SUPERINTENDENT RICHARD HOLMES

Dear WCSD School Board Members~

July 31, 2025

Washington County School District Offices are asking for a blanket approval to both the 2024-25 TSSA plans AND the 2025-26 TSSA plans district wide. School Messenger is a program that is used to push information to parents and guardians with school business/information. This Program is paid for in one, total invoice that serves all schools per pupil. We are asking to amend each school's TSSA plan to include the payment for this program. Each school needs to pay for their portion of the program, and it is currently being taken from the TSSA account. School administrators are aware of this expense.

We respectfully ask that the plans be retroactively amended for the 2024-25 year as well as the 2025-26 year moving forward.

Brent Bills can address any questions you may have concerning this amendment.

Thank you for your time and consideration.

Kristine Hirschi
