**Update on FY26 Capital Improvement Program (CIP) Applications**

The FY26 CIP application and FY26 Constituent CIP application rankings were reviewed as well as the Mayor's recommendations on those projects. Those applications are now with the City Council who will make the final decision on funding. There is still an opportunity for both the TAB and BAC to give input to the City Council, but since both groups had previously written letters, no additional input will be given. No action was taken.

**Draft list of FY27 CIP Applications**

The draft list of FY27 applications was reviewed and Becka asked for input from the group as far as missing categories or other items they think should be included in this list. Some suggestions are listed below.

- E-Bike Infrastructure
- Bicycle Lane Maintenance
- North Temple Bridge
- California Avenue (west of Redwood Road) & Jordan River Trail Crossings
- Intersection and Driveway Improvements to recent bikeways including 300 West

No action was taken.
