#### **Purpose of Public Notice**

The Utah Department of Environmental Quality (DEQ) is soliciting comments on the request to renew a ground water discharge permit as described below. The ground water discharge permit is issued by the Director of the Division of Water Quality under authority of the Utah Water Quality Act, Section 19-5-106(g) Utah Code Ann. 1953, as amended and Utah Administrative Code R317-6.

#### **Permit information**

Permittee Name: Kennecott Utah Copper LLC

Mailing Address: 4700 Daybreak Parkway  
South Jordan, UT 84009

Facility Location: The facility is located in Magna, UT

Kennecott Utah Copper operates process water containment and pumping facilities that route process water for Kennecott Copper operations. These facilities are located at the north end of the Oquirrh Mountains near the historic and decommissioned Utah Power Plant and assist in the production of copper from copper ore mined in the Bingham Mine. The proposed renewed ground water permit incorporates best management practices for water handling facilities and establishes protection limits for ground water quality.
