*8. Are there additional thoughts and suggestions you would like to share regarding animal services?					
9. Do you think cats should be liscenced?	YES: 25	NO:12	NO OPINION: 5		

***Additional Comments:**

<p>If dogs are required to be licensed then cats should have to as well. I've no pets at home at this home. If I decided to have bees or chickens a high fee would be okay. You are doing a great job. 500 townhomes lots of stray dogs. NO barking all night</p>	<p>Managers of apartments should be checked for amounts of pets owned.</p>	<p>More traps for catching animals. Nets, I have one I could donate. A big cage trap.</p>	<p>South Salt Lake would be better off if they funded additional animal services officers. The officers do a great job, but I believe animal services is underfunded and understaffed.</p>	<p>Animal services is such an essential service in our community. The officers seem overburdened. I would love to see funding for more. Your shelter staffing, hours, and social media networking would improve with additional funding as well. I hope the city will recognize the need to make this a priority in the coming fiscal year. Thank you for all your hard work and dedication to the animals of our community.</p>	<p>Keep it to two or three dog ownership max</p>
