Re:

2025-2026 TSSA & SLT Plan Change Request for Three Falls Elementary

We are writing to formally request an amendment to our 2025–2026 TSSA Plan. Three Falls Elementary originally allocated \$6,800 in the plan to provide an additional stipend for our 4th and 5th grade Dual Immersion (DLI) teachers. This stipend was intended to compensate for the increased workload due to the need to combine smaller classes, resulting in one teacher instructing two grade levels with class sizes over 30 students.

Since the plan's approval, we have been able to secure an additional Chinese DLI teacher. As a result, only our English DLI teacher will be teaching two grade levels.

We respectfully request that the allocated amount of \$6,800 remain the same, but that the plan's description be broadened to include:

**"Stipends for professional learning and training outside regular duties for any teacher to support literacy and/or math."**

Thank you for your time and consideration. We look forward to your response.

Sincerely,

Three Falls Elementary
