

CHANGE ORDER 1
to the
CONTRACT
between
GREATER SALT LAKE MUNICIPAL SERVICES DISTRICT
and
LYNDON JONES CONSTRUCTION, INC.
Kearns 4015 W Bridge Replacement

THIS WORK ORDER AMENDMENT ('Amendment') is made and entered into as of the _____ day of _____, 2025, to the Agreement between the GREATER SALT LAKE MUNICIPAL SERVICES DISTRICT (the 'MSD'), a body corporate and politic of the State of Utah, and Lyndon Jones Construction, Inc. (the 'Contractor'). MSD and Contractor are jointly referred to below as "the Parties."

R E C I T A L S:

WHEREAS, the MSD desires to add construction scope related to the Kearns 4015 W Bridge Replacement ("Project");

WHEREAS, the MSD developed a work order, which contains the projected scope of work, time schedule, and price for the construction;

WHEREAS, the MSD then negotiated with the Contractor to determine a fair and reasonable scope of work and cost to perform the engineering services;

WHEREAS, the parties now desire to amend the Agreement to add the Project to the Contractor's scope of work;

A M E N D M E N T:

NOW, THEREFORE, in consideration of the mutual promises set forth herein, the parties agree to amend that certain Amendment, referenced above, as follows:

1. In a manner consistent with Article VI of the Agreement, the MSD shall pay the Contractor for performance of the services as detailed in the Scope of Work, attached hereto as Exhibit 1. Payment shall be made for actual work completed with the total payment not to exceed \$1,651,338.15 without further amendment. This reflects an additional \$275,443.64 from the most recent contract.
2. Contractor shall perform all services within the time periods stated in Exhibit 1. This extends the original completion date by 57 calendar days.
3. All other terms, conditions and exhibits set forth in the original Agreement and the Amendments, not affected by the express terms of this document, shall remain in full force and effect.

Original Contract Amount	\$1,375,894.51	150	Cal. Days
Field Order No. 1	\$11,282.23	0	Cal. Days
Field Order No. 2	\$27,846.27	16	Cal. Days
Field Order No. 3	\$87,140.31	41	Cal. Days
<u>Field Order No. 4</u>	<u>\$149,174.83</u>	<u>0</u>	<u>Cal. Days</u>
Adjusted Contract Amount	\$1,651,338.15	207	Cal. Days

IN WITNESS WHEREOF, each of the parties execute this Agreement as the day and year specified above.

GREATER SALT LAKE MUNICIPAL SERVICES
DISTRICT (MSD):

FIELD ORDER

Order No: 1

Project Title: Kearns 4015 W Bridge Replace

Contract Date: 4/17/2024

Project No: MC220009

Contract No: MSD-ENG-25106

Contractor: Lyndon Jones

You are hereby authorized and instructed to affect the following modifications of the contract for the forgoing named project:
During construction activities on the project, it was discovered that soft and unsuitable subgrade soil was present at the proposed bottom grade of the culvert floor. Additional 12" depth excavation would be completed by the contractor to reach more desirable soil conditions and ensure that the structure sites upon a strong subgrade foundation.

Bid Item	Description	Quantity	Unit	Unit Cost	Total
1	Roadway Excavation	95.41	CY	61.15	\$ 5,834.32
2	Granular Borrow	95.41	CY	57.1	\$ 5,447.91
				Change	\$ 11,282.23

Contract Amount: \$1,375,894.51

Previous Change Order: \$0.00

Previous Total: \$1,375,894.51

Current Change Order: \$11,282.23

NEW TOTAL \$1,387,176.74

Maximum Cost \$ 11,282.23

or minimum credit \$ _____

It is expected that this order will impact the time of completion by approximately 0 days (No change in contract time is authorized by this document)

This form shall be used only for the issuance of emergency instructions to the Contractor where the time required for preparation and execution of a formal Change Order or Contingency Allowance would result in delay or stoppage of the work, or would allow a hazardous condition to exist. A duly authorized Change Order or Contingency Allowance shall replace this Field Order as soon as possible and shall bear appropriate reference to this Field Order.

FIELD ORDER

Order No: 2

Project Title: Kearns 4015 W Bridge Replace

Contract Date: 4/17/2024

Project No: MC220009

Contract No: MSD-ENG-25106

Contractor: Lyndon Jones

You are hereby authorized and instructed to affect the following modifications of the contract for the forgoing named project:
Cost for the added storm drain and removal items.

Bid Item	Description	Quantity	Unit	Unit Cost	Total
1	Haul Off and Dispose Existing Channel Material	289	TON	51.45	\$ 14,869.05
2	Furnish & Install Clay Liner Material	289	TON	17.45	\$ 5,043.05
3	Remove Existing Strom Drain Pipe	96	LF	8.35	\$ 801.60
4	Reconstruct Sewer Manhole	2	EA	2272.75	\$ 4,545.50
5	Remove Sidewalk	27.33	SY	9.15	\$ 250.07
6	Concrete Flatwork, 4" Thick	246	SF	9.5	\$ 2,337.00

Change \$ 27,846.27

Maximum Cost \$ 27,846.27

or minimum credit \$ _____

It is expected that this order will impact the time of completion by approximately 16 days (No change in contract time is authorized by this document)

This form shall be used only for the issuance of emergency instructions to the Contractor where the time required for preparation and execution of a formal Change Order or Contingency Allowance would result in delay or stoppage of the work, or would allow a hazardous condition to exist. A duly authorized Change Order or Contingency Allowance shall replace this Field Order as soon as possible and shall bear appropriate reference to this Field Order.

FIELD ORDER

Order No: 4

Project Title: Kearns 4015 W Bridge Replace

Contract Date: 4/17/2024

Project No: MC220009

Contract No: MSD-ENG-25106

Contractor: Lyndon Jones

You are hereby authorized and instructed to affect the following modifications of the contract for the forgoing named project:

During construction activities on this project, several items needed to be over-run from the original bid quantity for various reasons. The purpose of this Field Order is to organize, quantify, and justify these overruns. This Field Order will also deduct several item quantities that were replaced, or were otherwise not required to complete the project in the field. Overall, 20 different bid items were over-run, including roadway excavation, removal items, granular borrow and other backfill materials, and concrete flatwork items. Severe soft spots were also encountered along the west side of the project footprint on 4715 S, for which the Borrow Soft Spot Repair (Contingency) item was utilized and negotiated as an increase to the existing bid quantity of 30 cubic yards. The other notable over-run item include Granular Borrow, which was 1,318 cubic yards above the estimated quantity of 1,117. Over the course of the project, additional road base material was brought to the site and installed in various locations to repair soft spots and ensure proper finish grading for the roadway, structure, utilities, and other infrastructure were installed per plan and in accordance with project and local standards and specifications. The material tickets were tracked throughout the project, and the road base materials that are billed separately along with items such as flatwork or curb & gutter were deducted from the total. Since soft spot repair would have become uneconomical at the bid price, the remaining overrun quantity was agreed to be tracked and quantified at the lower price of the Granular Borrow Bid Item. There were also various areas where concrete curb & gutter and flatwork needed to be removed and re-installed to facilitate the work detailed in Field Order #3, especially around the new irrigation pipe that was installed in July 2025. Field measurements for HMA placement were verified with the contractor, requiring the plan quantity to be adjusted along with uniform 6" thick section of road base that was installed underneath all new pavement areas. In many locations throughout the roadway, the road base section will be thicker than 6", allowing for a more robust structural road section that will last longer and require less maintenance. Along with the various overruns, a total of -\$31,999.68 will be deducted from various bid quantities that were not used during the construction phase.
