

### **9-1-3 BUILDING PERMITS**

- A. Required: No person shall commence the erection, construction or building of any commercial or residential structure, building or edifice, nor add to, enlarge, improve, repair, alter, convert, extend or demolish any commercial or residential building or structure within the city without first having applied to the city and having been granted a permit to do so by the county building inspector and city council, paying in advance all permit and inspection fees required by and established by this chapter. All permits shall expire one year after the date of issuance. A zoning permit shall not ordinarily be required for minor repairs or nominal changes to an existing structure necessary for maintenance of the property. Examples are roofing, siding, windows and minor interior repairs and painting. Interior work such as structural work, electrical, mechanical and plumbing replacement work require a Sanpete County building permit.
- B. Fees For Permit: A fee for each building permit shall be paid to the county building inspector and city treasurer in such amount as established by resolution of the city council. (Ord., 3-3-1976; amd. 2002 Code)

#### **HISTORY**

*Amended by Ord. 2020-01 on 9/3/2020*

*Amended by Ord. 2023-02 on 4/6/2023*

## **10-1-4 ZONING PERMIT REQUIRED**

In addition to the requirements of Section 9-1-3 of the Code relating to Building Permits, no person shall commence the erection, construction or building of any structure, building or edifice, nor add to, enlarge, alter, convert or extend any building or structure (minor repairs excepted, see Part D) within the city, nor shall any person demolish any historic or major structure (see SCMC 10-1-3, "Definitions") without first obtaining a zoning permit from the city, (Ord. 2005-01, 9-8-2005)

- A. The city zoning administrator shall review applications for zoning permits. Review may be conducted concurrent with the review of building permit applications by the County. Review by the City shall assure that the proposed use is consistent with the zoning of the property and the placement of structures and improvements are consistent with the ordinances of the city. Application fees shall be paid before a zoning permit is issued and shall be in an amount set by the city council. (Ord. 2014-01, 5-15-2014)
- B. In the case of a zoning permit within the historic district, the permit must also be reviewed by the historic preservation subcommittee so they can give advice and counsel upon matters concerning historic style and preservation as well as available historic grants (see SCMC 10-6, article H). Note: Although some changes may not require a zoning permit, when the property falls within the historic district it would be a good idea for owner to consult with the historic preservation subcommittee as a matter of course so that the subcommittee can advise on matters of historic preservation.
- C. Payment in advance for permit and inspection fees established by the city council must be made before a building permit can be issued from the county building inspector's office. (Ord. 2005-01, 9-8-2005)
- D. Provisions of this section shall not ordinarily apply to nominal changes or minor repairs necessary for normal maintenance of the property such as roof or siding repairs, replacing of windows, minor interior changes, painting, minor landscape changes, etc. Renovation and remodeling work requiring Planning and Zoning Commission review includes electrical, mechanical plumbing and framing work. (Note: Although some changes may not require a zoning permit, when property falls within the historic district the owner may want to consult with the historic preservation subcommittee concerning matters of historic style and preservation.) Should there be issues or questions, the zoning administrator shall determine whether or not a project is to be regarded as nominal or normal maintenance. If it is determined that the project is normal maintenance, no zoning permit will be required. For accessory structures under two hundred (200) square feet without services, a zoning permit is required but the fee is waived. The permit is required to ensure that such structures comply with existing setback ordinances as described in SCMC 10-6A-6. (Ord. 2014-01, 5-15-2014)
- E. All issued permits shall expire if construction is not commenced within ninety (90) days and are invalid one (1) year after the date of issuance. (Ord. 2005-01, 9-8-2005)
- F. A buffer zone exists around the perimeter of Spring City. This Buffer Zone extends one-half (1/2) mile from the municipal boundary. Zoning permit applications in the Buffer Zone must be reviewed by the Spring City Planning and Zoning Commission and submitted for review and approval by Sanpete County. A Spring City Buffer Zone permit application will require the same information as found in the Spring City Zoning Permit Application. Applications including requests for connections to Spring City utilities, including culinary water, sewer and/or power will be reviewed by either or both of the City and the City's consulting engineers. All direct and indirect costs to review and provide services shall be borne by the applicant. Buffer zone properties recorded by the Sanpete County, Utah Recorder's Office on or before January 1, 2018 and 1.0 acres or larger are not required to have a minimum of 200 feet of frontage along a public street or road. All other provisions of the SCMC apply.

、 HISTORY

Amended by Ord. 2020-01 on 9/3/2020

Amended by Ord. 2021-01 on 1/7/2021

Amended by Ord. 2023-03 on 4/6/2023

#### **10-1-8 PERMIT FEES**

Each zoning permit shall require payment of current and commensurate fees as established by resolution of the city council. Said fees are based upon the ease or complexity of establishing water, sewer and electrical connections to property or other fees as may be prescribed by the city council. A building permit must be purchased from the county building inspector and all fees pertaining to said permit are regulated and determined by the county building inspector's office. Any other fees incurred by the city will be paid by the builder/developer. (Ord. 2005-01, 9-8-2005)

**SPRING CITY  
ORDINANCE 2025-04**

**AN ORDINANCE AMENDING TITLE 10-6E-1 EXTENDING THE LIGHT  
COMMERCIAL ZONE ONE BLOCK NORTH**

**WHEREAS**, the Spring City Planning and Zoning Commission ("P&Z") has considered need to revise provisions in Title 10 for the Spring City Code relating to Zoning Regulations, in regards to the comercial light zone; and

**WHEREAS**, P&Z has proposed adding text outlining the light commercial zone; and

**WHEREAS**, P&Z has proposed extending the light commercial zone one block north to 600 North; and

**WHEREAS**, Notice of a Public Hearing regarding the proposed amendments has been published as required by applicable law; and

**WHEREAS**, a Public Hearing was held on the evening of Wednesday, July 30, 2025; and

**WHEREAS**, following the Public Hearing and at a subsequent meeting of the City Council, at which the amendments were considered for adoption;

**NOW THEREFORE**, be it ordained by the Council of the Spring City, in the State of Utah, as follows:

**SECTION 1:**        **AMENDMENT** "10-6E-1 PURPOSE AND INTENT" of the Spring City Municipal Code is hereby *amended* as follows:

**BEFORE AMENDMENT**

**10-6E-1 PURPOSE AND INTENT**

The LC-1 zone in Spring City is hereafter designated as the light commercial zone. This zone is a mixed-use residential and light commercial zone. Any commercial business in this zone shall not create offsite impacts that exceed the offsite impacts of residential uses which are customary in this zone. The objective in establishing the LC-1 zone is to provide a choice of locations near the city center where light commercial businesses may prosper. A commercial business license is required to operate a business within this zone. This zone is calculated to rebuild the economic core of the community and is characterized by a mixture of commercial uses such as small retail stores, restaurants, craft stores, offices, and service oriented business providing products and services to the residents of the city and the traveling public. This zone is not intended nor shall it be a heavy commercial zone with large nationally franchised retail

superstores and no provision is made to have such a zone within the city as it is the majority opinion of the citizens that large commercial endeavors are not in keeping with the personality of the small, low density, rural community they wish to promote. Neither is this zone intended to be for large manufacturing or industrial uses, construction company yards, or storage units or business establishments that require exterior storage of goods. All commercial and retail activities, therefore, shall be small in scope and appearance. This zone shall be characterized by clean, well kept shops providing products and services for the community. It shall also be characterized by aesthetically pleasing landscaped walkways, historical lighting, small inviting areas with park benches where shoppers may gather to relax, a minimal amount of visible electric and phone lines or poles, and advertising signs. Although the retail aspects of permitted businesses are basic in this zone, some light manufacturing may be an integral part of such business and may therefore, upon condition, be permitted in this zone. For that part of this zone that falls within the historic district (see SCMC 2-1 and SCMC 10-6 article H, "HD Historic District"), every attempt should be made to follow the historic guidelines. Before obtaining a building permit, all owners/developers within the historic district are required to meet with the historic preservation subcommittee for advice on all matters pertaining to historical preservation, historic building styles, and possible historic grants (see SCMC 10-6E-12, "Historic District"). Although some of this LC-1 zone may fall outside of the historic district, in regards to new construction or renovation, it is the policy of Spring City to encourage good style and design compatible in motif and materials with the historic architectural theme of the city. (Ord. 2014-01, 5-15-2014)

## AFTER AMENDMENT

### 10-6E-1 PURPOSE AND INTENT

The LC-1 zone in Spring City is hereafter designated as the light commercial zone. This zone is a mixed-use residential and light commercial zone. Any commercial business in this zone shall not create offsite impacts that exceed the offsite impacts of residential uses which are customary in this zone. The Light Commercial Zone in Spring City is hereby located from 300 North to 300 South extending to 100 West to 100 East and from 300 North to 600 North extending to 50 West and 50 East. (See the City Zoning Map) The objective in establishing the LC-1 zone is to provide a choice of locations near the city center where light commercial businesses may prosper. A commercial business license is required to operate a business within this zone. This zone is calculated to rebuild the economic core of the community and is characterized by a mixture of commercial uses such as small retail stores, restaurants, craft stores, offices, and service oriented business providing products and services to the residents of the city and the traveling public. This zone is not intended nor shall it be a heavy commercial zone with large nationally franchised retail superstores and no provision is made to have such a zone within the city as it is the majority opinion of the citizens that large commercial endeavors are not in keeping with the personality of the small, low density, rural community they wish to promote. Neither is this zone intended to be for large manufacturing or industrial uses, construction company yards, or storage units or business establishments that require exterior storage of goods. All commercial and retail activities, therefore, shall be small in scope and appearance. This zone shall be characterized by clean, well kept shops providing products and

services for the community. It shall also be characterized by aesthetically pleasing landscaped walkways, historical lighting, small inviting areas with park benches where shoppers may gather to relax, a minimal amount of visible electric and phone lines or poles, and advertising signs. Although the retail aspects of permitted businesses are basic in this zone, some light manufacturing may be an integral part of such business and may therefore, upon condition, be permitted in this zone. For that part of this zone that falls within the historic district (see SCMC 2-1 and SCMC 10-6 article H, "HD Historic District"), every attempt should be made to follow the historic guidelines. Before obtaining a building permit, all owners/developers within the historic district are required to meet with the historic preservation subcommittee for advice on all matters pertaining to historical preservation, historic building styles, and possible historic grants (see SCMC 10-6E-12, "Historic District"). Although some of this LC-1 zone may fall outside of the historic district, in regards to new construction or renovation, it is the policy of Spring City to encourage good style and design compatible in motif and materials with the historic architectural theme of the city. (Ord. 2014-01, 5-15-2014)

**EFFECTIVE DATE** This Ordinance shall be in full force and effect immediately upon the required approval and publication according to law.
