

U.S. Route 189

US-40 to 3600 South

SAFETY PROJECT

by UDOT

UDOT is proposing a project to construct three separate segments of 42-inch concrete barrier in the median along US-189 in Heber (see map).

The goal of this project is to improve safety and help reduce or eliminate crossover accidents along this section of high-speed highway that grows busier as more communities connect to Heber Valley and surrounding recreational areas.

Open House

You're Invited!

Join us for an open house on Tuesday, September 16. This is an opportunity to meet the team in-person and learn more about the project's goals, potential property impacts, and the proposed design for these safety improvements along US-189 between US-40 and 3600 South.

Date: Tuesday, Sept. 16, 2025

Time: 5:00 - 7:00 p.m.

Where: Charleston Town Hall
3454 W 3400 S
Heber City, UT 84032

We look forward to seeing you there!
