Subject: Support for OAM2025-001431
Date: Wednesday, September 17, 2025 1:56:08 PM

Honorable Members of the Town of Brighton Planning Commission,

On behalf of my family that owns [REDACTED] in Brighton, I write to support Ordinance OAM2025-001431 as written, without the proposed changes to the Ordinance proposed by Solitude Mountain Resort. As you are aware, the Ordinance as originally drafted, removes the carveout in Brighton's town code that allows ski resorts to build commercial developments in Forestry Zones. It is my belief that the spirit of the carveout related to the appropriate and necessary distinction of ski resorts as promoting responsible recreation, as well as the preservation of habitat and the watershed through the creation of ski runs, from the types of development that would otherwise never be permitted in Forestry Zones. Taken together with the use definition separating "Ski Resorts" from "Ski Resort Support Facilities", eliminating the carveout ensures that the town's distinctive and increasingly vulnerable undeveloped lands are protected as intended.

Thank you for your consideration of this important matter. I am available via this email or on my mobile phone (below), should you wish to discuss this any further.

Warm regards,

Hilary Bishop Scott

[REDACTED]
