TITLE:

2026 Draft Tentative Budget Work Session

AGENDA ITEM TYPE:

Discussion

RECOMMENDATION:

Informational item for discussion

BACKGROUND:

Board Policy 2.3 Budget and the Utah Public Transit District Act require that the Executive Director of the Authority develop and present the annual Tentative Budget to the Board of Trustees for discussion and approval. Statute also requires that the Executive Director and the Board of Trustees consult with the UTA Local Advisory Council regarding the development and approval of the Authority's annual budget.

DISCUSSION:

Executive Director Jay Fox has prepared a Draft Tentative Budget for discussion with the Board of Trustees in preparation for further consultation with the Local Advisory Council and subsequent Board approval. Topics related to and affecting the 2026 Operating and Capital Budgets will be discussed over the course of multiple days of Budget Work Sessions. Topics will include, but are not limited to the following:

- 2026 Annual Service Plan
- Service Costs Determination
- 2026-2030 5-Year Capital Plan
- Capital Technical Budget Adjustments
- 2026 Budget Overview
- 2025 Initiatives Update
- Key Budget Strategies
- Specific Chief Executive Office Topics
 - Chief Finance Office (including Fares)
 - Chief Planning & Engagement Office
 - Chief Enterprise Strategy Office

Section 1: Introduction

Message from the Executive Director

U T A

669 West 200 South

Salt Lake City, UT 84101

Dear Trustees,

I am pleased to share with you the DRAFT tentative 2026 budget in advance of our August budget workshop sessions. This early step is designed to provide you with ample time to review and reflect upon these documents and ultimately provide for focused and productive workshop sessions to address your questions and feedback.

This tentative 2026 budget is aligned with our 2030 strategic priorities and builds upon the strong momentum we've achieved so far in 2025, including executing a successful April Change Day, increasing ski service ridership, completing the UTA Experience, rolling out UTA's economic impacts campaign, and improving our PR sentiment score.

Throughout the 2026 budget preparation process, we have remained committed to fiscal responsibility, while ensuring that UTA continues to fulfill and deliver on its baseline services, all under the umbrella of carefully evaluating financial sustainability.

We're excited to highlight a significant advancement in our Five-Year Service Plan. The proposed 2026 budget accelerates the launch of the MVX BRT, thanks to funding support from our state and federal partners. This enhancement reflects our dedication to delivering meaningful service improvements to our community.

In setting priorities for the 2026 budget, we have focused on:

- Critical expenses related to safety, compliance, and risk management
- Debt service obligations
- Essential activities enabling delivery of the proposed 2026 annual service plan
- Vital capital investments to sustain our system and support long-term growth

The entire executive team values your partnership, and we collectively look forward to collaborating closely during the upcoming budget workshop sessions. Your insights are instrumental as we strive to improve this process for the years ahead.

Thank you for your ongoing trust and support.

Sincerely,

Jay M. Fox
Executive Director

Assumptions

The key assumptions in the 2026 Draft Tentative Budget are provided below:

Operating Expenses:

- Labor
 - 3% Bargaining
 - 3% Admin
- Fringe
 - 5% Bargaining
 - 9% Admin
- Parts – 2.5%
- Fuel:
 - Diesel – \$3.45
 - Gasoline – \$3.15
 - CNG DGE* – \$2.15
- Other Expense – 2.1%

Revenues:

- Sales Tax – 2.96%

**Diesel Gallon Equivalent*

Labor rate increases for 2026 are not included in department budgets. Instead, an \$8 million labor allowance has been included in the Non-Departmental budget.

UTA contracts with the Economic Development Unit at the University of Utah to generate sales tax forecasts. The 2026 Tentative Budget was developed during a time of increasing ridership, easing inflation and economic uncertainty. Consumer spending is seen as slowing somewhat and shifting away from discretionary spending.

This Budget and 5-year plan include assumptions from the University's March 2025 forecast.

- Board Office Assistant: 2025 Technical Budget Adjustment annualization
- Enterprise Strategy career ladder adjustments
- Operations redistribution of budget to wage & fringe expense
 - The Chief Operations Office is requesting an increase to Operator FTE of 71 FTE. Twenty (20) of these FTE are associated with April 2026 activation of the Midvalley Express (MVX). The remaining fifty-one (51) FTE are associated with: maintained/improved working conditions and corrections to understaffing. Our Sustainable Service Delivery System work initially focused on Salt Lake Service Unit, Mt. Ogden, Timpanogos and Special Services need additional focus on working conditions to bring them closer to Salt Lake.

2026 Budget Addition Business Case & Results

As part of the 2026 budget process, submittals for new budget requests included a section outlining the business need for the addition, as well as the expected measures of success. Below is a summary of the additional budget requests included in the draft proposed tentative budget.

Board of Trustees	Business Needs	Expected Success
6701: Board Manager Travel, Conference, & Meetings	New FTE in 12/2024 but no budget added for this travel and conferences.	Engagement and activation of local elected officials in collaborative solutions with UTA and as an independent advocate for UTA priorities.
6701: Local/State Government Engagement	Addition of local/state government engagement strategies (meetings, roundtables, tours, events).	Engagement and activation of state and local officials as supporters and advocates of UTA initiatives.
6701: Political Consultants Renewal	Four Federal/State lobbyist contracts are being renewed Fall 2025 and we anticipate rate increases.	Ability to procure qualified and influential consultants able to help move UTA's political and policy priorities forward.

7801: Local Advisory Council (LAC) Member Compensation	The state's administrative rules have increased the rate for Boards/Commission compensation.	Meeting requirements in UTA's Bylaws to compensate LAC members in alignment with state administrative rules.
7801: Travel	2025 costs YTD have been 10-20% more than prior years for the same travel; requesting 15% increase.	Managing UTA related travel within an approved budget for Trustee and Government Relations staff to engage in APTA Conferences and other targeted transit meetings.
Capital Services		
6850: Part-Time Environmental Compliance Administrator	This part-time position would help ensure environmental regulatory compliance and avoid violations.	Zero corrective action plans associated with environmental regulations and zero regulatory violations.
Executive Director		
1400: Consulting Fees	Must revisit the strategic plan per state statute. Additional consultant support is often needed throughout the year.	Strategic Plan is updated. ED office work continues and is supported on projects that arise mid-year.
1400: Compliance Manager	Addresses compliance needs at UTA. May be moved to another department after conducting assessment in 2025.	Meet increasing agency compliance oversight needs.
9500: 2 Roadway Worker Protection Specialists in Safety Dept	New regulatory requirements increase workload (FTA 49 CFR Part 671).	Implementation and approval from the State Safety Officer on 49 CFR Part 671.
People		
7800: Drug & Alcohol Specialist	The workload required to maintain federal compliance necessitates an additional full-time position.	FTA, FRA and UDOT audit compliance achieved in 2026 with no major findings.
Planning & Engagement		
6200: Planning Study funding for 2027-2054 Long Range Transit Plan	ICE for next iteration of LRTP is \$700,000. Trustees must adopt the LRTP by mid-2027 to align w/ RTPs.	The UTA Long Range Transit Plan is the agency's 30 year guiding document. The LRTP supports all UTA strategic objectives and values.
6650: Matching funds for UDOT funded research	The funds requested match UDOT and outside research funds. UTA has been participating in this program for almost 10 years or longer. Past studies include: Sugar House and the University of Utah Redline land use change studies.	Development of multiple research studies. Currently \$40,000 is budgeted. The request is to increase the budget to \$80,000.

MVX: Midvalley Express Opening

Midvalley Express is a 7-mile bus route that connects local destinations and planned developments across Murray, Taylorsville, and West Valley City.

MVX will:

- Provide efficient, direct transit to destinations between Murray Central Station and West Valley Central Station
- Improve transit accessibility, frequency, and visibility
- Enhance local economy by connecting riders to regional destinations and planned developments
- Satisfy transit service demands with rising populations and Salt Lake Community College student enrollment

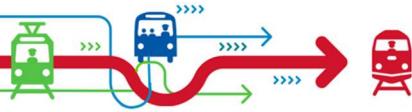

UTA plans to open the MVX BRT bus route in April of 2026. This addition of this route and adjustments to associated routes will add a total of +28,000 hours and +433,000 miles of service annually at an estimated budget of \$2.9 million.

1. Introduction

The Annual Service Plan serves as the Utah Transit Authority's (UTA) formal process for planning, evaluating, and approving annual modifications to the agency's transit services. The Annual Service Plan ensures that UTA delivers responsive, efficient, and equitable service changes aligned with strategic goals, community needs, and resource availability.

1.1. Purpose

The purpose of the Annual Service Plan is to:

- Identify, develop, and document proposed annual changes to UTA's Baseline Service for implementation on scheduled Change Days.
- Ensure all proposed service changes are operationally feasible and financially sustainable through alignment with the annual budget process.
- Maintain consistency with the Five-Year Service Plan, while allowing for timely adjustments based on new information, ridership trends, community input, or funding changes.
- Meet all federal compliance requirements, including conducting public hearings and performing Title VI Service Equity Analyses for all Major Service Changes.
- Facilitate transparent decision-making by requiring Board of Trustees approval for the plan, any amendments, and associated Title VI findings.

1.2. Scope

The Annual Service Plan includes:

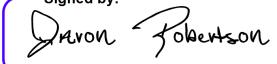

- A review and update of the most recent Five-Year Service Plan to identify near-term service modifications.
- Detailed service information for each proposed service change.
- A resolution by the UTA Board of Trustees to adopt the Annual Service Plan and authorize implementation of approved changes.

April 2026 Change Day	4/12/2026	Planned Service Changes
August Change Day	8/16/2026	No Planned Service Changes
November Change Day	11/22/2026	Planned Service Changes

UTA conducts major and minor service and schedule adjustments three times per year. Generally, major service changes take place during the April Change Day. Potential schedule changes and adjustments are identified from several sources, evaluated, and selected for inclusion in each Change Day by UTA's Service Delivery Unit.

12. Planned Service Disruptions

Event Service has been developed based on currently known events. Additional service adjustments may be needed as new or unforeseen events arise throughout the year.

12.1. Major Events

A Major Event is an event where UTA needs to surge service levels to provide sufficient capacity for the anticipated additional ridership, and/or provide additional UTA staffing to mitigate the potential impacts the event may have.

There are four levels of Major Events:

- Major Events Requiring High-Level Surge Service: An event where anticipated ridership requires UTA to run a significant number of extra trains and/or buses to meet capacity needs.
- Major Events Requiring Mid-Level Surge Service: An event where anticipated ridership requires UTA to run a few extra trains and/or buses to meet capacity needs.
- Major Events Requiring Low-Level Surge Service: An event where anticipated ridership requires UTA add capacity by adding cars onto trains, but not run extra trains or buses to meet capacity needs.
- Major Events Requiring Special Staffing only (No Surge): An event where planned UTA service levels will meet capacity needs, but where UTA staffing is needed to mitigate potential impacts the event may have on safety, reliability, and/or UTA's operations.

Note: UTA plans capacity (the number of cars on each train, the number of trains, and the number of buses) based on UTA's Service Design Standards. UTA uses historic ridership data for a typical service day with no special events to project anticipated ridership for the day. Using that data and following UTA's Service Design Standards, capacity is planned to ensure that the passenger loading standards (the maximum desired number of riders per vehicle) are not exceeded, establishing the baseline service needed for the day.

UTA then determines if additional capacity is needed to support events based on historic and projected event ridership. If an event is anticipated to require additional UTA vehicles above the base line service to meet capacity needs, and/or if additional staffing above the base line staffing level is needed to mitigate the impacts of the event, the event is considered by UTA to be a major event.

 - 5th 5th Sales Tax revenue from Utah county projected to begin in 2027 at \$4.3M
 - D: Operating Exp service adds: MVX (\$2.7M in 2026), other 2026 adds (\$26M pushed to 2027), FR2X (\$11.6M in 2030)
 - 2026 Operating Exp includes a 3% wage increase with the following years inflated at 3.25% avg
 - E: Capital Exp use 2025 Amended & 2026 version 5-Year Capital Plan (5YCP)
 - F: Debt Service values updated to include new bonding as below
- Exceptional values
 - PM Funds high in 2025 and 2026 due to catch-up draws from previous years
 - Capital Sources & Expenses vary based on specific projects in the 5YCP or State of Good Repair projects thereafter
 - Bonding in 2025, 2028 & 2030 for Light Rail Vehicle Replacement (SD100/160 cars) & Ogden Admin Building project
 - Debt Service Expenses in 2029 high due to final balloon payment on Utah County interlocal loan

Section 6: Capital Plan*

Summary of The Proposed 2026-2030 Five-Year Plan Progress

Process:

- Starting in April, interviews were conducted with UTA Project Managers, reviewing existing projects to understand delivery potential for 2025
 - Interviews included Capital, Project Managers, Finance, and Grants representatives
 - Discussed 2026 delivery potential in detail and plans for years 2027-2030, if applicable
- In May, a submission portal for new project requests or budget increases was opened for Project Managers via Laserfiche
- The capital team completed budget meetings in late June and compiled a proposed five-year capital plan (5YCP)
- The newly proposed plan with project amounts was taken to the Executive Team (ET) for review and feedback. The initial proposed 2026 capital plan requested \$344.58 million and a total of \$1.25 billion for the proposed 2026-2030 five-year capital plan
- Capital continued to meet with ET and other teams, receiving feedback, suggestions, and updates regarding potential delays or project cuts
- Following these meetings and receiving input and feedback, the proposed 2026 capital number was reduced to \$311.66 million and \$1.103 billion for the proposed 2026-2030 five-year capital plan
- Capital received a request to analyze the possibility of a new target of \$255.76M for 2026
- Since then, 2025 payment timing for Light Rail Vehicle Replacements have shifted into 2026, increasing the current 2026 total to \$345.66 million. However, the proposed 2026-2030 five-year capital plan total has been reduced to \$1.062 billion
- Capital has worked to match UTA fund amounts from the approved 2025-2029 five-year Capital Plan for 2026 of \$71.81 million. The current gap is \$3.6 million (\$75.41)
- Over the next month, Capital will continue to work on this request

Highlights of the current draft plan:

- Added 2 new projects based on Facilities Master Plan
 - Electrical Systems upgrade
 - Fire Systems Upgrades
- Finishing Mid-Valley X BRT Project
- SGR investment amount (\$776.512M)
 - Vehicles
 - Continue LRV Replacement (2026 proposed capital budget \$20,622,000)
 - Facilities
 - Infrastructure
