

## **Memorandum**

**To:** Planning Commission  
**From:** Niall Connolly, Principal Planner  
**Date:** Aug 15, 2025  
**Re:** Virgin River Management Plan Implementation

---

### **Overview**

At the August 6th meeting, the Planning Commission decided to form a subcommittee to explore additional ways to implement the Virgin River Management Plan. It is intended that this subcommittee will consist of two planning commissioners and Town staff, and will be supported by subject matter experts to provide insight on topics relevant to the river, such as water quality, ecology, flooding and erosion. The frequency of meetings can be determined by the subcommittee members.

The Commission deferred nominating the two subcommittee members at the August 6th meeting. Staff recommends that the Commission now formally select two members to be part of this committee.
