his daughter's involvement in rodeo. Mr. Sherman expressed his ability to live with the current 75-foot ordinance and provided his contact information for further questions.

Mayor Halterman thanked Mr. Sherman for his well-presented information and helpful comments.

PRESENTATION: Municipal Statutory Officers' Compensation Increase for Fiscal Year 2025-26

Dan Jessen presented information on the municipal statutory officers' compensation increase. He explained that due to Senate Bill 91 in 2024, a separate public hearing is required for any budget changes affecting executive municipal officers' compensation.

Dan defined the terms "compensation" and "executive municipal officers" as per state code. He presented a list of officers and their proposed compensation increases, ranging from 0% to the numbers shown on a chart. Dan noted that this was an atypical representation due to the results of a recent salary study. He also mentioned that the fire chief's 0.2% increase was due to his recent appointment and potential for a \$150 incentive as a part-timer.

PUBLIC HEARING to hear comments regarding the Municipal Statutory Officer's Compensation.

Sharon Downey made a motion to open the public hearing regarding the municipal statutory officers' compensation. Rochell Topham seconded the motion. All council members voted in favor.

Mayor Halterman opened the public hearing. Seeing no activity or comments from those present, the council moved to close the hearing.

Sharon Downey made a motion to close the public hearing on the municipal statutory officers' compensation. Rochell Topham seconded the motion. All council members voted in favor.

PUBLIC HEARING to hear comments regarding the proposed annexation of approximately 204.07 acres of real property into Parowan City's incorporated limits, referred to as the AJM Investments LLC Annexation.

David Burton made a motion to open the public hearing to hear comments regarding the AJM Investments LLC annexation. Rochell Topham seconded the motion. All council members voted in favor.

Linda Smith, a 45-year resident of Parowan, approached the microphone. She expressed her concerns about the proposed annexation, stating that while she's not against growth, she felt 80 homes would be more appropriate for the acreage than the proposed 556. Smith raised concerns about the city ignoring fire code D107, which pertains to road access. She urged the council to consider the fire code in their decision-making process.

Rob Bernhardt asked for clarification on whether the property would be developed regardless of annexation. Dan Jessen explained that based on the developer's comments, it seemed the intent was to develop one way or another. The question was whether it would be under a development agreement with the city or under county code and zoning.

Dan Jessen elaborated on the potential impacts if the development proceeded outside city limits, including traffic, use of city streets and parks, and emergency services. He noted that if not annexed, the development would likely have its own private water and sewer systems.

Janelle Zajac spoke in favor of annexation, citing a recent county planning commission meeting where an HOA dispute highlighted the importance of city control over ordinances. She encouraged the council to approve the annexation to maintain control over city ordinances and development standards.

David Burton moved to close the public hearing regarding the AJM annexation. Rochell Topham seconded it. All members voted in favor.

CONSENT AGENDA

Mayor Halterman presented the consent agenda, which included approval of City Council Meeting Minutes from May 29, 2025, approval of Warrant Register for June 12, 2025, and approval of Financial Report for May 2025.

David Burton moved to approve the consent agenda items 5 through 7. Sharon Downey seconded the motion. All members voted in favor.

ACTION AGENDA

Recognition of Parowan City Library Award

This item was tabled to the next meeting to allow the librarian to be present.

Sharon Downey made a motion to table item number 8 to another time. Rochell Topham seconded that. All members voted in favor.

Swearing in of Officer Anderson Humphreys by Chief Addison Adams

Chief Addison Adams introduced Officer Anderson Humphreys, who had previously worked for Enoch for about 10 years. Chief Adams expressed excitement about Officer Humphreys joining the Parowan Police Department, noting that he had been a good fit so far.

Chief Adams then administered the oath of office to Officer Humphreys. After the swearing-in, council members and staff congratulated Officer Humphreys and welcomed him to the department.

Approval of the Certified Tax Rate for FY 2025-26, Resolution 2025-04

Dan Jessen presented the certified tax rate for fiscal year 2025-26. He explained that the rate was 0.002191, which was expected to yield \$895,362 in revenue. Jessen noted that this rate was lower than the previous year's rate of 0.002241, despite a slight increase in revenue due to new growth.

David Burton made a motion to approve the certified tax rate for fiscal year 2025-26, resolution 2025-04. Rochell Topham seconded the motion. A roll call vote was conducted, with all council members voting in favor.

Approval of America 250 Resolution, Resolution 2025-05

Mayor Halterman introduced the America 250 resolution, explaining that it was part of recognizing the 250th anniversary of the United States. She mentioned that the state was asking cities to participate and create resolutions to recognize this event.

The mayor noted that while they hadn't taken a deep dive into planning yet, they would have opportunities at the county, state, and local levels to celebrate in 2026. She also mentioned that a community committee would need to be formed to discuss and plan activities.

David Burton made a motion to approve America 250 resolution, resolution 2025-05. Sharon Downey seconded. A roll call vote was conducted, with all council members voting in favor.

Adopt Fiscal Year 2025-26 Tentative Budget

Dan Jessen presented the fiscal year 2025-26 tentative budget. He explained that a change had been made to the tentative budget due to receiving the final property tax numbers. Dan noted that the

budget was available on the city website and that a physical copy would be available in the office for public review.

He clarified that they were only adopting the tentative budget at this meeting, with a public hearing and final budget adoption to follow at the next meeting.

Rochell Topham moved to adopt the fiscal year 2025-26 tentative budget. Sharon Downey seconded. All members voted in favor.

Set Date for Public Hearing on Fiscal Year 2025-26 Budget

David Burton moved to set the public hearing date on the fiscal year 2025-26 budget for June 26, the next council meeting. Rochell Topham seconded the motion. All members voted in favor.

Mayor Halterman confirmed that the public hearing for the budget would be held on June 26th at 5:30 pm, the same time as the regular council meeting.

Consideration and Possible Approval of AJM Annexation Petition and Agreement

Dallas Buckner, representing the developer, presented an updated proposal for the AJM annexation agreement. He explained that they had modified the park component of the agreement, proposing a trail system along 200 North within the annexed property. This proposal included a 10-foot asphalt trail on the south side, with landscaping and benches at 500-foot intervals. The developer suggested one water meter connection to support the landscaping, which could include xeriscape gravel and other landscaping elements as determined by the city's standards. The proposed trail would be aesthetically pleasing, potentially covering about half a mile and connecting to existing city infrastructure, offering a park-like amenity for the subdivision.

Dallas emphasized that this proposal was an attempt to address the council's request for a park component due to the large scale of the annexation. He mentioned the importance of adding pedestrian amenities in new developments, noting that the trail system would not interfere with residential driveways, which would likely not face 200 North on the south side, thereby avoiding conflicts with pedestrians.

Council members discussed the proposal extensively. Some expressed concern about committing to this plan before the city had finalized its park ordinance, stressing the need for consistency across all annexations. Dan Jessen explained the complexities of the agreement, emphasizing that the vesting paragraph needed to be carefully worded to ensure the city's interests were protected, especially with the park ordinance still under development. There was consensus that the park component should align with the future ordinance to maintain fairness and consistency across different annexations.

After extensive discussion, the council decided to revisit the previous version of the agreement language regarding parks, which had offered to comply with city ordinances in place at the time of subdivision application. Both the city's attorney and the developer's attorney were tasked with reviewing the annexation agreement before the next meeting to ensure it met legal requirements and the council's expectations.

Sharon Downey made a motion to revert to the red line given before and look at the vesting paragraph and bring for a vote next meeting after the attorneys' review and both attorneys have to approve before bringing it back. John Dean seconded the motion. All members voted in favor.

WORK AGENDA

Discussion on Feral Cats Issue

The council continued their discussion on the feral cat issue, which had been brought up by a community member in a previous meeting. Dan Jessen presented research he had done on state code and ordinances from other cities regarding feral cat management.

Dan outlined a potential ordinance that would regulate the feeding of feral animals while supporting lawful community cat management efforts. The ordinance included definitions, feeding restrictions, and enforcement penalties.

Council members expressed mixed opinions on whether to pursue an ordinance. Some felt it was necessary to address the issue, while others were concerned about enforcement challenges and potential unintended consequences.

Mayor Halterman suggested that Dan continue researching the issue and bring back more information at a future meeting.

Reports, Updates, Old Business Follow Up: Elected Officials and Staff

Council members and staff provided various updates:

- Councilmember Topham attended the soft opening of the bike park.
- Councilmember John Dean reported on the tree committee's plans for July 4th activities.
- Councilmember Downey mentioned an upcoming byway highway meeting.
- Councilmember Burton provided updates on the cemetery, planning and zoning meetings, and water board activities.
- Dan Jessen discussed issues with the library's air conditioning, recent power conference insights, chip sealing projects, and progress on water infrastructure funding.
- Mayor Halterman reported on various city projects, including bike park signs, the Old Rock Church brick project, and a new community involvement survey.

Dan Jessen also provided an update on the election filing results, noting that four candidates had filed for two city council seats, and Mayor Halterman was running unopposed for re-election.

Closed Session

There was no closed session for this meeting.

Adjournment

Rochell Topham made a motion to adjourn. Sharon Downey seconded the motion. All members voted in favor. The meeting was adjourned at approximately 7:31 p.m.

Mollie Halterman, Mayor

Callie Bassett, City Recorder

NOTICE OF CERTIFICATION OF PETITION FOR ANNEXATION

Pursuant to Section 10-2-405(2)(c)(i), U.C.A., Parowan City, Utah, hereby gives notice as follows:

1. On May 13, 2024, a notice of intent to file a petition for the annexation of real property was filed with the city of Parowan.
2. On, June 11, 2024, the petition for annexation was filed with Parowan City.
3. On June 13, 2024, Parowan City Council accepted the Petition to be further considered and authorized the Petition to be certified by City Staff.
4. On July 13, 2024, Parowan City Staff, with the assistance of the city's attorney, certified that the Petition meets the requirements of Utah State Law and notice is hereby provided to the Parowan City Council, AJM Investments (contact sponsor), and the Iron County Commission.
5. The area proposed for annexation in the petition is described as follows:

A TRACT OF LAND BEING LOTS 2 AND 3 LOCATED IN SECTION 18, TOWNSHIP 34 SOUTH, RANGE 8 WEST, SALT LAKE BASE AND MERIDIAN TOGETHER WITH THE SE1/4NE1/4, NE1/4SE1/4, SE1/4SE1/4 OF SECTION 13, TOWNSHIP 34 SOUTH, RANGE 9 WEST, SALT LAKE BASE AND MERIDIAN, MORE PARTICULARLY DESCRIBED AS FOLLOWS;

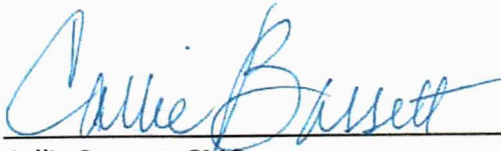

COMMENCING AT THE NORTHEAST CORNER OF SECTION 13 AND NORTHWEST CORNER OF SECTION 18 LOCATED ON THE COMMON RANGE LINE; THENCE S00°09'58"W ALONG SAID DocuSign Envelope ID: 1D304636-ED19-4E0F-A9C9-31A77914B97B (Petition for Annexation - Petitioners: _AJM INVESTMENT LLC_) Page 1 of 4 RANGE LINE 1,331.25 FEET TO THE POINT OF BEGINNING BEING THE NORTHWEST CORNER OF LOT 2; THENCE DEPARTING SAID LINE N89°57'26"E 1,343.30 FEET TO THE NORTHEAST CORNER OF LOT 2; THENCE S00°09'58"W 1,331.29 FEET TO THE SOUTHEAST CORNER OF LOT 2; THENCE S00°11'43"W ALONG THE EAST LINE OF LOT 3 1,320.00 FEET TO THE SOUTHEAST CORNER OF LOT 3 ; THENCE S89°57'32"W ALONG THE SOUTH LINE OF LOT 3 1,343.30 FEET TO THE SOUTHWEST CORNER OF LOT 3 BEING ON THE COMMON RANGE LINE; THENCE S00°11'43"W ALONG SAID RANGE LINE 1,289.52 FEET TO THE SOUTH COMMON CORNER OF SECTION 13 AND 18; THENCE S89°54'12"W ALONG THE SOUTH SECTION LINE OF SECTION 13 1,354.55 FEET TO THE SE1/16TH CORNER; THENCE N00°18'55"E ALONG THE 1/16TH LINE 2,621.76 FEET TO THE CE1/16TH CORNER ; THENCE N00°17'39"E ALONG THE 16TH LINE 1,328.56 FEET TO THE E1/16TH CORNER; THENCE S89°41'32"E ALONG THE 1/16TH LINE 1,346.06 FEET TO THE POINT OF BEGINNING.

CONTAINING 204.07 ACRES, MORE OR LESS

6. The complete Annexation Petition is available for inspection and copying at the Parowan City Recorder's Office, 35 N. 100 E., Parowan, Utah, Monday through Thursday between the hours of 9:00 a.m. and 4:30 p.m. and Friday from 9:00 a.m. to 12:00 p.m.
7. Parowan City may grant the Petition and annex the above-described area unless a written lawful protest to the Annexation Petition is filed with the Iron County Clerk, P.O. Box 429, Parowan, UT, 84761, c/o Jon Whittaker, or delivered to the Iron County Clerk's Office located at 68 South 100 East, Parowan, Utah, 84761. A copy of the protest must also be delivered to the Parowan City Recorder at the address noted above on the same date that the protest is filed with the Iron County Clerk. Any protest must be filed as herein state by not later than August 12, 2024.
8. The area proposed for annexation to Parowan City will also automatically be annexed to have Parowan City provide fire protection, and emergency services or law enforcement services, as applicable.
9. The properties proposed for annexation to Parowan City will automatically be withdrawn from Iron County providing fire protection, and emergency services or law enforcement services, as applicable.

Please see the attached annexation plat.

Dated this 15th day of July, 2024.

ANNEXATION PLAT/RECORD OF SURVEY FOR AJM INVESTMENTS LLC

SURVEYOR'S CERTIFICATE

I, the undersigned, being a duly qualified and licensed Surveyor in the State of Missouri, do hereby certify that the foregoing is a true and correct copy of the original plat on file in my office, and that the same has been duly recorded in the public records of the State of Missouri.

DATE: 10/10/2017
SIGNED: [Signature]

ANNEXATION BOUNDARY DESCRIPTION [204.07 AC]

A TRACT OF LAND, more or less, situated in the County of Iron, State of Missouri, and being a part of the original survey of the [Name of Survey], as shown on the plat of said survey, and being more particularly described as follows:

Beginning at the Northwest corner of Section 10 and Northwest corner of Section 11, Township 36 North, Range 10 West, and thence South 89° 15' 00\"/>

NARRATIVE

This annexation was prepared for the purpose of adding the [Name of Property] to the [Name of Survey], and is being filed for record in the public records of the State of Missouri.

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

The [Name of Property] is situated in the [Name of Township], [Name of Range], [Name of County], [Name of State], and is being added to the [Name of Survey] for the purpose of [Name of Purpose].

TECHNICAL MEMORANDUM

TO: Dalla Buckner, P.E.
COPIES: Dan Jessen
FROM: Aaron Anderson, P.E.
DATE: 1/7/2025, Updated 2/19/2025
SUBJECT: Parowan Annexation Water and Sewer Evaluation
JOB NO.: 847-24-01

INTRODUCTION/PURPOSE

Go Civil Engineering (Go Civil) represents the developer (AJM Investments, LLC) of a new proposed annexation area east of Parowan City. The proposed annexation covers approximately 170 acres of undeveloped land and includes a proposed 555 new units to be developed. The developer intends to annex into the city and connect to/utilize the existing potable water and sewer collection system to service the new users. Bowen Collins & Associates (BC&A) recently completed a master plan update for the city's potable water and sewer collection/treatment systems. As part of the master plan update, BC&A developed updated hydraulic computer models for the potable water and sewer collection systems. Go Civil and AJM Investments requested assistance from BC&A to model the proposed utilities and demands associated with the annexation to determine the expected impact of the new development on the city's existing infrastructure. This technical memorandum summarizes the work performed by Bowen Collins & Associates. Note that the modeling carried out in this analysis represents a "skeleton" of the system that follows the general alignment of the major roadway through the annexation area. If the actual proposed development differs significantly from what is included in the model, the results of this study may need to be revisited.

It should be noted that this general area east of Parowan City was included as an area of new growth in the most recent master plan updates. The assumptions made at the time of the master plan update regarding the growth and demands from this area are similar to those that have been recently provided by Go Civil.

SUMMARY OF PROPOSED ANNEXATION

Figure 1 shown on the following page depicts the proposed zoning and densities for the new annexation area. Figure 1 was provided by Go Civil.

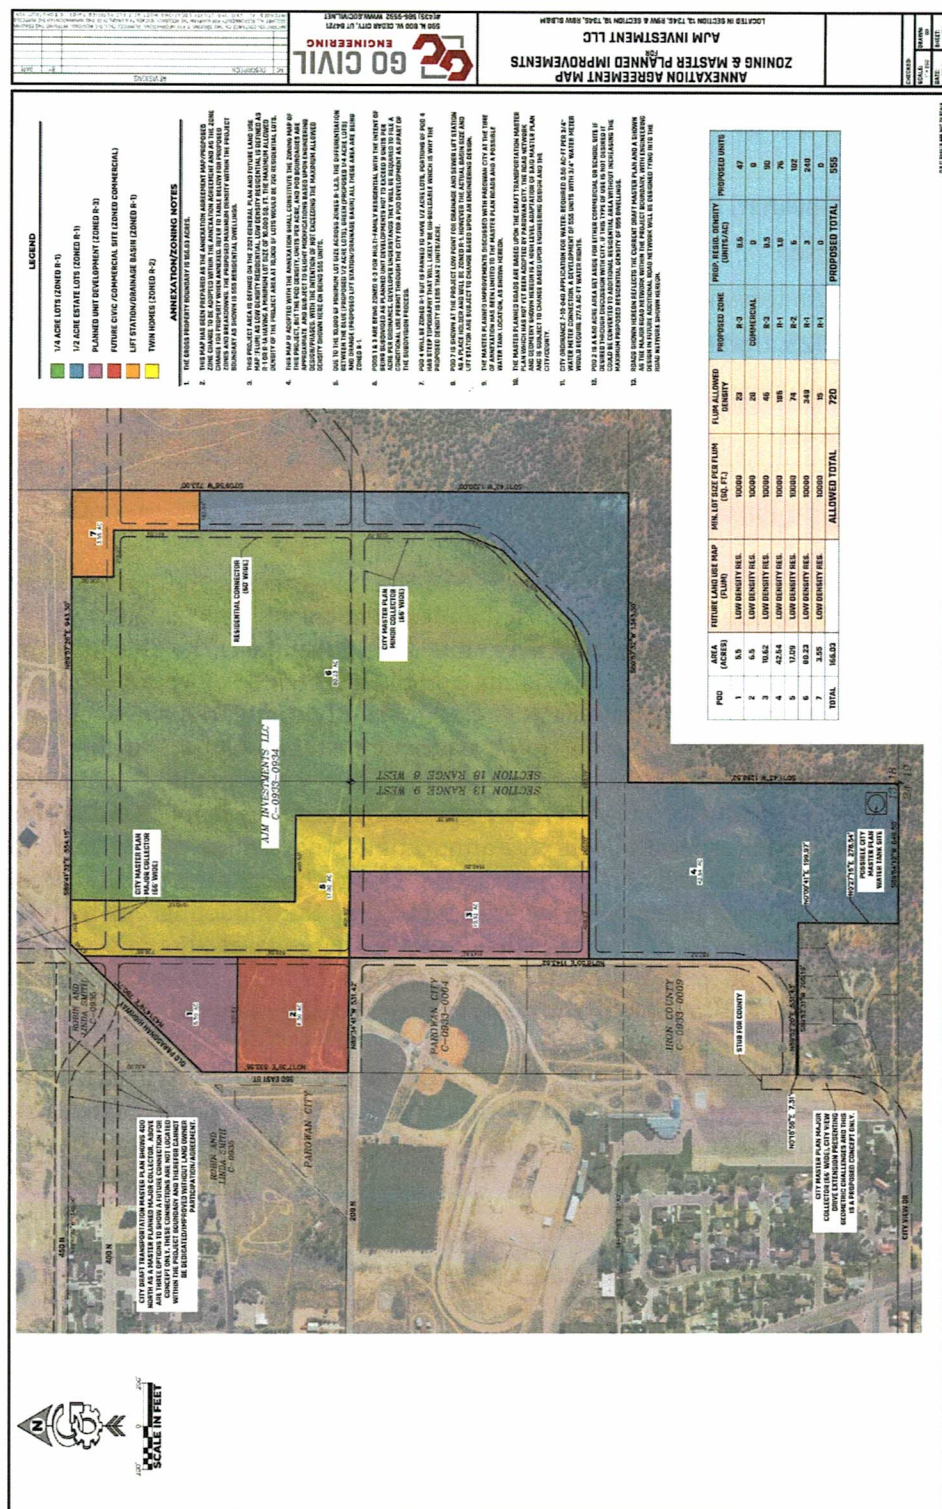

Figure 1. Proposed Annexation Area

Table 1 shown below provides a summary of the proposed units to be developed within the annexation area.

Table 1
Zoning/Density Summary

POD	Area (Acres)	Future Land Use Map (FLUM)	Minimum Lot Size (sq ft)	FLUM Allowed Density	Proposed Zone	Proposed Residential Density (Units/Acre)	Proposed Units
1	5.5	Low Density Residential	10,000	23	R-3	8.6	47
2*	6.5	Low Density Residential	10,000	28	Commercial	0	0
3	10.62	Low Density Residential	10,000	46	R-3	8.5	90
4	42.54	Low Density Residential	10,000	185	R-1	1.8	76
5	17.09	Low Density Residential	10,000	74	R-2	6	102
6	80.23	Low Density Residential	10,000	349	R-1	3	240
7	3.55	Low Density Residential	10,000	15	R-1	0	0
Total	166.03		Allowed Total	720			555

*Area 2 in this report and analysis is shown as commercial. However, for the purposes of this report this area as well as any demands associated with it will be excluded from analysis as its ultimate purpose is not yet determined. **Once the use of this area has been determined, additional analysis is recommended to confirm that its impact on the system does not create the need for additional improvements.**

PROJECTED WATER DEMAND AND SEWER PRODUCTION

Utilizing the densities and overall quantity of development shown in Table 1 in conjunction with the level of service required per Equivalent Residential Unit (ERU) for potable water and sewer service as defined in the current master plans, the following are the calculated water demands and sewer demands for the annexation area (not including the commercial area that has a use that has not been determined).

Potable Water

Average Annual Demand

555 Units x 0.5 acre-feet/year = 277.5 acre-feet/year = 247,736 gallons/day

Peak Day Demand

555 Units x 1,033 gal/day/ERC = 573,315 gallons/day

Peak Hour Demand

573,315 gallons/day x 2.0 = 1,146,630 gallons/day = 797 gallons/minute

Equalization Storage Requirements

555 Units x 449 gallons per ERC = 249,195 gallons

Equalization Storage Requirements

555 Units x 112 gal/day/ERC = 62,160 gallons per day

Fire Flow Storage Requirements

1,500 gpm x 2 hour duration = 180,000 gallons

Sewer***Daily Domestic Flow***

555 (Total Residential Units) X 132.3 gpd (Flow per ERU) = 73,427gpd (Estimated Domestic Flow)

Daily Infiltration

555 (Total Residential Units) X 3.7 gpd (Infiltration per ERU) =
2,054 gpd (Estimated Flow from Infiltration)

Total Daily Added Flow

73,427 gpd (Estimated Domestic Flow) + 2,054 gpd (Estimated Flow from Infiltration)=
75,481 gpd (Total Added Flow)

Total Peak Sewer Flow

73,427 gpd x 2.5 (peaking factor) = 183,568 gpd + 2,054 gpd = 185,622 gpd = 129 gallons/minute

MODELING RESULTS - WATER

The potable water system was modeled using the InfoWater software package from Bentley. The full proposed annexation was modeled in conjunction with both existing and future demands in the existing areas of Parowan City. The results of both simulations were very similar, so this report documents the modeling results of the proposed annexation connected to the existing system.

Per Utah Administrative Code R309-105, the minimum pressures that the distribution system needs to maintain are:

- 40 psi during peak day demand
- 30 psi during peak hour demand
- 20 psi during peak day demand with fire flow

Peak Day Demand

Figure 2 shows the peak day demand pressures in the annexation area with 3 connections made to the Parowan City water system. As shown in the figure, the majority of the annexation area is shown to have pressures exceeding 40 psi under peak day demand conditions. However, as the elevation begins to climb along the south/south east side of the development, pressures begin to drop below the required minimums. Based on the model results, homes located above approximately 6,040' elevation will be difficult to service.

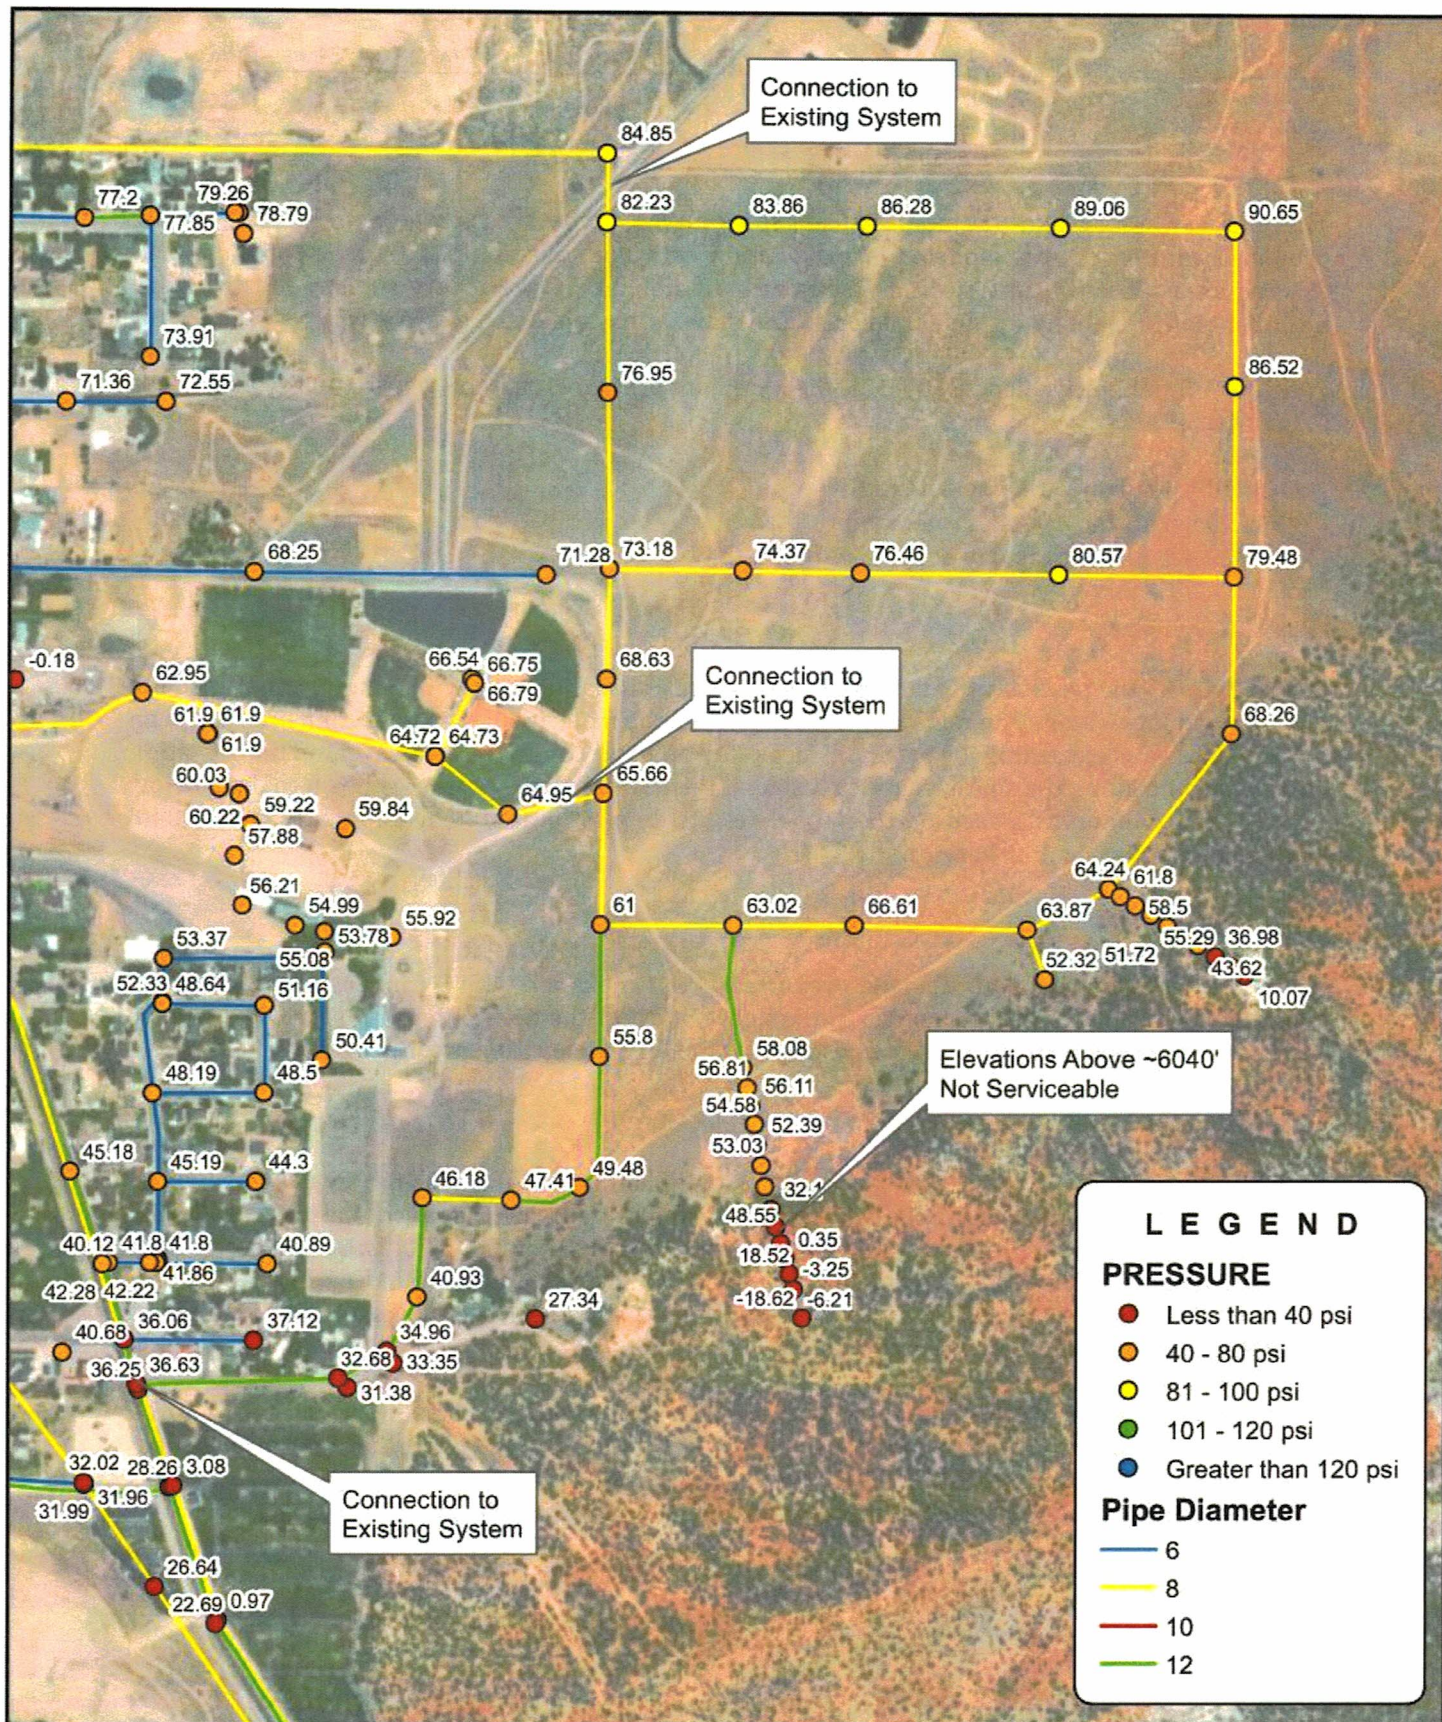

Peak Hour Demand

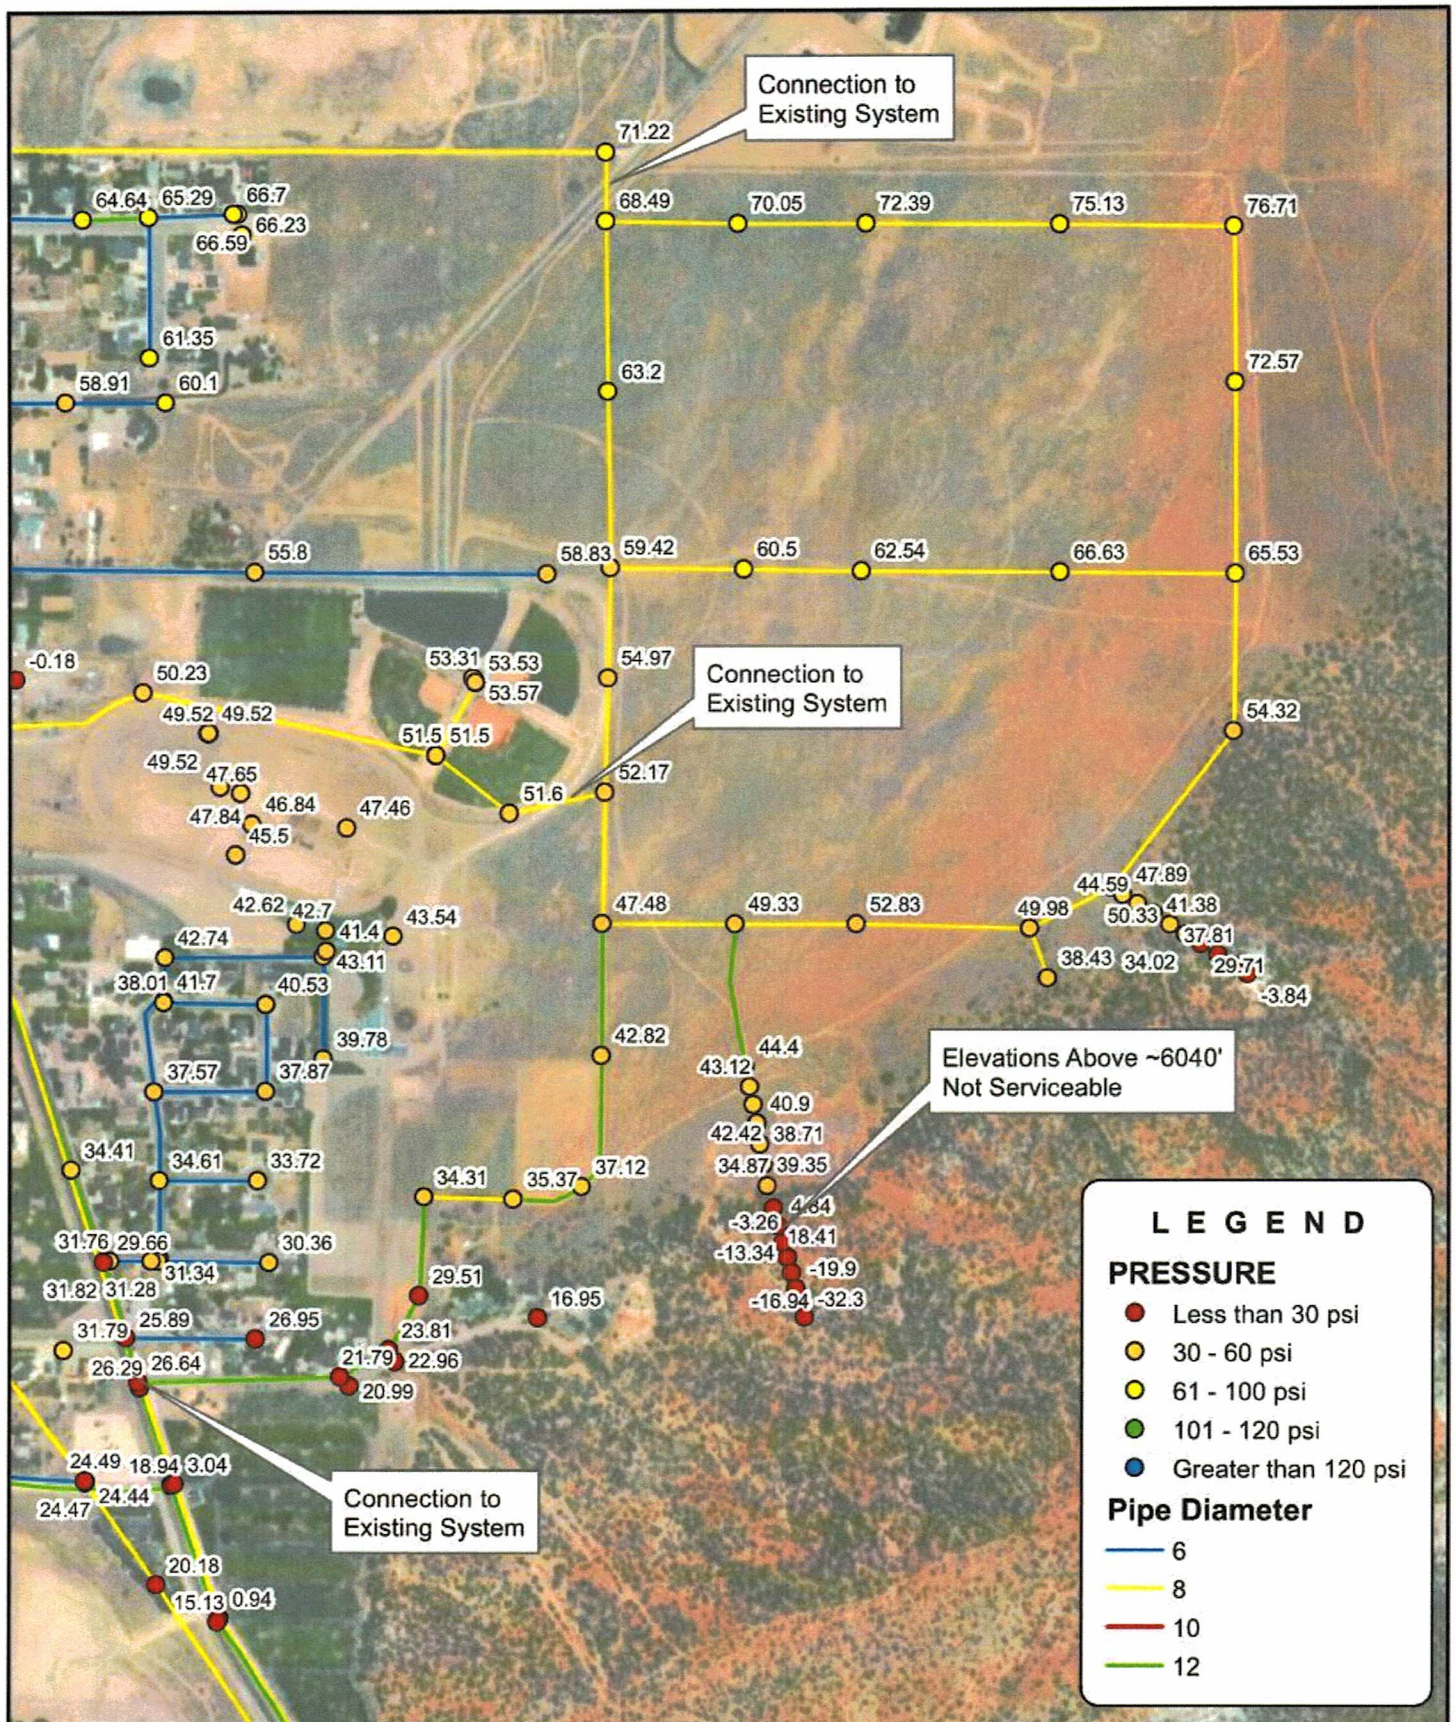

Figure 3 shows the peak hour demand pressure in the annexation with 3 connections made to the Parowan City water system. As shown in the figure, most of the development is serviceable under peak hour conditions (30 psi or greater) except for the higher elevation areas previously mentioned.

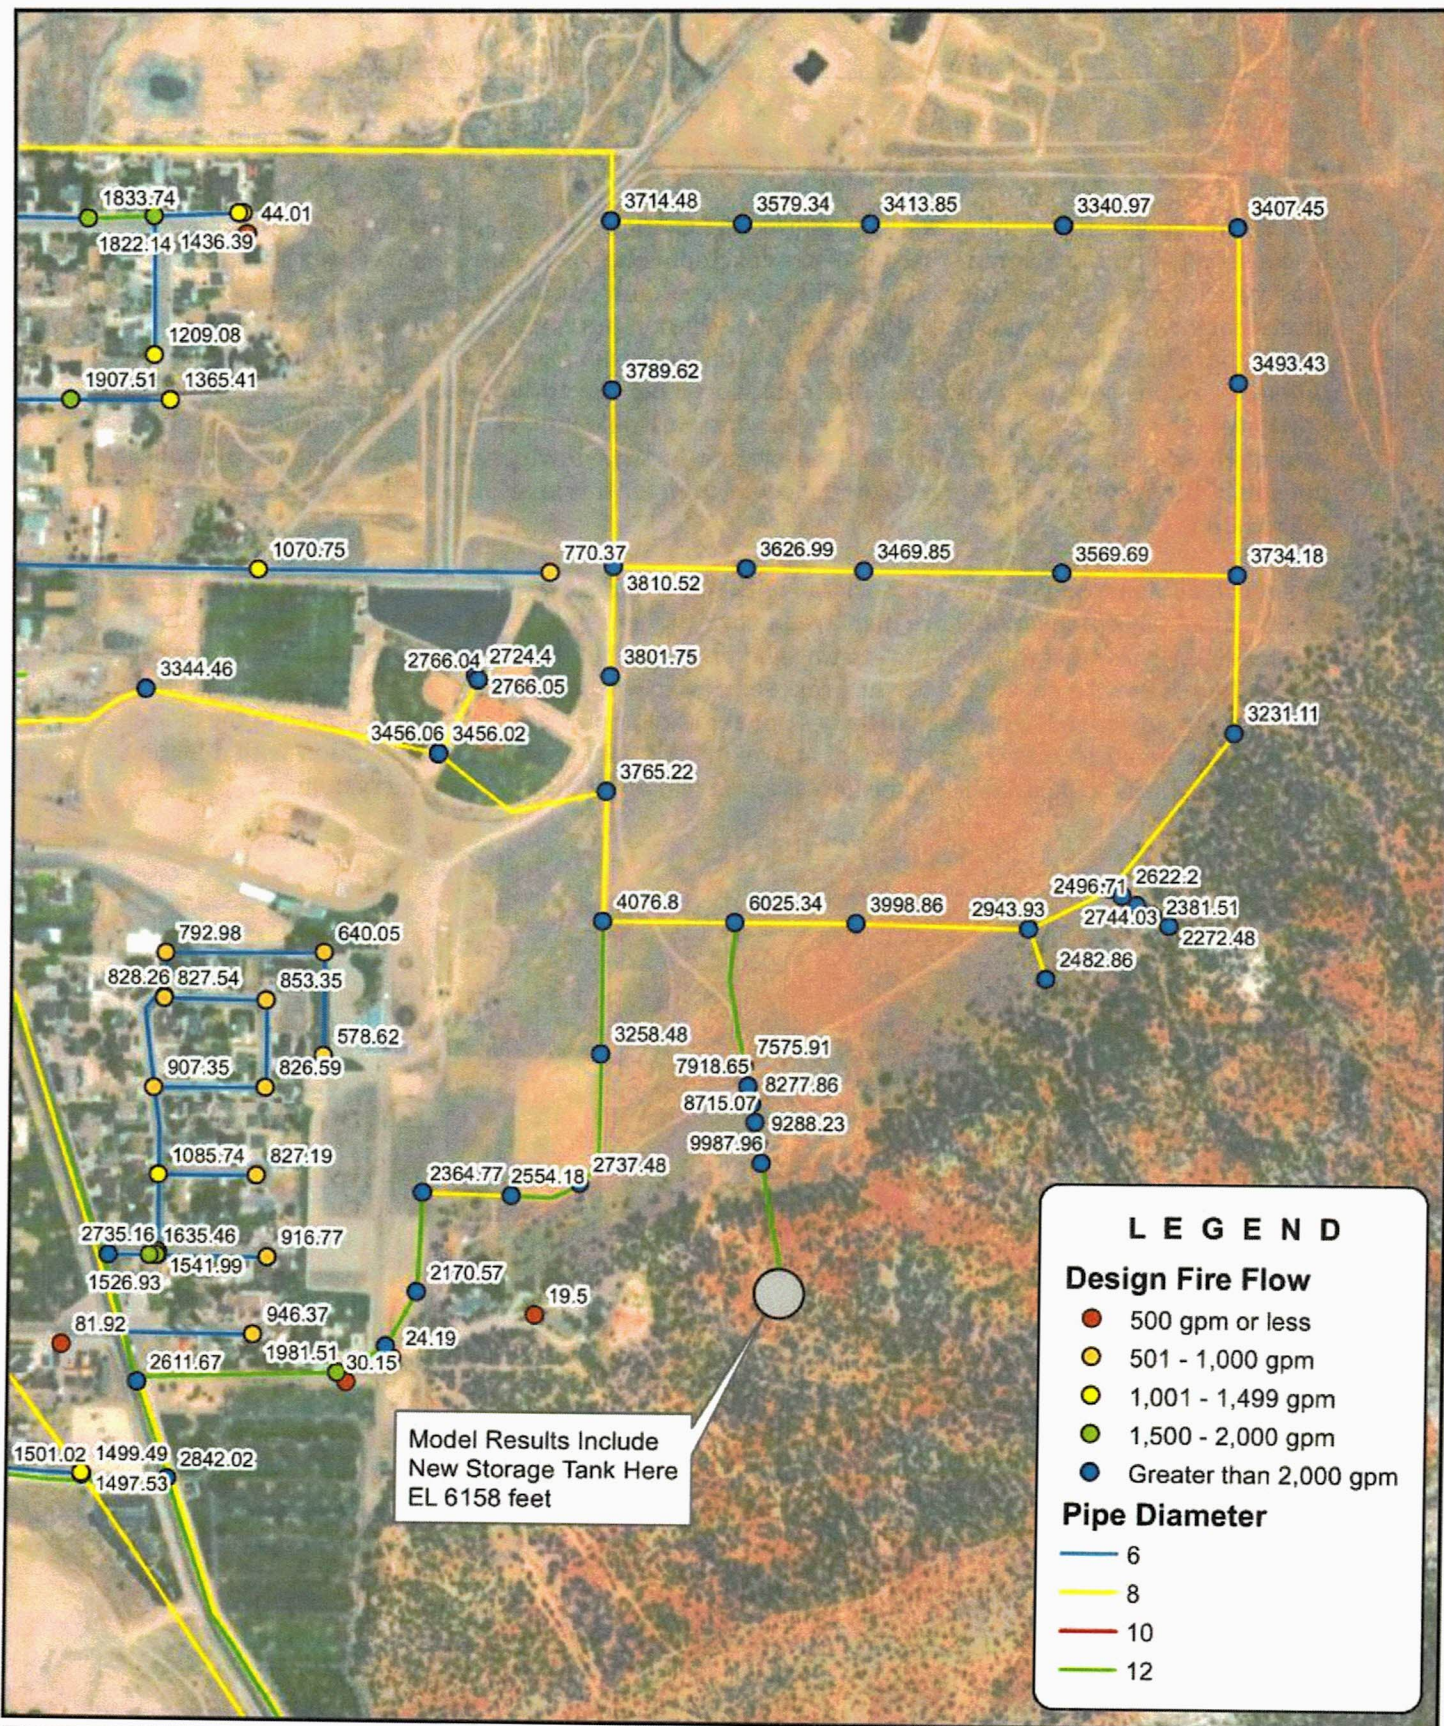

Peak Day Demand with Fire Flow

The city's standard for fire flow capacity at a given point in the system 1,500 gpm. Figure 4 shows the results of the fire flow analysis on the system. The fire flow simulation uses a "critical node" approach to calculate an available fire flow at a model node while still maintaining 20 psi in the distribution system. As shown in Figure 4, expected fire flows in the annexation area around 1,300 – 1,350 gpm. This does not meet the city's current standard, so the local fire authority will need to be consulted as to whether these conditions are acceptable.

Figure 5 simulates the fire flow results for the system with the addition of a new storage tank located at the south end of the annexation area (see Figure 1). As shown in the photo, having the additional tank near the development significantly improves the available fire flow for the system. The tank is set at the same base elevation as the city's other storage tanks (El. 6158').

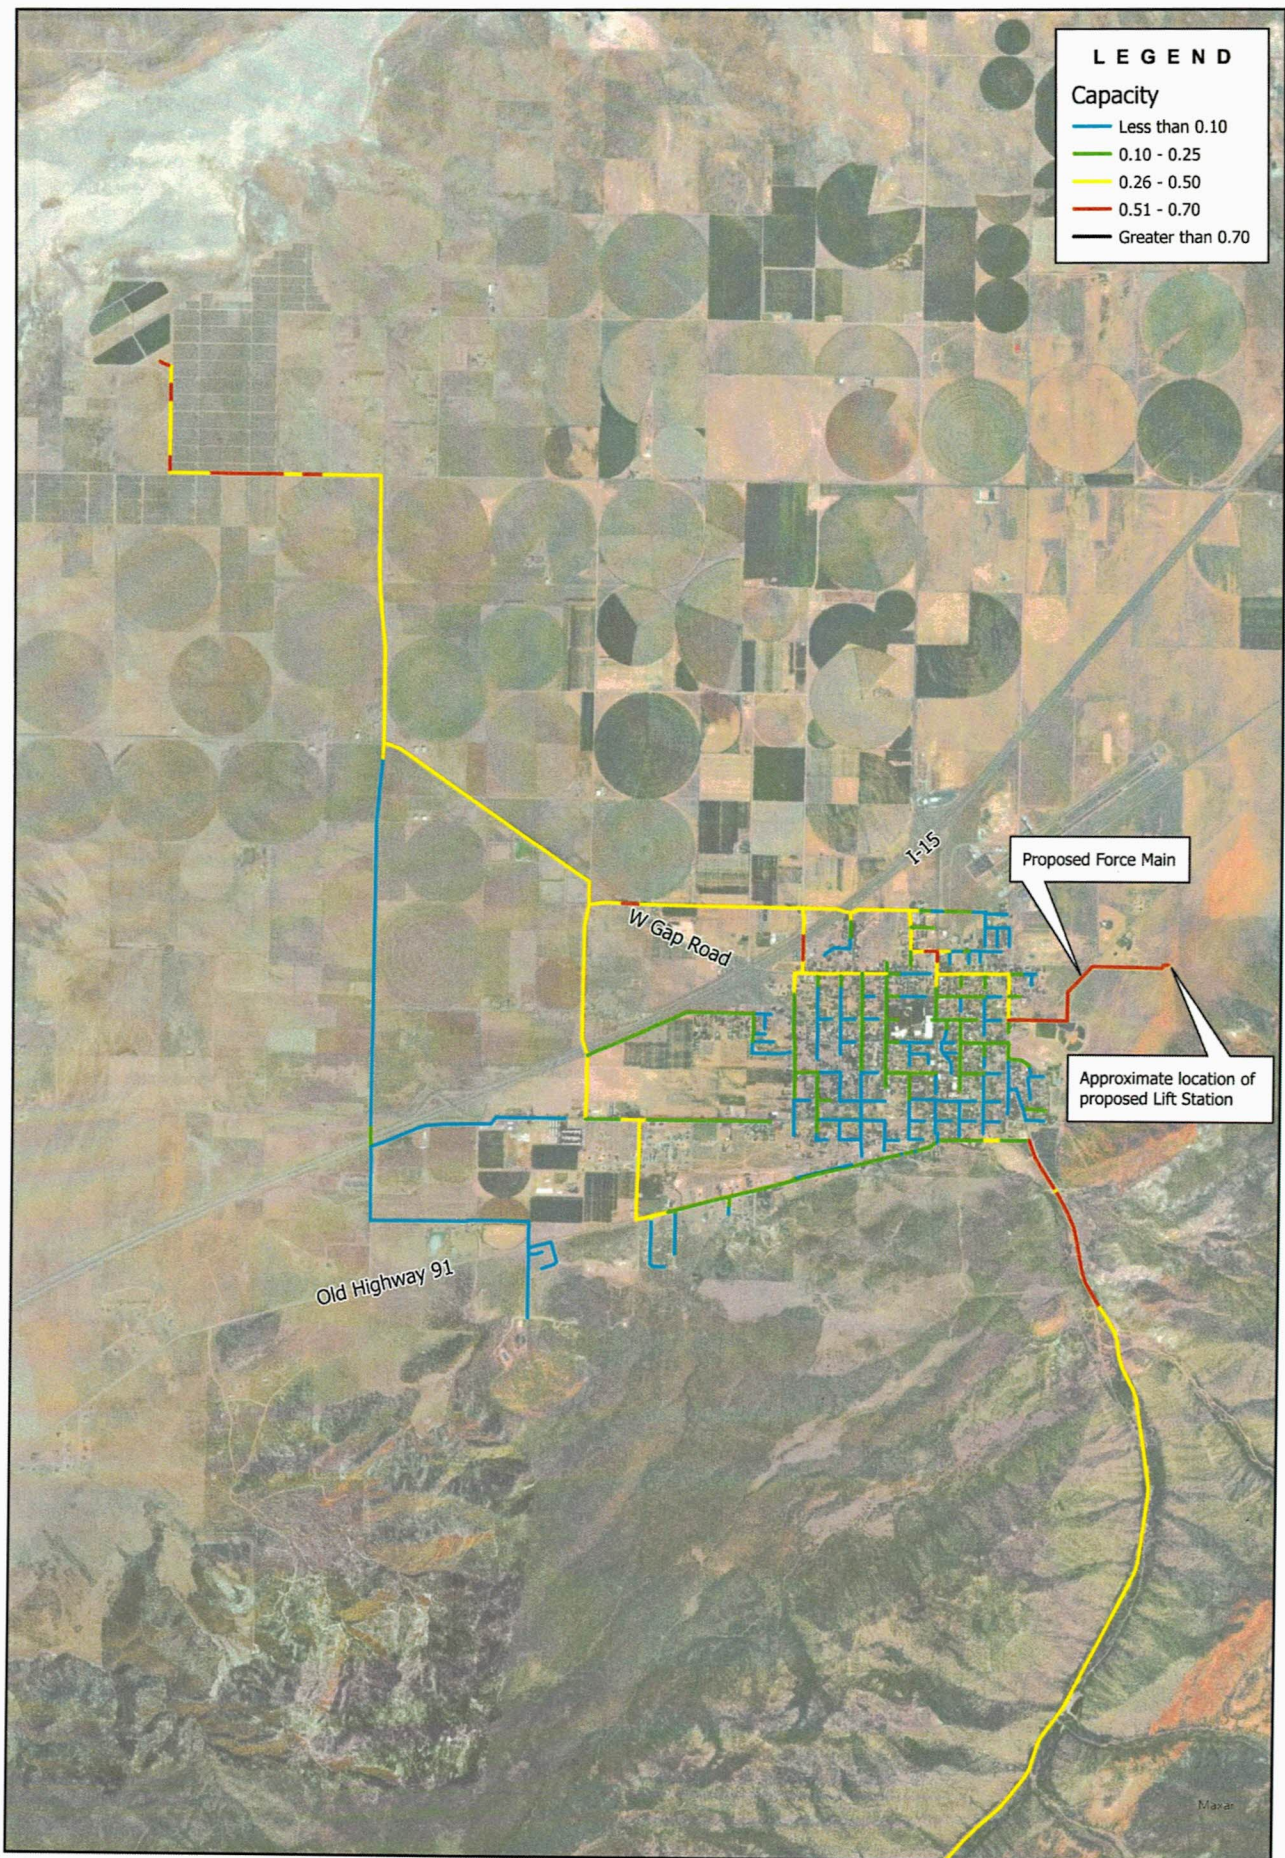

MODELING RESULTS - SEWER

Due to the topography of the area, the proposed annexation will be serviced by a new lift station to be constructed on the northeast corner of the development (see Figure 1). It has been assumed that most or all flows from the annexation will be collected and pumped from this lift station. Through discussions with Parowan City and Go Civil, the location at which the lift station force main will connect into the Parowan City sewer collection system has not been finalized at this point, but a few different options have been identified. To be conservative, the option that would impact the largest portion of the system (i.e. tying into the system where it would impact the most length of sewer pipe) was modeled. Other options tying into the system further downstream would impact a smaller portion of the system. The assumed point of connection for this analysis is at the intersection of 200 N and 300 E.

The results of inserting the flows associated with the proposed development into both the existing and buildout conditions model are displayed below in Figures 6 and 7, respectively. The results of this modeling show that the both the existing and proposed buildout sewer system are able to handle the additional flows associated with the proposed development without additional upgrades beyond what has already been identified in the city's updated sewer master plan. The lift station in the model has been assumed to have a peak flow of approximately 270 gpm. If a pump station with a higher peak flow value is to be used, it will be necessary to reanalyze the effect on the system.

CONCLUSIONS

Modeling results have indicated the following regarding the impact of the proposed annexation on the city's potable water and sewer collection systems:

Potable Water System

- The majority of the proposed annexation is serviceable under peak day and peak hour demands. Elevations above approximately 6,040 feet in elevation will likely not be serviceable (i.e. will not be State minimum pressure requirements).
- It is recommended that a minimum of 3 connections be made from the existing Parowan water system to the proposed annexation. This will provide valuable system looping and help ensure that at least 2 connections are active if one needs to go down for repairs.
- Modeled fire flow capacity throughout most of the development is close to the city's standard, but does not meet the requirement of 1,500 gpm. The local fire authority will need to make a determination as to whether this is acceptable or not. Constructing a new water tank near the subdivision would correct this deficiency.

Sewer Collection System

- The projected sewer flow from the proposed annexation is not anticipated to require any additional upgrades to the sewer collection system beyond what was already identified in the city's updated sewer master plan.

ORDINANCE NO. 2025-12

AN ORDINANCE CONCERNING THE AJM INVESTMENTS LLC ANNEXATION INCLUDING PARCELS: C-0933-0934-0000 CONTAINING 162.73 ACRES, C-0933-0001-0000 CONTAINING 1.8 ACRES, C-0933-0001-0004 CONTAINING .99 ACRES, C-0933-0011-0000 CONTAINING 2.83 ACRES, C-0935-0000-0000 CONTAINING 4.3 ACRES, C-0933-0004-0000 CONTAINING 10.35 ACRES, C-0933-0008-0000 CONTAINING 0.753 ACRES, C-0933-0010-0000 CONTAINING 1.33 ACRES, AND C-0933-0009-0000 CONTAINING 15.68 ACRES. TOTALING 204.07 ACRES

ORDINANCE DATED JUNE 26, 2025

WHEREAS, a majority of the owners of certain real property described below, desire to annex such real property to Parowan City, Utah, said owners being the owners of at least one-third (1/3) in value of said real property as shown by the last assessment roll; and

WHEREAS, said real property consists of approximately 204.07 acres and lies contiguous to the corporate boundaries of Parowan City, Utah and covers a majority of the private land area with the area proposed for annexation; and

WHEREAS, said Petitioners and owners have caused to be filed an executed petition with the City Recorder together with an accurate legal description and plat of the real property which was made under the supervision of a licensed surveyor and which is located within the area proposed for annexation; and

WHEREAS, Parowan City Council accepted the petition for annexation; and within 30 days the City Recorder, with the assistance of the City Attorney, reviewed the petition and certified that the petition meets the requirements for annexation as provided by Utah State Law (Subsections §10-2-403(2), (3), and (4)); and

WHEREAS, a copy of the Petition was provided to Iron County Clerk;

WHEREAS, the annexation does not create an island or larger peninsula than what was previously created and, as such, was approved by Iron County;

WHEREAS, notice was posted within the area proposed for annexation and the unincorporated area within ½ mile of the area proposed for annexation, beginning no later than 10 days after receipt of the notice of certification, where it was most likely to give notice to the residents within, and on the Utah Public Notice Website, as provided by Utah State Law (Subsection § 10-2-406(1)(a) and (b)); and

WHEREAS, within 20 days of receipt of the notice of certification, written notices were mailed to the affected entities, and posted on the Parowan City Website, as proved by Utah State Law (Subsection §10-2-406(c) and (d)); and

WHEREAS, no qualified protests to the annexation petition were initially filed during the period specified; and

WHEREAS, the Petitioners have agreed to be bound to the terms of the annexation agreement dated, June 26, 2025, as a condition of passing this annexation ordinance; and

NOW, THEREFORE, pursuant to Subsection §10-2-4, Utah Code Annotated, the City Council of Parowan City, Utah, hereby adopts and passes the following:

BE IT ORDAINED BY THE CITY COUNCIL OF PAROWAN, UTAH AS FOLLOWS:

ORDINANCE ANNEXING CERTAIN REAL PROPERTY AND EXTENDING THE CORPORATE LIMITS OF PAROWAN, UTAH.

1. The real property more particularly described in Paragraph 2 below, is hereby annexed to Parowan City, Utah, and the corporate limits of Parowan, Utah, are hereby extended accordingly.
2. The real property which is the subject of this Ordinance is described as follows:
A TRACT OF LAND BEING LOTS 2 AND 3 LOCATED IN SECTION 18, TOWNSHIP 34 SOUTH, RANGE 8 WEST, SALT LAKE BASE AND MERIDIAN TOGETHER WITH THE SE1/4NE1/4, NE1/4SE1/4, SE1/4SE1/4 OF SECTION 13, TOWNSHIP 34 SOUTH, RANGE 9 WEST, SALT LAKE BASE AND MERIDIAN, MORE PARTICULARLY DESCRIBED AS FOLLOWS;

COMMENCING AT THE NORTHEAST CORNER OF SECTION 13 AND NORTHWEST CORNER OF SECTION 18 LOCATED ON THE COMMON RANGE LINE; THENCE S00°09'58"W ALONG SAID DocuSign Envelope ID: 1D304636-ED19-4E0F-A9C9-31A77914B97B (Petition for Annexation - Petitioners: _AJM INVESTMENT LLC_) Page 1 of 4 RANGE LINE 1,331.25 FEET TO THE POINT OF BEGINNING BEING THE NORTHWEST CORNER OF LOT 2; THENCE DEPARTING SAID LINE N89°57'26"E 1,343.30 FEET TO THE NORTHEAST CORNER OF LOT 2; THENCE S00°09'58"W 1,331.29 FEET TO THE SOUTHEAST CORNER OF LOT 2; THENCE S00°11'43"W ALONG THE EAST LINE OF LOT 3 1,320.00 FEET TO THE SOUTHEAST CORNER OF LOT 3; THENCE S89°57'32"W ALONG THE SOUTH LINE OF LOT 3 1,343.30 FEET TO THE SOUTHWEST CORNER OF LOT 3 BEING ON THE COMMON RANGE LINE; THENCE S00°11'43"W ALONG SAID RANGE LINE 1,289.52 FEET TO THE SOUTH COMMON CORNER OF SECTION 13 AND 18; THENCE S89°54'12"W ALONG THE SOUTH SECTION LINE OF SECTION 13 1,354.55 FEET TO THE SE1/16TH CORNER; THENCE N00°18'55"E ALONG THE 1/16TH LINE 2,621.76 FEET TO THE CE1/16TH CORNER; THENCE N00°17'39"E ALONG THE 16TH LINE 1,328.56 FEET TO THE E1/16TH CORNER; THENCE S89°41'32"E ALONG THE 1/16TH LINE 1,346.06 FEET TO THE POINT OF BEGINNING.

CONTAINING 204.07 ACRES, MORE OR LESS

3. The zoning map of Parowan City shall be amended to include the real property described above in Paragraph 2.
4. The real property, described in Paragraph 2 above, shall be classified as being Single-Family Residential (R-1) and Multiple-Family Residential (R-2) in accordance with the provision of PCMC 15.24 "Zoning Districts" and Section 10-9a-505, Utah Code Annotated, 1953, as amended.
5. A certified copy of the Ordinance and an original plat setting forth the property so annexed shall be filed with the County Recorder of Iron County, Utah, by the City Recorder.

PASSED AND ADOPTED by the City Council and Mayor of the city of Parowan, Iron County, State of Utah, the 26th day of June 2025.

Exhibit A

PAROWAN CITY NET METERING POLICY

Effective Date: July 1, 2019

Net metering is a billing arrangement where residential and business customers who produce their own energy from renewable sources can get a credit on their electric bills at the wholesale rate for the extra energy that flows back onto our distribution system.

A-1: Availability:

Parowan City ("City") desires to encourage the use of Renewable Resources with Parowan City Electric Customers ("Customer") by making available a meter capable of providing the necessary accounting to allow the Customer to displace electric energy otherwise purchased from the City or to provide electric energy to the City ("Net Meter"). The Net Meter will be available to any electric Customer connected to Parowan City's electric distribution system provided that the Customer installs a solar, wind, or other City-approved renewable generation resource ("Renewable Resource") on the Customer's side of the meter, subject to the Application Provisions.

Parowan City desires to set a cap of 500 installed kilowatts (KW) of Renewable Resources allowed to connect to the City distribution system after which applications for connection will no longer be accepted.

Parowan City also desires to set a cap of 5 KW of installed resource for residential customers with a 200 amp or less rated service panel, and 10 KW of installed resource for residential customers with a service panel rated between 201 and 400 amps.

For business or commercial customer's the maximum allowed installed KW of Renewable Resource will be based on the average KW of the previous 12 months as read by Parowan City's meter. With the maximum installed resource being 10 KW.

A-2: Application Provisions:

A.

1. The Customer must contact Parowan City Power Representative to schedule a Renewable Resource orientation class and site inspection.
2. The Customer must make an application (Exhibit B) to Parowan City and receive approval from the City before installing an interconnected Renewable Resource on their property.
3. The Customer must obtain approval from the Historical Preservation Committee, if renewable resource is located within the jurisdictional boundary of the Parowan Historical Preservation District.
4. The Customer must obtain a building permit for Parowan City issued by the Iron County Building department and supply all information requested by Iron County Building Department.

Parowan City may withhold approval if for any reason the requested interconnection would result in a negative monetary or physical impact on the City's electrical system. The City may approve the agreement if there is no physical negative impact, but may freeze or terminate the rebate portion of this agreement at any time if it is determined to have an adverse monetary impact.

B.

By accepting this Net Metering Policy, the Customer hereby agrees to the following provisions:

1. The monthly electrical output of the Renewable Resource shall not be greater than 120% of the historical maximum monthly energy consumption the location of the Renewable Resource.
2. A Renewable Resource installed by the Customer shall include, at the Customer's expense, all equipment necessary to meet applicable safety, power quality and interconnection requirements established by the National Electric Code (NEC), National Electric Safety Code (NESC) and shall be manufactured and installed to interconnection standards that meet or exceed the Institute of Electrical and Electronics Engineers, Inc. ("IEEE") standard 1547 for Interconnecting Distributed Resource with Electric Power Systems and Underwriters Laboratories Inc. ("UL") standard 1741, Inverters, Converters and Controllers for use in Independent Power Systems.
3. The Customer shall be required to install a manual disconnect that is within 5 feet of the meter location, readily accessible by City personnel and outside of any fenced in area. The disconnect switch shall be lockable and shall be labeled as "Generation Disconnect or Solar PV Disconnect".
4. The City shall install and maintain a new revenue meter for the Customer, at the Customer's expense. In addition, any subsequent revenue meter change necessitated by the Customer, whether because of a decision to stop Net Metering or for any other reason, shall be an expense billed to the Customer at the applicable service rates.
5. By accepting this agreement the Customer releases to the City all renewable energy credits (RECs), solar renewable-energy credits (S-RECs) or other renewable attributes as appropriate based on actual on-site electric generation from the Renewable Resource.
6. The Customer will comply with all City service and utility billing requirements, including payments for applicable monthly electrical base rates and other utility billings, fees and taxes.
7. The Customer will comply with all installation requirements of the city and all building and electric codes of Iron County Building Department.
8. The Customer's facility used for Net Metering shall be equipped with metering equipment, which can measure the flow of electricity in both directions. For residential customer facilities less than 10 kilowatts (kW) in rated capacity, this shall be

accomplished through the use of a single, bi-directional electric revenue meter.

9. The City shall make Net Metering available to eligible customers on a first-come, first-served basis. Single or multiple Net Metering connections to a City owned transformer, which create an imbalance that exceeds 20% of the nameplate, rating may be denied at the City's discretion or, if approved may require system upgrades including additional transformers or other system upgrades at the Customer's expense.
10. Net Metering connections to City facilities above the standard single phase 120/240 volt system shall be reviewed by the City under a separate review and approval process, which may include a system impact study. Renewable Resource connections to transmission lines within the City are prohibited.
11. If the net metering project is installed along with an energy storage system such as batteries, the project shall be subject to an independent review of the plans and interconnection. The Customer shall be responsible for all costs associated with such review.
12. If the Net Metering project requires special engineering studies as determined by the City, the Customer shall be responsible for all costs. An estimate of costs shall be provided by a licensed engineering firm as determined by the City and payment will be made by the Customer, to the City, for the estimated cost before the study is started. Final billing for the study will be trued up upon completion and the Customer shall be billed for any amount above, or their electric account credited, for any amount below the initial estimate.
13. The Customer shall be solely responsible for all work, and costs incurred, for installation and maintenance of the Renewable Resource. All modifications or improvements required to the City's electric system, due to the Customer's installation of facilities, shall be paid for by the Customer.

A-3: Inspection:

Upon approval and installation of a Renewable Resource, but before interconnection of the Net Meter, the City will inspect the Renewable Resource installation and interconnection and approve or disapprove the interconnection. The City will disapprove any final interconnection that is not fully compliant with all requirements rules and standards.

1. The City shall have the right to inspect the Customer's Renewable Resource during reasonable hours and with reasonable prior notice to the Customer. If the City finds that the Customer's Renewable Resource is not in compliance with the requirements of the City's interconnection rules and the standards set forth in this Policy, and noncompliance adversely affects the safety or reliability of the City's facilities or other customers' facilities, the City may require the Customer to disconnect the facility until compliance is achieved.

2. If the City disconnects the Renewable Resource, the Customer shall receive in a timely manner, a written explanation of the disconnection. The Customer shall have the right to correct the situation and petition the City to re-establish an interconnection.

A-4: Energy Rates and Payments:

The Customer shall be subject to the following provisions for service under this Policy:

1. The City shall determine the net electricity produced or consumed by the Customer and the amounts to be billed to Customer during each billing period in accordance with the City's rates and metering practices, which may be amended from time to time
2. If the electricity supplied by the City exceeds the electricity generated by the Customer then the Customer shall be billed for the net electricity supplied by the City at the rate and with the customer charge(s) paid by other customers of the City in the same rate class as the Customer.
3. If the electricity generated by the Customer exceeds consumption and is distributed back to the City during the billing period, then the Customer shall be billed for the base rate paid by other customers of the City in the same rate class, and the city shall credit the Customer's current electric bill for kilowatt-hours at the wholesale rate of 4¢ per kilowatt-hour.
4. On the billing period ending in June 30th of each calendar year any remaining unused kilowatt-hour credit accumulated during the previous year shall be forfeited to the City without any compensation to the Customer-generator.
5. If a home with a Renewable Resource is sold, any remaining credits will be applied to the electrical billing for kWh consumption with any remaining unused credits above the total billing relinquished to the City.
6. Net Metering credit shall only be applied to offset part of or all of a Customer's own electrical requirements at a single metering point. Net Metering credit shall not be applied to multiple meters owned by a single customer at separate locations.
7. This agreement is between the electric Customer and the City. Nothing in this policy allows for the purchase or sale of energy produced by the Customer to or from a third party. Renewable Resources on rental units are not eligible for Net Metering under this policy.
8. If the home is sold, the home purchaser will be required to complete and sign their own Net Metering Policy Agreement (Exhibit C) if they desire to continue on the Net Metering rate. The home will revert back to the standard residential Rate until the Policy Agreement has been executed by the new home owner.
9. The City reserves the right to modify or amend this Policy, upon recommendation of the Parowan City Power Board.

A-5: Liability:

The Customer shall be responsible for any damage caused by the Customer's Renewable Resource to the City's distribution system and other customer facilities. The Customer shall be

responsible for the installation and maintenance of applicable protection equipment, and for any damage caused by improper application, maintenance or faulty equipment. The City will not be liable directly or indirectly for permitting or continuing to allow an attachment of a Renewable Resource, or the acts or omissions of the Customer's Renewable Resource that cause loss or injury, including death, to any third party.

Application for the Customer's Net Metering, within a Home Owners Association (HOA), must be accompanied by a letter of approval of the Net Metering installation, signed by the Chairman of the board at the time of application. The letter must include a copy of the minutes showing a majority vote of approval. The City is not liable for any violation of existing CCR's within an HOA, related to the Customer's installation of a Renewable Resource.

The City, shall not be subject to any liability or damages due to the inability of the City to serve the Customer's load, due to lack of energy from either the City or the Renewable Resource.

Neither the City nor the Customer shall be subject to any liability or claims for damages due to the inability of equipment manufacturers or vendors to provide equipment or repairs essential for the safe operation of the system in a timely manner.

A-6: Forms:

Forms for the Net Metering program are available at the Parowan City office.

PAROWAN CITY ORDINANCE NO. 2025-13

**AN ORDINANCE AMENDING PAROWAN CITY CODE 15.42.101, APPENDIX A – SIGN
REGULATIONS IN THE HISTORIC OVERLAY DISTRICT**

ORDINANCE DATED JUNE 26TH, 2025

WHEREAS, Parowan City has established a Historic Preservation Ordinance and Overlay District to protect and enhance the historic character of the community; and

WHEREAS, Appendix A of Parowan City Code 15.42.101 provides design guidelines to ensure new development, signage, and architectural features are consistent with the vision and values of the Historic Overlay District; and

WHEREAS, the Parowan Historic Preservation Committee and Planning Commission have recommended modifications to the sign regulations in Appendix A to provide greater flexibility for property owners and businesses, while preserving the integrity and aesthetics of the historic district; and

WHEREAS, the City Council finds that delegating review and approval of proposed signage to the Historic Preservation Committee, rather than imposing rigid dimensional limitations, will better support business development, context-sensitive design, and the long-term goals of historic preservation; and

WHEREAS, public notice has been provided and all required procedures for amending the land use code have been followed in accordance with Utah Code § 10-9a-501 et seq.;

NOW, THEREFORE, BE IT ORDAINED BY THE PAROWAN CITY COUNCIL, UTAH AS FOLLOWS:

SECTION 1. AMENDMENT.

Parowan City Code 15.42.101, Appendix A, Section 11 (“Sign Regulations – Commercial Zones”) is hereby amended to read as follows:

11. Sign Regulations – Commercial Zones

Permitted signs are as follows:

- a. Wall & Projecting signs shall be submitted to the Historic Preservation Committee for review and approval prior to installation and shall adhere to the following requirements:
 1. Wall signs, either attached or painted, shall not rise above the roofline nor project more than eighteen inches (18") from the wall;
 2. Projecting signs shall not project more than four feet (4') from the building. Signs projecting over the public right of way must have a minimum ground clearance of ten feet (10').
- b. Awning signs must have a minimum ground clearance of ten feet (10'), and shiny, "Day-Glo" fluorescent or brilliant luminescent colors are not permitted.
- c. Freestanding Pole Sign & Low-Profile Sign: One freestanding pole sign or low profile monument type sign may be allowed for each parcel of property or commercial complex, provided the following standards are met:
 1. Low profile monument type signs which utilize carved wood, etched/sandblasted stone or engraved metal and do not exceed six feet (6') in height and are no more than twenty-four (24) square feet;
 2. Pole signs, provided the support pole is located on private property and the sign does not exceed twenty feet (20') in height, nor exceed twenty-four (24) square feet in area. Sign face may project over the public right of way, provided there is a minimum clearance of ten feet (10') from ground to the sign and sign face does not project closer than eight feet (8') to back of curb.
- d. Color of Signs:
 1. Painted signs should be in subdued earth tone colors only, "Day-Glo" or fluorescent colors are not permitted. Electric signs, are permitted.
- e. Prohibited Signs:
 1. Roof signs or any sign projecting above the roofline.
 2. Flashing signs, including any sign or device in which the artificial light is not maintained stationary and constant in intensity and color at all times when in use.
 3. Permanent signs made of cardboard, paper, canvas or similar impermanent material.
 4. Awnings with a shiny or wet look are not appropriate in the historical district.

SECTION 2. EFFECTIVE DATE.

This Ordinance shall become effective immediately upon publication or posting as required by Utah law.

PASSED AND ADOPTED by the Parowan City Council this 26TH day of June, 2025.
