Zoom Attendance:

Roll Call: Randy Strate, Marty McCain, Ken Krogue, Chris Anderson, Courtney Syme, Paul Penrod

Review of 2024-2025 Amended Budget

Dave Oxman stated that the overall budget change was five percent minus some capital funds transfer. The transfer was to maintain State compliance for funds allowed on hand in the general fund. On page six of the amended budget, it shows the transfer of \$200,000 to capital funds. This will most likely be used this coming year because a big portion of the funds are for roads which didn't get used this year. There were changes in the Fire Department for some equipment and fire public safety for which grants were used to cover the expenses. On page four of the revised budget is where that is located. There was also some maintenance work done on the old Junior high building, \$18,000 was used to cover this expense.

Mayor Anderson stated that the CIB awarded the expansion to our fire station a 100% grant. This award does exclude the equipment needed for the fire station. Mayor Anderson stated that he met with the Division of Water Quality in connection with the design advance for the sewer project. The \$285,00 loan was converted into a grant.

Public Comment

Phillip Wood asked if the fire hydrants were a part of the budget. Not all of the hydrants have the pressure needed. Mayor Anderson stated that part of the water project was to address the pressure in the fire hydrants.

Adjournment: 6:37
